如何准备雅思考试（丛书序）

我国雅思考生目前已达近 50 万人，而许多国家的院校纷纷提高了入学门槛，对考生雅思成绩的要求越来越高。面对如此强大的竞争队伍以及入学压力的增加，作为考生之一的你，该如何面对呢？

一、先学词汇！

本丛书的各个分册附录部分均有词汇学习。由于词汇是语言学习的根本，因此，你首先应该学好词汇并加以灵活运用。

本丛书提醒你：**词汇一定要会用！**

在学习本丛书之前，你可以先学习附录中的词汇，在每个词条边上都有“□□□”，你可以边学边做记号，比如，可将其设置为“初记、掌握、应用”3 个级别。这样，你就可以通过层层筛选的方式，逐步缩短记词时间，还可以对部分词汇进行反复记忆。

二、向 7 分冲击！

考 6 分，那是必须的，但如果你止步不前，那大部分院校只会向你关门。你现在必须考 7 分或更高的分数才行。

本丛书提醒你：**一定要打好基础！**

本丛书重在基础知识的灵活运用，通过大量的实例让你在翻看图书的同时，还可以背诵并加以运用。由于实例均结合雅思考试题型及考试场景，你还可以模拟真实场景进行自我测试，因此，通过对本丛书的细致学习，考 7 分是可行的！

三、一个月迅速提高雅思成绩！

短时间内提高雅思成绩要求你必须具备扎实的语言基础和充分的考试准备。学习资料的深入分析或者培训院校的细致辅导，都会帮助提高你的雅思考试成绩。

本丛书提醒你：**一定要准备充分！**

本丛书通过循序渐进的方式，由浅入深，逐步讲解雅思考试各专项语言知识点，并将这些知识点融会贯通，在短短一个月的时间内，将这些知识点按照每天进行划分学习，不但辅助你

安排学习进度，还让你提高了雅思的学习效率。只要你在一个月的时间内，按照学习进度进行深入复习，一定能获得雅思高分！

四、合理安排学习进度！

我们并不提倡你废寝忘食地学习，因为一味地学习只会增加你的心理负担。你可以运用休息的时间来放松一下紧张的心情或思考下一周复习的内容。

本丛书提醒你：**一定要劳逸结合！**

本丛书按照一个月的备考时间编写，学习内容具体到每一天，但周六、周日并没有安排学习内容，这样的学习进度安排可以让你张弛有度，也可以帮助你在临考前适应考试节奏，而不至于过分紧张。

如何备考雅思写作（本书序）

备考雅思阅读涉及 5 个方面：词汇、句子分析、方法技巧、做题和机经。

词汇。词汇是阅读的核心，没有一定的词汇量，顺利阅读都免谈。另一方面，没有必要花很多时间去记忆偏、难、怪词。因此，本书附有雅思阅读 3 000 高频词汇，同学们应首先集中精力，认真地学习这些词汇。

句子分析。学会分析句子是提高阅读水平的关键之一。从近年雅思考试的阅读理解文章上看，可以看出句子的两个特点：句子较长、句子结构复杂。因此，本书在第一周首先分类选出了几十个有代表性的难句，给出中文译文，并进行了句子结构分析。考生们如能对这些难句认真地进行分析和研究，必定会提高自己的句子分析能力。

方法技巧。雅思阅读考试是有很多规律性的，而掌握这些规律，是考生能取得理想成绩的关键。很多考生在备考时盲目地做题，不但浪费了宝贵的备考时间，也没有取得很好的效果。本书在第一周便提出了“双向式阅读法”，并分题型给出了各题型解题技巧。考生们在做题前，应仔细阅读这部分内容，掌握雅思考试阅读的方法和技巧。

做题。考生们都知道做题对雅思阅读的重要性。在做题时，要注意以下两点：

1. 做与目前雅思考试风格一致的模拟题

在本书第二周和第三周，选用了大量的练习题。这些例题和模拟题从文章题材、难易程度、出题思路到解题方法都与实际的考试题目基本一致。做这些题目，对考生们参加实际的雅思考试是非常有帮助的。

2. 做完题后，要仔细地分析研究

有的考生在做完一套题后，对完答案，就认为万事大吉了。这是很不对的。重点应放在试题分析上，也就是将答案核对完后，要看某些题为什么做错，为什么没有找到答案。即使是做对的题目，也有必要了解为什么做对了。本书给出了每个题目的详细解题过程，使考生们知其然，还知其所以然。考生们阅读本书，如同一位有经验的老师在你身边亲自辅导一样。

机经。熟悉雅思阅读机经成为考生备考雅思阅读的必备项目，这对基础好的考生能起到锦上添花的作用，对一些基础弱的考生可能还会起到决定性的作用。本书在最后一周给出了“雅思阅读机经”。这些机经，不仅可以帮助考生更好地熟悉雅思阅读考试题型，还可以帮助考生深入思考，理清雅思阅读考试的解题思路。

参与本书编写的人员还有: 卢峭梅、李铁戎、张喆、刘浩、成扬、韩天、曹淳、关丽乔、何玲玲、刘蓉、罗君、聂文歆、施媛、孙铭雪、王玮龙、韦涵、詹妮、张雄灵、章晶、湛智、郑思贤、孙榕、肖一鸣、罗丹、郑楠、顾惠芳、温丽媛、周晨非、钟晓图、王小蓓、李涵琦、韩硕、沈帝伯、林冰莹、阎奕琳、周艳芝和唐诗。

在本书编写的过程中, 作者参考了一些关于英文阅读的书籍, 在此对相关作者表示感谢。

祝广大考生雅思考试取得成功。

Day 1 不可不知的阅读句型

结构复杂的简单句

如果句子只包含一个主谓结构，而句子各个成分都只由单词或短语表示，它就是简单句（不管句子是长是短）。有的简单句并不简单，也很长，复杂的简单句包括：

1. 动名词及动名词短语做主语、表语、宾语；
2. 分词及分词短语做定语、状语；
3. 不定式及不定式短语做主语、宾语、表语、定语、状语。

一 动名词短语

1. Reconciling such interests is not easy.

结构分析：动名词短语 **reconciling such interests** 做主语。动名词短语做主语时，谓语一般用单数。

中文译文：调和这些利益是不容易的。

2. In other words, seeing large pupils gives rise to larger pupils.

结构分析：动名词短语 **seeing large pupils** 做主语。

中文译文：换句话说，看大的瞳孔会引起瞳孔变得更大。

3. It involves probing for deeply rooted concerns, devising creative solutions, and making tradeoffs and compromises where interests are opposed.

结构分析：这是一个简单句。主语是 **it**，谓语是 **involves**，3 个动名词短语做宾语（属于平行结构）。**trade-off and compromises**，在阅读中经常出现“A and B”或“A or B”，其中 A、B 同义或近义，所以只要认识其中一个，就能猜测出另一个词的大致意思。

中文译文：它涉及探究深层次的关注，想出有创造性的解决方案，以及当利益出现矛盾时做交易和妥协。

4. Making it possible for that network to match the communications demands of the near future will require new technologies that widen the lanes on the information highway.

结构分析：此句的主语是由一个动名词短语来担当的，即：**Making it possible ... the near future**。此处，该动名词短语的词性相当于名词，表示主动关系。

中文译文：该网络要想满足不久的将来的通信需求，就需要在信息高速路上增加传输带宽的新技术。

5. By sitting on all the colleges' boards and committees and by joining with NUS nationally, the Students' Union aims to represent your interests as student and, when necessary,

fight for your rights and welfare.

结构分析：介词 by 之后是由 and 连接的两个动名词词组，即：(1) sitting on all the colleges' boards and committees 和 (2) joining with NUS nationally。主句中的谓语动词 aims to 之后所带的也是由 and 连接的两个目的动词词组，即：(1) represent your interests as students 和 (2) when necessary, fight for your rights and welfare。其中在第二个动词词组中有一个插入语 when necessary，理解该词组时，应该先跳过插入语，直接将 and fight for your rights and welfare 理解清楚，然后再看插入语的内容。

中文译文：通过加入本大学各个董事会和委员会，并参与全国性的联盟组织 NUS，学生会旨在代表你作为学生的利益及在必要之时，为你的权利和福利而斗争。

二 分词短语

1. The most common procedure for doing this is negotiation, the act of communication intended to reach agreement.

结构分析：过去分词短语 intended to reach agreement 是 the act of communication 的后置定语。the act of communication intended to reach agreement 是 negotiation 的同位语，对 negotiation 进行解释。

中文译文：做这件事的最通常的方法是谈判，一种想要达成一致的交流行为。

过去分词短语做后置定语的情况在雅思阅读中经常出现。因为形式相同，有时，容易被当成谓语（过去式），从而造成理解上的障碍。怎样区分动词加 ed 形式是谓语（过去式），还是后置定语（过去分词短语）呢？有两种方法：

- (1) 看它与前面的词是主动还是被动的关系。是主动的关系，则是谓语（过去式）。如果是被动的关系，则是后置定语（过去分词短语）。如，paper used for packaging，纸张是被用于包装的，所以 used for packaging 与 paper 是被动的关系，是过去分词短语做后置定语。
- (2) 看句子中是否有其他的谓语成分。一个简单句中只能有一个谓语成分，所以如果该句已有了一个确定无疑的谓语，那么这个动词加 ed 短语就只能是过去分词短语了。

2. Yet, a father accepting responsibility for behaviour problems is linked with positive outcomes.

结构分析：accepting responsibility for behaviour problems 是现在分词短语做 father 的后置定语。

中文译文：诚然，一个对行为问题负责任的父亲与正面的结果有关。

3. First established by the British as a convict settlement in 1788, it is a modern cosmopolitan city that has developed into one of the nation's major industrial, business, and

manufacturing centers.

结构分析：实际上，此句的完整说法应该是：(It was) first established ... settlement in 1788, (and) it is a ... manufacturing centers. 因为 (It was) first established ... in 1788 和 (and) it is a modern ... manufacturing centers 之间的主语相同，都是 it，并且前一个分句的主语 it 和紧随其后的那个系动词 was 都可以省略掉，也就是说，此句可以省略成一个带有过去分词短语的单句，表示两者是被动关系。

中文译文：最早在 1788 年，英国人将它建成为罪犯流放地；它现在已然成了一个国际化的大都会，是全国主要的工业、商业和制造业中心之一。

4. The suburbs reach out from the city centre and harbour some 55 km to the north, 35 km to the west and 30 km to the south, creating a metropolitan area of about 3,000 square kilometers.

结构分析：该句的完整表达是：The suburbs ... to the south, (which) create a ... square kilometers. 因为 The suburbs reach ... to the south 和 (which) create a metropolitan ... square kilometers 之间的主语相同，都是 the suburbs，为了避免重复和累赘，后一个分句的主语 which (= the suburbs) 可以承前省略，也就是说，此句可以省略成一个带有现在分词短语的简单句，表示两者的逻辑关系是主动关系。

中文译文：郊区是由从市中心和港口向北延伸约 55 公里、向西延伸约 35 公里、向南延伸约 30 公里的区域所组成的，这就形成了一片大约 3 000 平方公里的大都会区域。

5. Several countries, including Indonesia, Thailand and the Philippines, are expected to demonstrate high rates of growth in demand for power, an encouraging situation for those countries quick enough to develop and commercialise fuel cell technology.

结构分析：该句中 including 所带的短语是由一个非限制性定语从句简化而来的，即：Several countries, (which) are including Indonesia ... expected to... 因为 which 所指就是 several countries，所以非限制性定语从句可以为了避免重复而省略为一个现在分词短语，表示两者之间是主动关系。此外，该句中的现在分词 encouraging 表示其所修饰的中心词 situation 的性质是“让人受鼓励的”“鼓舞人心的”。

中文译文：在电力的需求上，包括印度尼西亚、泰国、菲律宾在内的几个国家有望表现出高增长率。对于那些在迅速发展燃料电池技术并使其商业化的国家来说，这是一种鼓舞人心的局面。

三 不定式短语

1. To resolve a dispute means to turn opposing positions into a single outcome.

结构分析：不定式短语 **to resolve a dispute** 做主语，谓语是 **means**，不定式短语 **to turn opposing positions into a single outcome** 做宾语，其中分词 **opposing** 是 **positions** 的定语。

中文译文：解决一个冲突意味着把相反的各方变成一个单一的结果。

2. Initially, the RTA had proposed to erect a new timber fence, replacing the existing suburban fences, to act as a noise barrier.

结构分析：不定式短语 **to erect a new timber fence** 做 **had proposed** 的宾语。**replacing the existing suburban fences** 是分词短语做状语，其中，**existing** 是现在分词做 **suburban fences** 的前置定语。**to act as a noise barrier** 是不定式短语做状语。

中文译文：最初，RTA 建议建造一个新的木屏障来代替现存的屏障，以作为噪声屏障。

3. The Fanwall barrier to be installed at Rhodes is the first to be erected in Australia.

结构分析：不定式短语 **to be installed at Rhodes** 做 **Fanwall barrier** 的后置定语，不定式短语 **to be erected in Australia** 做 **the first** 的后置定语。

中文译文：将要在 Rhodes 建造的 Fanwall 屏障是澳大利亚建造的的第一个 Fanwall 屏障。

4. Any attempt to trace the development from the noises babies make to their first spoken words leads to considerable difficulties.

结构分析：本句的主干为 **any attempt...leads to...**，动词不定式 **to trace the development from the noise...to their first spoken words** 做 **attempt** 的定语。**babies make** 为定语从句，修饰 **noises**，前面省略了 **that**。

中文译文：试图探索婴儿从发声到开始说话的发展过程是十分困难的。

复合句

复合句中包含两个或更多的主谓结构，其中有一个（或更多的）主谓结构充当句子的某一（些）成分，如主语、宾语、表语、定语、状语、同位语等。充当一个句子成分的主谓结构称为从句。由于从句在句子中的句子成分不同，可分为主语从句、宾语从句、表语从句、定语从句、状语从句和同位语从句等。

对付复合句及多重复合句的方法是，先抓住主干，即抓住主句，然后再识别从句的类型，进而搞懂整句话的意思。大部分题目的答案来自主句，但也有少部分题目的答案来自从句。

一 定语从句

1. Interests are needs, desires, concerns, fears — the things one cares about or wants.

结构分析：**one cares about or wants** 是 **the things** 的定语从句。

中文译文：利益是需要、渴望、关注、恐惧，是一个人关心或想要的东西。

2. Another interests-based procedure is mediation, in which a third party assists the

disputants, the two sides in the dispute, in reaching agreement.

结构分析: in which 引出的定语从句 in which a ... reaching agreement, 是对 mediation 的解释。在定语从句中, the two sides in the dispute 是 disputants 的同位语, 同时也是插入语结构。

中文译文: 另一个基于利益的过程叫作调解, 在调解中第三方帮助冲突者(即在冲突中的双方)达成一致。

3. In one experiment, subjects aged 6 to 22 were shown drawings of female faces that had different sized pupils, and asked to choose the one which was “happier”.

结构分析: 全句主语是 subjects, 有两个并列谓语 were shown 和 and asked, 都是被动语态。that had different sized pupils 是定语从句, 做 drawings of female faces 的定语。which was “happier” 是定语从句, 做 the one 的定语。过去分词短语 aged 6 to 22 是 subjects 的后置定语。

中文译文: 在一个试验中, 6 岁到 22 岁的实验对象看具有不同瞳孔大小的女性的脸的图画, 并被要求从中选出更高兴的一个。

4. At Beth Israel each patient is assigned to a primary nurse who visits at length with the patient and constructs a full-scale health account that covers everything from his medical history to his emotional state.

结构分析: 主从复合句。主句为 At Beth Israel each patient is assigned to a primary nurse。who 引导的定语从句修饰 nurse, 其中两个谓语 visit 和 construct 由 and 连接。that 引导的定语从句修饰 account。

中文译文: 贝斯·以色列医院为每一位病人指派一名责任护士, 责任护士要与指派给她的病人深入交谈, 并对病人的身体状况做全面记录, 内容包括从病史到病人情绪等一切事情。

5. It was so hard to sell a story that barely made enough to eat.

结构分析: 句中的 it 是形式主语, 动词不定式短语 to sell a story that barely made enough to eat 是真正的主语。其中关系代词 that 引出一个定语从句, 修饰前面的 story, 而非与前面的 so 相呼应。make 的意思是“挣得”“赚得”。

中文译文: 想要卖掉一篇小说以求果腹是多么困难。

二 状语从句

1. Although it is usually straightforward where rights are formalised in law, other rights take the form of unwritten but socially accepted standards of behaviour, such as reciprocity, precedent, equality, and seniority.

结构分析: although 引导一个让步状语从句。注意本句的最后有一个 such as, 是“例如”

的意思，后面的内容往往是举例说明，是属于不重要的内容，可不作为阅读的重点。**socially accepted** 是 **standards of behaviour** 的前置定语。

中文译文：虽然在法律中有正式规定的行为的对错是很直截了当的，但其他的对错采取的是非书面的、社会接受的行为标准，例如：互惠、先例、平等和资历。

2. There is also higher marital satisfaction for fathers, especially when they take more responsibility for the needs of their children—fathers are happier when they are more involved.

结构分析：两个 **when** 引导两个时间状语从句。

中文译文：特别是当父亲们对孩子们的需要负更大责任时，他们有更高的婚姻满意度。当父亲们参与更多孩子的生活时，他们更高兴。

3. The fridge's effect upon the environment has been evident, while its contribution to human happiness has been insignificant.

结构分析：**while** 引导一个让步状语从句。

中文译文：冰箱对人类幸福贡献不多，对环境的影响倒是不小。

4. A breakthrough in the provision of energy from the sun for the European Economic Community (EEC) could be brought forward by up to two decades, if a modest increase could be provided in the EEC's research effort in this field, according to the senior EEC scientists engaged in experiments in solar energy at EEC's scientific laboratories at Ispra, near Milan.

结构分析：全句主干为：A breakthrough...could be brought forward...，主语 breakthrough 被介词短语 in the provision of ... European Economic Community (EEC) 修饰，而 provision 又被两个介词短语所修饰：一是在逻辑上与之构成直接宾语的 of energy from the sun，另一个是目的状语 for the European Economic Community。if 引导的从句为主句的条件状语。according to 引导的介词短语也做状语，其中过去分词短语 engaged in experiments in solar energy at EEC's scientific laboratories at Ispra, near Milan 修饰 scientists，做定语。

中文译文：在米兰附近的伊斯普拉的欧共体科学实验室里，进行太阳能实验的欧洲经济共同体资深科学家们认为，如果略微增加欧洲经济共同体在利用太阳能方面的研究经费，就能使这方面的研究提前 20 年取得突破。

5. When they get sick, we transfer them to a hospital, where children are forbidden to visit terminally ill patients — even when those patients are their parents.

结构分析：第一个 **when** 引导的时间状语从句修饰主句 we transfer them to a hospital。

where 引导的定语从句修饰 **hospital**。第二个 **when** 引导的时间状语从句修饰 where 引导的从句。

中文译文：他们生病时，我们把他们转到医院。孩子们不许去医院探望患有不治之症的病人，即使病人就是他们的父母也不行。

三 宾语从句

1. It is often complicated to attempt to determine who is right in a dispute.

结构分析：it 是形式主语，实际主语是不定式短语 **to attempt to determine who is right in a dispute**。宾语从句 **who is right** 是 **determine** 的宾语。

中文译文：企图决定谁在冲突中是正确的通常很复杂。

2. Despite the significant increase in the number of women with dependent children who are in the paid workforce, Australian research studies over the last 15 years are consistent in showing that divisions of labour for family work are very rigid indeed.

结构分析：**despite** 是介词，**despite the significant ... paid workforce** 是介词短语做状语。

其中，**who** 引导的定语从句 **who are in the paid workforce** 做 **women** 的定语。

主句中有 **that** 引导的宾语从句 **that divisions of labour for family work are very rigid indeed**，做 **showing** 的宾语。

中文译文：虽然参加工作的有孩子的妇女数目显著地上升，过去 15 年澳大利亚的研究一致表明，家庭工作的劳动分工实际上是非常固定的。

3. Behaviorists, who study the relation between actions and their consequences, argue that rewards can improve performance at work and school.

结构分析：主语 **behaviorists** 由 **who** 引导的非限制性定语从句修饰。**that** 引导的从句做谓语动词 **argue** 的宾语。

中文译文：研究行为与结果之间的关系的行为主义者认为：奖励能提高工作和学习的表现。

4. Cognitive researchers, who study various aspect of mental life, maintain that rewards often destroy creativity by encouraging dependence on approval and gifts from others.

结构分析：主语 **cognitive**（认知学派的）**researchers** 由 **who** 引导的非限制性定语从句修饰。**that** 引导的从句做谓语动词 **maintain** 的宾语。

中文译文：研究精神生活各个方面的认知学派研究人员们认为：奖励促使学生对别人给予的肯定和礼物有依赖心理，所以常常会破坏他们的创造性。

5. In such a case, it is usually settled in the consumer's favor, assuming he or she has a just claim.

结构分析：现在分词 **assuming**（倘若，假如）后接宾语从句，一起做后置状语。

中文译文：在这种情况下，假如消费者提出的要求合理，常常按对其有利的办法解决问题。

四 主语从句

1. It has already been well established that changes in pupil size are clearly associated with changes in attitude.

结构分析：主句从句。it 是形式主语，that 到句尾是 that 引导的从句，做真正的主语。

pupil 在这里的意思是“瞳孔”，而不是“小学生”。雅思阅读中经常考一些熟词的偏僻意思，称为“熟词僻义”，如 novel，常考的意思是“新颖的”，而不是“小说”。

中文译文：瞳孔大小的变化和态度的变化之间有明确的联系，这个观点已经确立起来。

2. That the dilation response is in fact learned rather than innate is supported by experiments with children.

结构分析：that 引导的主语从句 that the dilation response is in fact learned rather than innate，做全句的主语。全句主句结构是一个被动语态，is supported 的意思是“被支持”。

中文译文：瞳孔放大反应实际上是习来的，而不是天生的。在孩子们身上做的实验支持这一结论。

3. What refrigeration did promote was marketing — marketing hardware and electricity, marketing soft drinks, marketing dead bodies of animals around the globe in search of a good price.

结构分析：本句主语为一个由 what 引导的名词性从句，其中的 did 强调 promote，意为“真正”；谓语部分为系表结构 (was marketing)。

中文译文：制冷确实对有些东西的营销有促进作用——把硬件（指冰箱）、电、软饮料以及屠宰后的牲畜销往世界各地，以获得好价钱。

4. The senior German scientist in charge of the Community's solar energy programme, Mr. Joachim Gretz, told journalists that at present levels of research spending it was most unlikely that solar energy would provide as much as three percent of the Community's energy requirements even after the year 2000.

结构分析：全句主干为 the senior German scientist ... Mr. Joachim Gretz told ...。told 带有间接宾语 journalists 和第一个 that 引导的从句担当的直接宾语。在宾语从句中，it 为形式主语，that（第二个）引导的从句是真正的主语。

中文译文：负责欧共体太阳能项目的德国资深科学家 J. 格雷茨告诉记者们说，按照目前的科研预算，即使是到了 2000 年以后，太阳能也不大可能达到欧共体能源需求的 3%。

5. It is likely that the dispute regarding flats versus (对抗) individual houses will continue to rage on for a long time as far as Britain is concerned.

结构分析: It 为形式主语, that 引导的从句为真正的主语; 主语从句又是一个主从复合句, 其中 as far as...concerned 意为“就……而论, 至于”。

中文译文: 就英国而论, 公寓式住房与住宅式住房之争可能仍要激烈地进行下去, 而且短时间内不会得到解决。

五 表语从句

1. The first time that the question “What is at the bottom of the oceans?” had to be answered with any commercial consequence was when the laying of a telegraph cable from Europe to America was proposed.

结构分析: 全句主干为 The first time ... was ...; the first time 后面的 that 引导一个定语从句, 其主语为 the question “What is at the bottom of the oceans?”; when 引导的从句为表语。consequence 的意思是“影响”“重要性”。

中文译文: 当有人建议铺设一条从欧洲到美洲的海底电报电缆时, 人们才第一次必须从商业价值这个角度回答“海洋深处有什么”的问题。

2. The time of day when you feel most energetic is when your cycle of body temperature is at its peak.

结构分析: 第一个 when 引导的从句是 the time of day 的定语, 而第二个 when 引导的从句是表语。

中文译文: 当你一天中感到精力最充沛时, 你的体温正好处于整个能量周期的高峰。

3. One problem with the banned model is that the tubes connecting it to an external power source created a passage for infection.

结构分析: that 引导的是一个表语从句。

中文译文: 遭禁模型的一个问题是, 用以连接它和外部电源的通道容易引起感染。

4. The reason these two wonders of nature are so difficult for many adults to explain to children is that they are not very well understood by adults themselves.

结构分析: 全句主干为 reason ... is ..., reason 后的定语从句 (why) these two wonders of nature are so difficult for many adults to explain to children 进一步说明 reason 的内容; that 引导的是一个表语从句。

中文译文: 许多成年人难以向小孩们解释这两种自然奇迹, 原因是他们自己对这两种奇迹的理解就不够。

5. “The point is, you need to do both,” Cohen says. “Intellectual activity actually influences

brain-cell health and size.”

中文译文：科恩说：“问题在于你得兼顾二者，实际上脑力活动影响脑细胞的健康和大小。”

六 同位语和同位语从句

1. Research studies lend strong support to the argument that there are benefits for families considering a change to a fairer or more equitable division of the pleasures and pains of family life.

结构分析：that there are benefits for families considering a change to a fairer or more equitable division of the pleasures and pains of family life 是 that 引导的同位语从句做 argument 的同位语。在同位语从句中，considering a change to a fairer or more equitable division of the pleasures and pains of family life 是现在分词短语做 families 的后置定语。

中文译文：研究为能够平等分担快乐和痛苦的家庭会受益这一论点提供了有力的证据。

区别一个从句是同位语从句还是定语从句的方法是：在 that 引导的同位语从句中，that 只是连接词，它不在从句中做任何句子成分，所以同位语从句都是完整句；而在 that 引导的定语从句中，that 要做句子成分（主语或宾语），所以 that 引导的定语从句都是不完整句（缺主语或缺宾语）。

2. In what now seems like the prehistoric times of computer history, the earth's postwar era, there was quite a wide-spread concern that computers would take over the world from man one day.

结构分析：what 从句是介词 in 的宾语，又是 the earth's postwar era 的同位语；主句中的 that 引导一个同位语从句，修饰 concern。

中文译文：在现在看来似乎是计算机的史前时期，即第二次世界大战之后的年代里，人们普遍担心有朝一日计算机将取代人类在世界上的地位。

3. There is a popular belief among parents that schools are no longer interested in spelling.

结构分析：that 引导的从句为 belief 的同位语。

中文译文：家长们普遍认为，学校不再对拼写教学感兴趣。

4. At the early attempts, the cable failed and when it was taken out for repairs it was found to be covered in living growths, a fact which defied contemporary scientific opinion that there was no life in the deeper parts of the sea.

结构分析：这是一个由 **and** 连接的并列复合句。第二个并列部分为一个主从复合句，其中 **fact** 指前面的从句所说的内容为同位语，同时被 **which** 引导的定语从句所修饰。**opinion** 后面的 **that** 从句是一个同位语从句，进一步说明 **opinion** 的内容。**defy** 意为“反驳”。

中文译文：在此之前（指 1866 年）的几次电缆铺设都失败了。当人们将电缆从海底捞上来修复时，还发现上面覆盖了许多生物。这一事实反驳了当时的海洋深处无生命的论点。

5. They are only interested in outward appearance and they take advantage of the fact that women will put up with any amount of discomfort, as long as they look right.

结构分析：**and** 连接两个并列分句：第二个并列分句中的 **fact** 之后的 **that** 从句是进一步说明 **fact** 内容的同位语从句（为主从复合句）。**put up with** 意为“忍受”，**as long as** 的意思是“只要”。

中文译文：他们只对外观感兴趣，并利用妇女们只要看起来漂亮就宁可忍受（“时装”带来的）任何不便这一弱点。

🔗 多重复合句

有时，复合句的一个（或多个）从句里可能还包含一个（或多个）从句，即从句里套着从句，这种句子称为多重复合句。多重复合句句式复杂，是同学们阅读的难点。

1. The most typical rights procedure is adjudication, in which disputants present evidence and arguments to a neutral third party who has the power to make a decision that must be followed by both disputants.

结构分析：多重复合句，定语从句中套着两个定语从句。**in which** 至句尾都是 **adjudication** 的定语。**who** 至句尾是 **third party** 的定语。最后一个由 **that** 引导的定语从句是 **decision** 的定语。

中文译文：最典型的判断对错的过程是裁决。在裁决中，冲突双方拿出证据和论证给一个中立的第三方，这个第三方有权做出决定，冲突双方都必须遵守这个决定。

2. Since both rapid and light rail have electric engines, pollution is measured not from the motor exhaust, but from the power plant generating electricity, which is usually located outside the city, where air quality problems are less serious.

结构分析：**since** 引导一个原因状语从句。主句中有一个特殊句型 **not ... but ...**，意思是“不是……而是……”。**generating electricity** 是现在分词短语做 **the power plant** 的后置定语。**which** 引导的定语从句 **which is usually located outside the city** 做 **power plant** 的定语。**where** 引导一个定语从句做 **outside the city** 的定语。抓住了这个句子的主干，就掌握了此句的主要内容。题目常常是考文章中的主要内容，实际考试中的题目如下：**Where is pollution from rail transport measured?** 虽然

它是一个比较复杂的句子，但是如果你能够把握上句话的主干，你还是能做对这道题的，答案为 the power plant。

中文译文：因为高铁和轻轨都有电力发动机，所以污染不是从车辆尾气中测量，而是从产生电力的发电厂测量。发电厂通常位于城市之外，那里空气问题不太严重。

3. However, it now appears that enlarged or constricted pupils can also affect the response of the person who observed them.

结构分析：主语从句。it 是形式主语，that 到句尾是 that 引导的从句做真正的主语。主语从句中有一个 who 引导的定语从句 who observed them 做 person 的定语。所以，全句是多重复合句。注意句子最后的代词 them，指代的是 pupils。从句的意思是：放大或缩小的瞳孔会影响观察这些瞳孔的人的反应。enlarged or constricted 是过去分词做 pupils 的前置定语。

中文译文：然而，现在表明，放大或缩小的瞳孔还会影响观察人的反应。

4. It seems that what is appealing about large pupils in a woman, is that they are an indicator of interest, which can be interpreted as sexual interest.

结构分析：多重复合句。it 是形式主语，that 到句尾是 that 引导的从句做真正的主语。这个主语从句中的主语又是一个主语从句 what is appealing about large pupils in a woman，至句尾 that they are an indicator of interest, which can be interpreted as sexual interest 是主语从句中的表语从句。表语从句中又有一个 which 引导的定语从句 which can be interpreted as sexual interest。

中文译文：看起来，似乎女人的大瞳孔吸引是因为它们是兴趣的表示者，可以被解释为性别的兴趣。

5. Since variations in distances and city densities affect the total kilometres of travel, the annual number of trips each person takes by public transport provides a better standard for comparing its importance in various cities.

结构分析：多重复合句。since 引导一个原因状语从句，主句中有一个定语从句，each person takes by public transport 是 the annual number of trips 的定语。

中文译文：因为距离和城市密度的不同影响旅行的总公里数，所以每人乘坐公共交通每年的旅行数目提供了一个更好的比较它在各个城市的重要性的标准。

6. The challenge now is to develop policies and practices based on a presumption of shared responsibility between men and women, and a presumption that there are potential benefits for men and women, as well as for families and the community, if there is greater gender equality in the responsibilities and pleasures of family life.

结构分析：这个句子比较复杂，全句的主干即 The challenge now is to develop policies and practices，意思是“现在的挑战是开发出政策和实践”。based on 至句尾

是过去分词短语做状语，后一个 **presumption** 后面的 **that** 引导的从句（直至句尾）是 **presumption** 的同位语，在同位语从句中，还有一个 **if** 引导的条件状语从句。

中文译文：现在的挑战是基于如下的假设开发出政策和实践：一个假设是男人和女人之间的共享责任，另一个假设是如果在家庭责任和快乐上有更大的性别平等，对男人和女人，以及家庭和社会，都有潜在的好处。

7. Paper is also biodegradable, so it does not pose as much threat to the environment when it is discarded.

结构分析：这是一个多重复合句。结果状语从句（由 **so** 引导）中套着一个时间状语从句（由 **when** 引导）。**biodegradable** 是一个生词，可以用构词法猜测它的意思，主干部分是 **grade**，意思是“级别”，**degrade** 表示“降级”，**able** 表示“能……，可……”，**bio** 表示“生命的，生物的”，所以此词的意思是“可生物降解的”。

中文译文：纸张还是可生物降解的，所以把它扔掉的时候，它不会对环境造成很大的威胁。

8. A teacher who continually draws attention to rewards or who hands out high grades for ordinary achievement ends up with uninspired students, Eisenberger holds.

结构分析：**Eisenberger holds** 这种结构经常用在直接引语或间接引语最后，这里属于第二种情况。如果把 **Eisenberger** 当作主语，把 **holds** 当作谓语，那么它们之前的部分为一个宾语从句，主干为 **A teacher ... ends up ...**；两个 **who** 引导的定语从句都修饰 **teacher**。

中文译文：艾森伯格认为：如果一个老师不断地要求学生把注意力放在奖励上，并对一般的成绩也大方地送以高分，最终只能培养出无成就的学生。

9. In earlier grades, the use of so-called token economies, in which students handle challenging problems and receive performance based points toward valued rewards, shows promise in raising effort and creativity, the Delaware psychologists claim.

结构分析：句末的 **the Delaware psychologists claim** 表明在此之前的部分为间接引语，其主干为 **the use ... shows promise ...**；**which** 引导的定语从句修饰 **economies**。

中文译文：特拉华（大学）的心理学家们指出：对小学生运用所谓的象征性奖励制度，即学生解决一定要动脑筋才能解决的问题，同时根据表现的好坏得到一定的分数，直到获得宝贵的奖赏，这有望使学生更加努力，更好地发挥创造性。

10. But it will be the driver's responsibility to make sure that children under 14 do not ride in the front unless they are wearing a seat belt of some kind.

结构分析：**it** 为形式主语，真正的主语为 **to make sure** 至句尾的部分；**that** 引导的宾语从句为 **make sure** 的宾语；**unless** 引导的从句为状语从句。

中文译文：但是，驾驶员有责任让坐在前排的 14 岁以下的儿童系上某种安全带，否则不得坐在前排。

🔗 并列句及并列复合句

如果句子包含两个或更多互不依从的主谓结构，就是并列句。并列句中的分句通常用一个并列连词来连接，最常见的并列连词是 **and** 和 **but**。

有时，一个并列句中的一个（或更多）分句可能包含一个（或更多）从句，这种句子就是并列复合句。并列复合句句式复杂，也是同学们阅读的难点。

对付并列句及并列复合句的方法是各个击破。先抓住并列连词 **and** 或 **but**，识别出是并列句后，分别理解并列连词前后的句子。

1. Noise generated by traffic on arterial roads and freeways is an increasing problem in Australia and there is growing concern among highways authorities in Australia about the limitations of some types of noise barriers which have been installed in this country.

结构分析：这是一个典型的并列复合句，并列连词 **and** 连接两个句子，前一个句子是一个简单句，主语是 **noise, generated by traffic on arterial roads and freeways** 是过去分词短语做 **noise** 的后置定语，后面的句子中有一个 **which** 引导的定语从句。

中文译文：在澳大利亚，在主干路和自由路的交通所产生的噪音是一个日益增长的问题。而且澳大利亚的高速公路当局也在关注着在这个国家已经安装的一些噪声屏障的局限性。

2. However, low barriers are not effective and high timber barriers have become much more expensive.

结构分析：一般的并列句，**and** 连接两个简单句。

中文译文：然而，矮屏障无效，高的木材屏障昂贵得多。

3. Furthermore, Fanwall is maintenance free and it is not susceptible to damage by fire and vandalism.

结构分析：一般的并列句，**and** 连接两个简单句。**vandalism** 是一个生词，但因为和 **fire** 在一起（**fire and vandalism**），所以应能猜出是和火灾一样不好的东西，实际在考试中能理解成这样的意思就可以了。

中文译文：而且，Fanwall 是不需要维护的，也不易受到火灾和蓄意破坏造成的损坏。

4. The parental role is central to the stressrelated anxiety reported by employed mothers, and a major contributor to such stress is their taking a greater role in child care.

结构分析：并列句，**and** 前后的句子都是简单句。

中文译文：工作母亲有和压力相关的焦虑，这种压力的主要原因是她们在照顾孩子方面有更大的责任。

5. Governments have encouraged waste paper collection and sorting schemes and at the same time, the paper industry has responded by developing new recycling technologies that have paved the way for even greater utilisation of used fibre.

结构分析：并列复合句。**and** 前面的句子是一个简单句，后面的句子中有一个 **that** 引导的定语从句做 **new recycling technologies** 的定语。**by** 是介词，表示“通过……的方式”的意思，后面常接动名词。

中文译文：政府已经鼓励废纸回收和分类系统，同时，造纸工业也通过开发新的回收技术做出了反应。这个回收技术为更大程度地利用使用过的纸铺平了道路。

6. Already, waste paper constitutes 70% of paper used for packaging and advances in the technology required to remove ink from the paper have allowed a higher recycled content in newsprint and writing paper.

结构分析：并列句，**and** 前后都是一个简单句，但都不简单。**and** 前面的简单句的谓语是 **constitutes**，而不是 **used for**，**used for** 是过去分词短语做 **paper** 的后置定语，**and** 后面的句子的主语是 **advances**，谓语动词是 **have allowed**，**required to remove ink from the paper** 不是谓语，而是过去分词短语做 **technology** 的后置定语。

中文译文：废纸构成了用于包装的纸张的 70%。且从纸张中清除墨水的技术进步了，已经使得新闻纸和书写用纸有了更高的回收率。

7. But the idea never died and the Frenchman Baron Pierre de Coubertin, an educator and scholar, founded the modern Olympics.

结构分析：一般的并列句，**and** 前后是两个简单句。后面的句子中，**an educator and scholar** 是插入语，做主语“顾拜旦”的同位语。

中文译文：但是这个想法从未死亡。法国男爵皮埃尔·德·顾拜旦——一个教育家和学者——创立了现代奥林匹克运动。

小窍门

阅读文章中出现人名、地名时，如果自己知道，可以翻译出来，如本文中的“顾拜旦”。如果不知道，可采用首字母提炼法，如本文中，可用“法国人 BPC”或“法国人 B”，这样，一般是不会影响读文章和做题目的。

8. For most people the sea was remote, and with the exception of early intercontinental travelers or others who earned a living from the sea, there was little reason to ask many questions about it, let alone to ask what lay beneath the surface.

结构分析：本句为并列主从复合句。第二个并列部分中有两个短语：前面一个由介词短语 **with the exception of** 引导，其中包含一个由 **who** 引导的定语从句，修饰 **others**；另一个是动词短语 **let alone**。

中文译文：对绝大多数人来说，海洋是遥远的，除了早期漂洋过海旅行的人或靠海谋生的人之外，人们没有什么理由询问有关海洋的问题，更谈不上询问海底有什么东西这样的问题了。

9. There is another conversation which from our point of view is equally important, and that has to do not with what is read but with how it is read.

结构分析：并列主从复合句。第一个并列部分包含一个由 **which** 引导的定语从句。**has to do with...** 意为“与……有关”。**not ... but ...** 意为“不是……而是……”。

中文译文：依我们看，还有另一种对话同样重要，它与所读的内容无关，而与阅读的方式有关。

10. Every winter, millions of fridges hum away continuously and at vast expense, busily maintaining an artificially-cooled space inside an artificially-heated house—while outside, nature provides the desired temperature free of charge.

结构分析：第一个并列部分前后各有一个状语：前面一个是 **Every winter**；后面一个是 **busily maintaining ... house**。

中文译文：每年冬天，数百万台冰箱不断地嗡嗡作响，花费很大，在人工制热的房间里忙碌地维持着一个人工制冷的空间，而在室外，自然免费为人们提供了理想的温度。

其他句型

一 插入语结构

插入语也是雅思阅读中常出现的一种结构。它一般是对句子中一个句子成分的解释或补充说明，通常是不重要的内容。

插入语的标志：

- (1) 插入语结构前后用逗号断开，如：The book, I think, doesn't provide information about the population in that area. 其中，插入语结构 **I think** 便是这种特点。
- (2) 插入语结构前后用破折号断开，如：The paper said the volcano destroyed most—if not all —of the buildings and construction on the island. 其中，插入语 **if not all** 就属于此类结构。

对付插入语的办法是先略去不读。插入语常常插在主语和谓语之间，也可以插在句子中其他两个句子成分之间。有的插入语比较长，如果对插入语特别注意，就会造成原来句子主要意思的中断，造成理解困难。插入语常常是不重要的内容，所以应先略去不读，这样被分隔的两个句子成分就接上了。

1. In relationships of mutual dependence, such as between labour and management or within an organisation or a family, the question of who is more powerful turns on who is less dependent on the other.

结构分析：**such as between ... or a family** 是插入语，同时也是举例说明，是不重要的内

容，可以先略去不读。全句的谓语是 **turns on**, the question of who is more powerful 是主语，宾语从句 **who is less dependent on the other** 是 **turns on** 的宾语。

中文译文：在相互依赖的关系中，例如劳资关系、家庭关系或组织关系中，谁更有权力的问题就转换成谁更少依赖于另一方的问题。

2. In developing countries, where at least 16 cities are expected to have more than 12 million people each by the end of this decade, failing to give priority to public transport would be disastrous.

结构分析：**where at least ... of this decade** 是插入语，是一个定语从句，修饰 **developing countries**。全句主语是动名词短语 **failing to give priority to public transport**。

中文译文：在发展中国家，至少有 16 个城市在这个 10 年之内人口会超过 1 200 万，如果不优先考虑公共交通，将会有灾难性的后果。

3. Buses and trains carry more people in each vehicle and, if they operate on their own rights of way, can safely run at much higher speeds.

结构分析：全句用 **and** 连接两个并列谓语 **carry** 和 **can safely run**, **if they operate on their own rightsofway** 是个插入语，表示补充说明条件，先略去不读，读者会对全句的意思掌握得更好。全句主干：**Buses and trains carry more people in each vehicle and can safely run at much higher speeds.**

中文译文：公共汽车和火车在每个车辆中装载更多的人，如果它们在自己的路上行驶，就会安全地更高速运行。

4. The 17th Winter Games, held in Norway in 1994, are part of an Olympic tradition which goes back almost 3,000 years.

结构分析：**held in Norway in 1994** 是插入语，从语法成分上看，它是过去分词短语做主语 **The 17th Winter Games** 的后置定语。**which** 引导一个定语从句，做 **Olympic tradition** 的定语。

中文译文：1994 年在挪威举行的第 17 届冬奥会，是可以追溯到几乎 3 000 年以前的奥运会传统的一部分。

5. The only way I know of dealing with this general human conceit is to remind ourselves that man is a brief episode in the life of a small planet in a little corner of the universe, and as we know, other parts of the cosmos may contain beings as superior to ourselves as we are to jellyfish.

结构分析：上句中的插入语结构是 **and as we know**，如果不先跳过这个插入语的话，对于这个本身已经很冗长、复杂的长句来说，考生阅读起来要困难得多。其实，上句带有两个并列平行宾语从句，即：**The only way ... to remind that (1) man is**

a brief ... of the universe, (2) and as we ... to jellyfish. 对于第 (2) 句的理解, 考生如果能够先抛开插入语结构 “and as we know” 而直接将其理解为 “and other parts of the cosmos may contain beings as superior to ourselves as we are to jellyfish”, 这对于把握整个句子的全貌很有帮助。

中文译文: 对付这种人类普遍存在的自负, 我所知道的唯一的办法就是提醒我们自己: 人类不过是宇宙小角落里的一个小星球上的短暂插曲而已, 而且正如我们所知道的那样, 宇宙世界中其他的地方可能存在比人类更高级的东西, 就像我们自己也比水母更高级一样。

二 倒装句式

主语和谓语有两种顺序: 一是主语在前, 这和汉语是一致的, 称为自然语序。另一种是谓语在主语之前, 叫作倒装语序。

陈述句绝大多数都是自然语序, 但在某些情况下却需要用倒装语序。在雅思阅读中经常出现下列几种情况。

(一) only+ 状语位于句首

1. Although numerous books have been written about American mothers, only recently has literature focused on the role of a father.

结构分析: 第二个分句 (即, 主句) 由于把 **only** 放在句首以强调 **recently**, 所以使用了倒装语序。主句的正常语序应为 **literature has only recently focused on the role of a father**。

中文译文: 尽管写美国母亲的书籍很多, 但是文学只是最近才开始关注父亲的角色。

2. Only in recent years have women begun to catch up with men in this area.

结构分析: 全句只有 1 个谓语动词: **begun**。本句是一个以 **only** 开头的主谓倒装句, 按照正常语序应该是: **Women have begun to catch up with men in this area only in recent years**。only 在句中起强调作用, 所强调的是 **in recent years**。

中文译文: 仅仅在近几年来, 妇女才开始在这个领域赶上男子。

(二) 以 never, little, often, not only, not until, hardly, scarcely 等词 (组) 引起句子倒装

1. Not only do we need to make the paper available to collectors but it also needs to be separated into different types.

结构分析: **not only** 位于句首, 引起前面的句子倒装。正常的语序是 **we need to make the paper available to collectors**。

中文译文: 我们不仅需要使纸张能被收废纸的人得到, 而且应将纸张分成不同的类别。

2. In a dispute, not only do the interests of one party not coincide with those of the other party, but they are in conflict.

结构分析: **not only** 位于句首, 引起倒装, 前一个句子的正常语序应为 **the interests of one party do not coincide with those of the other party**, 现在将助动词 **do** 放在了主语的前面, 后面部分中 **but also** 省略了 **also**。

中文译文: 在争议中, 一方的利益与另一方不仅不一致, 而且是冲突的。

(三) 比较状语从句

1. In a typical example, when viewing photographs of food, hungry subjects experience a much greater increase in pupil diameter than do sated subjects.

结构分析: 比较级后面的句子倒装, 比较级实际上是比较状语从句。than 后面的句子的正常语序是 **sated subjects do**, **sated** 是过去分词做 **subjects** 的前置定语。

中文译文: 在一个典型的例子中, 当看到食物的照片时, 饥饿的实验对象比吃饱的实验对象瞳孔直径的增加更大。

2. A mother's wanting her partner to do more housework and child care is a better predictor of poor family adjustment than is actual time spent by fathers in these tasks.

结构分析: 本句比较复杂, 是一个比较句式。than 之前是主句, 动名词短语 **a mother's wanting her partner to do more housework and child care** 做主语。than 后面的比较从句倒装了, 正常语序是 **actual time spent by fathers in these tasks is**。比较从句中, **actual time** 是主语, **spent by fathers in these tasks** 是过去分词短语做 **actual time** 的后置定语。

中文译文: 一个母亲希望她的丈夫做更多的家务和照顾孩子, (这种意愿) 比丈夫们在这些事务上花费的实际时间更能反映不好的家庭调整的情况。

(四) 为了突出强调某一内容 (通常是表语或状语)

1. Gone are the problems of being washed out for half the season.

结构分析: 因为主语 **the problem of being washed out for half the season** 过长, 为了避免让句子看起来显得“头重脚轻”, 所以将其后置倒装。同时, 该句也是为了突出强调表语 **gone**。

此句的正常词序为: **The problems of washed out for half the season are gone.**

中文译文: 半个赛季长的时间不允许人们进入场馆内 (比赛) 的问题已经不复存在了。

2. Splendid is the architecture of Manhattan, the heart of the city, with its one hundred and more skyscrapers.

结构分析: 因为主语 **the architecture of Manhattan, the heart of the city, with its one hundred and more skyscrapers** 过长, 为了避免让句子看起来显得“头重脚轻”, 所以将其后置倒装。同时, 该句也是为了突出强调表语 **splendid**。

此句的正常词序为：The architecture of Manhattan, the heart of the city, with its one hundred and more skyscrapers is splendid.

中文译文：位于市中心的曼哈顿有着上百座摩天大厦，建筑非常漂亮。

（五）so/as 或 neither/nor 引起的句子

1. The average air temperature at the surface of the earth has risen this century, as has the temperature of ocean surface waters.

结构分析：as 表示“……也一样”，引起后面的句子倒装，正常词序是 the temperature of ocean surface waters has.

中文译文：这个世纪以来，地球表面空气的平均温度上升了，海水表面的温度也一样。

2. They do not seem to like one another very much, neither are they too keen on conventional people.

结构分析：全句有两个谓语动词：do 和 are。本句的后半部分是一个主谓倒装的简单句，按正常词序应该是：They are neither too keen on conventional people. 注意 neither 指的是“（两个中的）一个都不”。

中文译文：他们看起来不太喜欢彼此，他们也都不怎么喜欢传统的人（普通人）。

（六）某些让步状语从句

1. In addition, difficult as it is to believe, there are desert fishes that can survive through years of drought in the form of inactive eggs.

结构分析：句子中 as (= although / though 尽管，虽然) 所引导的是让步状语从句。

实际上，difficult as it is to believe = although / though it is difficult to believe。

中文译文：而且，尽管令人难以置信，还是有沙漠鱼类能以非活性卵的形态在多年的干旱中存活下来。

2. But unpopular as red has been in the past, at the moment it is a favorite hair dye.

结构分析：全句有两个谓语动词：has been 和 is。其中，as 引导的让步状语从句是一个部分倒装句，按照正常词序应该是：although red has been unpopular in the past, 句子可被拆分为：Red has been unpopular in the past. 和 But at the moment it is a favorite hair dye.

中文译文：尽管过去红色不怎么流行，但是现在却是一种备受欢迎的染发颜色。

（七）为了使句子结构平衡

1. We are all used to thinking that work provides the material things of life — the goods and services that make possible our vision of modern civilization.

结构分析：此句中，在 **services** 之后的定语从句 **that make possible our vision of modern civilization** 里面，因为 **make** 之后的宾语 **our vision of modern civilization** 太长，所以将其后置，以保持句子的平衡。正常词序是：**We are all... that make our vision of modern civilization possible.**

中文译文：我们都习惯地认为工作给生活带来物质内容，即那些能使人看到现代文明的商品和服务。

2. Quite different is the outcome of successful insurrections like those of July 1830 and February 1848.

结构分析：全句只有一个谓语动词：**is**。本句是一个完全倒装句，按照正常词序应该是：**The outcome of successful insurrections like those of July 1830 and February 1848 is quite different.** 介词短语 **like those of ...** 作为后置定语修饰 **insurrections**，其中为了省略而使用 **those** 代替 **the insurrections**。

中文译文：像 1830 年 7 月起义和 1848 年 2 月起义这样的成功起义，它们的结果是大不相同的。

（八）因为省略了 **if**，而以 **were, had, should** 等开头的虚拟条件句

Were it left to me to decide whether we should have a government without newspaper, or newspaper without government, I should not hesitate a moment to prefer the latter.

结构分析：这是一个虚拟语气的条件状语从句。因为条件状语从句中省略了 **if**，所以将系动词 **were** 放在句首来倒装。正常词序是：**If it were left to me to decide whether we ... prefer the latter.**

中文译文：如果让我来决定我们应该有一个没有报纸的政府，还是应有一个没有政府的报纸，我会毫不犹豫地选择后者。

三 强调句式

强调句型的模式是：

It is / was + 被强调部分 + that / who + 其他部分

（1）可以强调：主语，宾语，状语

不可以强调：谓语，定语

（2）被强调部分为人时，**that / who** 均可，其余用 **that**

（3）后面的句子为过去时态，用 **It was**，其余用 **It is**

例 Nuclear power supplies 5% of the world's energy from more than 400 plants.

① 用强调句型强调主语：

It is nuclear power that supplies 5% of the world's energy from more than 400 plants.

② 强调宾语：

It is 5% of the world's energy that nuclear power supplies from more than 400 plants.

③ 强调地点状语:

It is from more than 400 plants that nuclear power supplies 5% of the world's energy.

1. It is this desire, together with its lack of fulfillment in most families, that brings about stress in the female parent.

结构分析: 强调主语 this desire, together with its lack of fulfillment in most families。原句为: This desire, together with its lack of fulfillment in most families, brings about stress in the female parent.

中文译文: 就是这种希望, 以及在绝大多数家庭中不能实现的现实, 给母亲们带来了压力。

2. It is city people who think of cowboys as free people, unafraid to battle with wild animals, living close to nature, with the trees and the sky and the stars.

结构分析: 此句还原后应该是: City people think of cowboys as free people, unafraid to battle with wild animals, living close to nature, with the trees and the sky and the stars. 其中, unafraid to battle with wild animals, living close to nature, with the trees and the sky and the stars 是对 people 作进一步说明和补充的补足语。

中文译文: 城里人认为牛仔自由自在, 敢于和野兽斗争, 与大树、天空和星星一起身处自然之中。

3. It is not the consciousness of men that determines their being, but, on the contrary, their social being that determines their consciousness.

结构分析: 在这个强调句中包含了另一个句式 not...but... (不是……而是……)。如果将此句还原, 其结构更容易看清楚, 即: Not the consciousness of men determines their being, but, on the contrary, their social being that determines their consciousness.

中文译文: 不是人的意识决定他们的存在, 相反, 正是他们的社会存在决定了他们的意识。

4. It was the loss of revenue from declines in tourism that in 1935 led the Saudi authorities to grant a concession for oil exploration to the company that later will be known as being Aramoc.

结构分析: 如果去掉强调句的结构, 该句的原句应该是: The loss of revenue from declines in tourism in 1935 led the Saudi authorities to grant a concession for oil exploration to the company that later will be known as being Aramoc.

中文译文: 旅游业滑坡导致年收入减少, 沙特政府 1935 年给后来被称作 Aramoc 的公司特批了石油开采权。

5. It is because living space for most of man's fellow creatures on this planet is figured not only in square measure of surface but also in cubic volume above the earth that we need to know the importance of big, mature trees.

结构分析：显然，句中被强调的部分是一个由 **because** 所引导的原因状语从句，将此句还原即是：**Because living space for most of man's fellow creatures on this planet is figured not only in square measure of surface but also in cubic volume above the earth, we need to know the importance of big, mature trees.**

中文译文：正是因为人类在这个星球上的绝大多数生物伙伴的居住空间不仅体现在用平方尺寸来计算的面积上，而且还体现在用立方尺寸来计算的地面以上的体积上，所以我们需要知道成年大树的重要性。

四 被动句

被动语态由助动词 **be** 加过去分词构成，时态通过 **be** 表现出来。

1. Therefore, like the timber barriers, the Fanwall barrier can be built without expensive concrete footings or piles, speeding the construction time up and reducing costs.

结构分析：**can be built** 是被动语态，**like the timber barriers** 是介词短语做状语，**speeding the construction time up and reducing costs** 是分词短语做状语。

中文译文：因此，像木屏障一样，建造 **Fanwall** 屏障，不需要昂贵的混凝土地基，而且加快了建造时间，降低了费用。

2. The ancient Olympics were abolished by the Roman Emperor Theodosius in 393 A.D., after Greece had lost its independence.

结构分析：**were abolished** 是被动语态的过去式形式。**after** 引导一时间状语从句。罗马皇帝采用首字母提炼法变为 **RET**。

中文译文：在希腊失去独立后，古代奥运会在公元 393 年被罗马皇帝西奥多（**Theodosius**）废除了。

3. For more than 1,000 years the ancient Games were held, every four years, on hallowed ground near Mount Olympus, where the Greek gods were said to live.

结构分析：**were held** 是 **hold** 的被动语态（过去式）。**every four years** 是插入语，起补充说明作用。**where** 引导一个定语从句。

中文译文：古代运动会每四年在奥林巴斯山附近的神圣大地上举行一次，已超过 1 000 年，据说希腊的神仙居住在那里。

4. Remember you may be taken to court for not doing so, and you may be fined if you cannot prove to the court that you have been excused from wearing it.

结构分析：本句为一个祈使句：**remember** 的宾语由 **and** 连接的两个宾语从句担任；第二个宾语从句为一个主从复合句：**if** 引导一个状语从句，而 **that** 引导的从句为 **prove** 的宾语。

中文译文：假如不那么做，你可能被送上法庭；到时如果你不能向法庭证明你有理由可以不系安全带，你将会被罚款。这一点你必须牢记在心。

5. Oceanography has been defined as “the application of all sciences to the study of the sea”.

结构分析: be defined as 意为“被定义为”; apply (application 的动词) ...to... 意为“将……应用于……”。

中文译文: 海洋学被定义为“综合应用所有科学对海洋进行的研究”。

Reading Passage

You should spend about 20 minutes on Questions 1-13 which are based on Reading Passage below.

Micro Enterprise Credit for Street Youth

I am from a large, poor family and for many years we have done without breakfast. Ever since I joined the Street Kids International Program I have been able to buy my family sugar and buns for breakfast. I have also bought myself decent second-hand clothes and shoes.

Doreen Soko

We've had business experience. Now I'm confident to expand what we've been doing. I've learnt cash management, and the way of keeping money so we save for reinvestment. Now business is a part of our lives. As well, we didn't know each other before — now we've made new friends.

Fan Kaoma

Participants in the Youth Skills Enterprise Initiative Program, Zambia

Introduction

Although small-scale business training and credit programs have become more common

throughout the world, relatively little attention has been paid to the need to direct such opportunities to young people. Even less attention has been paid to children living on the street or in difficult circumstances.

Over the past nine years, Street Kids International (S.K.I.) has been working with partner organisations in Africa, Latin America and India to support the economic lives of street children. The purpose of this paper is to share some of the lessons S.K.I. and our partners have learned.

Background

Typically, children do not end up on the streets due to a single cause, but to a combination of factors: a dearth of adequately funded schools, the demand for income at home, family breakdown and violence. The street may be attractive to children as a place to find adventurous play and money. However, it is also a place where some children are exposed, with little or no protection, to exploitative employment, urban crime, and abuse.

Children who work on the streets are generally involved in unskilled, labour-intensive tasks which require long hours, such as shining shoes, carrying goods, guarding or washing cars, and informal trading. Some may also earn income through begging, or through theft and other illegal activities. At the same time, there are street children who take pride in supporting themselves and their families and who often enjoy their work. Many children may choose entrepreneurship because it allows them a degree of independence. It is less exploitative than many forms of paid employment, and flexible enough to allow them to participate in other activities such as education and domestic tasks.

Street Business Partnerships

S.K.I. has worked with partner organisations in Latin America, Africa and India to develop innovative opportunities for street children to earn income.

- The S.K.I. Bicycle Courier Service first started in the Sudan. Participants in this enterprise were supplied with bicycles, which they used to deliver parcels and messages, and which they were required to pay for gradually from their wages. A similar program was taken up in Bangalore, India.
- Another successful project, the Shoe Shine Collective, was a partnership program with the Y.W.C.A. in the Dominican Republic. In this project, participants were lent money to purchase shoe shine boxes. They were also given a safe place to store their equipment and facilities for individual savings plans.
- The Youth Skills Enterprise Initiative in Zambia is a joint program with the Red Cross Society and the Y.W.C.A. street youths are supported to start their own small business through business training, life skills training and access to credit.

Lessons Learned

The following lessons have emerged from the programs that S.K.I. and partner organisations have created.

- Being an entrepreneur is not for everyone, not for every street child. Ideally, potential participants will have been involved in the organisation's programs for at least six months, and trust and relationship-building will have already been established.
- The involvement of the participants has been essential to the development of relevant programs. When children have had a major role in determining procedures, they are more likely to abide by and enforce the procedures.
- It is critical for all loans to be linked to training programs that include the development of basic business and life skills.
- There are tremendous advantages to involving parents or guardians in the program, where such relationships exist. Home visits allow staff the opportunity to know where the participants live, and to understand more about each individual's situation.
- Small loans are provided initially for purchasing fixed assets such as bicycles, shoe shine kits and basic building materials for a market stall. As the entrepreneurs gain experience, the enterprises can be gradually expanded and consideration can be given to increasing loan amounts. The loan amounts in S.K.I. programs have generally ranged from US\$30-\$100.
- All S.K.I. programs have charged interest on the loans, primarily to get the entrepreneurs used to the concept of paying interest on borrowed money. Generally the rates have been modest (lower than bank rates).

Conclusion

There is a need to recognise the importance of access to credit for impoverished young people seeking to fulfil economic needs. The provision of small loans to support the entrepreneurial dreams and ambitions of youth can be an effective means to help them change their lives. However, we believe that credit must be extended in association with other types of support that help participants develop critical life skills as well as productive businesses.

Questions 1-4

题型：选择题（四选一）

1. A

先读题目，对应到原文开始处的引语。阅读两段引语，确定答案为 A。此题容易误选 D。选项 D 不正确的原因是：D 说的是 S.K.I. 对 society 的好处，而原文说的是 S.K.I. 对他们个人的好处。

确定此题答案后，不再读文章了，看第 2 题。

2. D

先读题目，然后在原文第 1 题的答案之后，继续阅读，确定本题的答案。答案对应原文的 Introduction 部分的第一句话：Although small-scale ... to young people.

Reading Passage

You should spend about 20 minutes on **Questions 1-12** which are based on Reading Passage below.

What Do Whales Feel?

An examination of the functioning of the senses in cetaceans, the group of mammals comprising whales, dolphins and porpoises.

Some of the senses that we and other terrestrial mammals take for granted are either reduced or absent in cetaceans or fail to function well in water. For example, it appears from their brain structure that toothed species are unable to smell. Baleen species, on the other hand, appear to have some related brain structures but it is not known whether these are functional. It has been speculated that, as the blowholes evolved and migrated to the top of the head, the neural pathways serving sense of smell may have been nearly all sacrificed. Similarly, although at least some cetaceans have taste buds, the nerves serving these have degenerated or are rudimentary.

The sense of touch has sometimes been described as weak too, but this view is probably mistaken. Trainers of captive dolphins and small whales often remark on their animals' responsiveness to being touched or rubbed, and both captive and free ranging cetacean individuals of all species (particularly adults and calves, or members of the same subgroup) appear to make frequent contact. This contact may help to maintain order within a group, and

stroking or touching are part of the courtship ritual in most species. The area around the blowhole is also particularly sensitive and captive animals often object strongly to being touched there.

The sense of vision is developed to different degrees in different species. Baleen species studied at close quarters underwater — specifically a grey whale calf in captivity for a year, and free-ranging right whales and humpback whales studied and filmed off Argentina and Hawaii — have obviously tracked objects with vision underwater, and they can apparently see moderately well both in water and in air. However, the position of the eyes so restricts the field of vision in baleen whales that they probably do not have stereoscopic vision.

On the other hand, the position of the eyes in most dolphins and porpoises suggests that they have stereoscopic vision forward and downward. Eye position in freshwater dolphins, which often swim on their side or upside down while feeding, suggests that the vision they have is stereoscopic forward and upward. By comparison, the bottlenose dolphin has extremely keen vision in water. Judging from the way it watches and tracks airborne flying fish, it can apparently see fairly well through the air-water interface as well. And although preliminary experimental evidence suggests that their in-air vision is poor, the accuracy with which dolphins leap high to take small fish out of a trainer's hand provides anecdotal evidence to the contrary.

Such variation can no doubt be explained with reference to the habitats in which individual species have developed. For example, vision is obviously more useful to species inhabiting clear open waters than to those living in turbid rivers and flooded plains. The South American bottlenose and Chinese beiji, for instance, appear to have very limited vision, and the Indian sinus are blind, their eyes reduced to slits that probably allow them to sense only the direction and intensity of light.

Although the senses of taste and smell appear to have deteriorated, and vision in water appears to be uncertain, such weaknesses are more than compensated for by cetaceans' well-developed acoustic sense. Most species are highly vocal, although they vary in the range of sounds they produce, and many forage for food using echolocation. Large baleen whales primarily use the lower frequencies and are often limited in their repertoire. Notable exceptions are the nearly song-like choruses of bowhead whales in summer and the complex, haunting utterances of the humpback whales. Toothed species in general employ more of the frequency spectrum, and produce a wider variety of sounds than baleen species (though the sperm whale apparently produces a monotonous series of high-energy clicks and little else). Some of the more complicated sounds are clearly communicative, although what role they may play in the social life and "culture" of cetaceans has been more the subject of wild speculation than of solid science.

echolocation: the perception of objects by means of sound wave echoes.

Reading Passage

不读文章，直接开始依次做题。

Questions 1-7

题型：填图填表

1. taste buds

先读题目，发现题目的前一项是关于 **smell** 的，但并没有出题目。这说明文章的开始处肯定有一些篇幅是在说 **smell** 的，可以不读这些内容，这样可以更快地找到答案。这也证明了“双

向阅读法”的好处。如果不看题，先详细阅读文章，读这部分内容就是浪费时间了。答案对应原文第 1 段的最后一句：Similarly, although at ... or are rudimentary.

确定此题答案后，不再读文章了，看第 2 题。

2. baleen whales

先读题目，发现题目的前一项是关于 touch 的，但并没有出题目。这说明文章在第 1 题的答案之后有一些篇幅是在说 touch 的，可以不读这些内容。此题是关于 vision 的，文章的第 2 段是说 touch，第 3 段开始说 vision，从第 3 段开始逐句仔细阅读。答案对应原文第 3 段的最后一句：However, the position ... stereoscopic vision.

确定此题答案后，不再读文章了，看第 3 题。

3. forward, downward

先读题目，然后在原文第 2 题的答案之后，继续阅读，确定本题的答案。对应原文第 4 段的第一句：On the other ... forward and downward.

确定此题答案后，不再读文章了，看第 4 题。

4. freshwater dolphins

先读题目，然后在原文第 3 题的答案之后，继续阅读，确定本题的答案。对应原文第 4 段的第 2 句：Eye position in ... forward and upward.

确定此题答案后，不再读文章了，看第 6 题。

6. the lower frequencies

先读题目，发现此题的前两行并没有出题目。这说明，文章在第 5 题的答案之后有一些篇幅是在说这些内容，因为没有出题目，可以略去不读。此题答案对应原文第 6 段：Large baleen whales ... in their repertoire.

确定此题答案后，不再读文章了，看第 7 题。

7. bowhead humpback

先读题目，然后在原文第 6 题的答案之后，继续阅读，确定本题的答案。对应原文第 6 段：Notable exceptions ... humpback whales.

确定此题答案后，不再读文章了，看第 8 ~ 12 题。

Questions 8-12

题型：简答题

8. touch

先读题目，此题比较难。题目中的 mating 是“交配”的意思。即使知道这个词的意思，要在原文中找到对应也比较困难。第 7 题的答案已经在文章的最后一段了。所以此题的答案应

该从文章的最开始处寻找。答案对应原文第 2 段的倒数第 2 句: This contact may ... in most species.

courtship 在这句话里是“求爱, 追求”的意思。

确定此题答案后, 不再读文章了, 看第 9 题。

9. freshwater dolphins

先读题目, 通过做 1 ~ 7 题, 已经对文章的大致内容有所了解, 应该能够直接将问题对应到原文第 4 段的第 2 句: Eye position in ... forward and upward.

确定此题答案后, 不再读文章了, 看第 10 题。

10. airborne flying fish

先读题目, 通过做 1 ~ 7 题, 已经对文章的大致内容有所了解, 应该能够直接将问题对应到原文第 4 段: Judging from the ... interface as well.

确定此题答案后, 不再读文章了, 看第 11 题。

11. clear open waters

先读题目, 因为 1 ~ 7 题中没有涉及这个内容, 不能直接对应到原文, 在原文第 10 题的答案之后阅读, 确定本题的答案。对应原文倒数第 2 段: For example, vision ... and flooded plains.

确定此题答案后, 不再读文章了, 看第 12 题。

12. acoustic

先读题目, 通过做 1 ~ 7 题, 已经对文章的大致内容有所了解, 应该能够直接将问题对应到原文最后一段的第一句: Although the senses of ... acoustic sense.

双向式阅读法的理论基础是: 雅思阅读文章的顺序性。也就是说, 在雅思阅读文章中, 题目的顺序与原文的顺序是基本一致的。所以说, “双向阅读法”的本质就是: 边做题, 边读文章。

关于雅思阅读文章的顺序性, 我们总结如下两点:

1. 在同一种题型中, 基本都是有序性的。

例如, 在上一节的第一篇文章“Micro Enterprise Credit for Street Youth”中有如下 4 种题型:

- | | |
|-----------------|------------------------------|
| 1 ~ 4 选择题 (四选一) | 1 ~ 4 题是有顺序性的。 |
| 5 ~ 8 填图填表 | 5 ~ 8 题是有顺序性的。 |
| 9 ~ 12 T/F/NG | 9 ~ 12 题是有顺序性的。 |
| 13 是选择题 (四选一) | 13 题是有顺序性的 (只有一个题, 当然有顺序性了)。 |

又例如, 在上一节的第 2 篇文章“What Do Whales Feel?”中有如下两种题型:

- | | |
|------------|-----------------|
| 1 ~ 7 填图填表 | 1 ~ 7 题是有顺序性的。 |
| 8 ~ 12 问答题 | 8 ~ 12 题是有顺序性的。 |

同一种题型的顺序性, 有如下 3 种例外情况:

- (1) 大部分的搭配题是没有顺序性的。
- (2) 极少数题目虽然没有顺序性, 但有更好的定位方法。

有些题目中, 包含时间、数字、人名、地名等专有名词。即使没有顺序性, 也能

通过这些特殊词，更快地定位到原文。在这种情况下，题目设计有时就不具备顺序性了。

(3) 极少数题目没有顺序性，也没有更好的定位方法。

如一种题型的第5题和第6题，原文中第6题的答案反而在第5题的答案之前。而且，第6题的题目中也没有任何的特殊词帮助快速定位。这时，找到第6题的答案就比较困难。但是，这样的情况在雅思阅读中是极少出现的。

2. 在相邻的两种题型中，50%的情况下是有顺序性的，50%的情况下有交叉。

在上一节的第一篇文章“Micro Enterprise Credit for Street Youth”中有如下4种题型：

1~4 选择题（四选一）

5~8 填图填表

9~12 T/F/NG

13 选择题（四选一）

我们注意到，在原文中，第2种题型的第一个题目（即第5题）的答案在第一种题型的最后一个题目（即第4题）的答案之后。同样，第3种题型的第一个题目（即第9题）的答案在第2种题型的最后一个题目（即第8题）的答案之后。第4种题型的第一个题目（即第13题）的答案在第3种题型的最后一个题目（即第12题）的答案之后。也就是说，在这篇文章中，不仅同一种题型是有顺序性的，而且相邻的两种题型也有顺序性的。这时，在做第2种题型的第一个题目时，可以在第一种题型的最后一题的答案之后找答案。

在上一节的第2篇文章“What Do Whales Feel?”中有如下两种题型：

1~7 填图填表

8~12 问答题

我们注意到，在原文中，第2种题型的第一个题目（即第8题）的答案不在第一种题型的最后一个题目（即第7题）的答案之后。也就是说，在这篇文章中，同一种题型是有顺序性的，但是相邻的两种题型并没有顺序性，我们称这种情况为“有交叉”。这时，在做第2种题型的第一个题目时，要从文章开始处找答案，而不能在第一种题型的最后一题的答案之后找答案。

实际上，相邻的两种题型是有顺序性的，还是有交叉，在做完第一种题型之后，基本就能够知道。如果第一种题型的最后一题的答案在原文的比较靠前的位置（如上一节的第一篇文章“Micro Enterprise Credit for Street Youth”中的第4题），那么，它就应该是有顺序性的。相反，如果第一种题型的最后一题的答案基本在文章的最后了（如上一节的第2篇文章“What Do Whales Feel?”中的第7题），那么，它就应该是有交叉的。

找段落的小标题

题型多是雅思阅读考试的一个特点，也是它的一个难点。本书把它归纳为如下5种题型：

1. 找段落的小标题

2. 细节题

3. 搭配题

4. 全文主旨题

5. 特殊题型

其中，“细节题”数量最多，它又包括如下 6 种类型：

1. T/F/NG

2. 问答题

3. 选择题

4. 完成句子

5. 填图填表

6. 摘要填空

我们先学习第一种题型“找段落的小标题”。

一 题型样式

文章由若干段话组成，要求给每段话找一个小标题。小标题即指该段话的段落大意、中心思想和主旨。

题目并不是让你写出每段话的小标题，这样不易评判对错。而是要求从选项列表（list of headings）中选择每段小标题。在现在的考试中，选项的数目往往大大多于文章中段落的数目，假如文章有 5 段话，选项的数目很可能是 10 个，甚至 12 个。也就是说，列表中有很多干扰选项。

通常是给出其中的一段话或两段话的小标题作为例子，要求考生选余下段落的小标题。给出小标题的段落较多情况下是原文的第一段。

二 解题步骤

（一）先将例子所在的选项从选项列表中划去

每个选项最多只能用一次，也就是说，两个段落的小标题不可能是同一个选项。这是因为不同段落的主旨肯定是不同的，原文将它们分为不同的段落，就是要分别说不同的内容。如果两段的主旨相同，即表达的中心思想一致，就应该将它们合为一段，是没有必要分为两段的。

有时，这类题目的要求中有：You may use any heading more than once（你可以使用任何小标题超过一次）。这句话纯属误导，也就是说，即使题目的要求中有这句话或类似的话出现，任何选项也不可能被使用两次或两次以上。

既然每个选项最多只能用一次，例子所在的段落已经使用的选项是不会被其他段落使用的，应将其划去，以免被其他的段落误选。在选其他段落的答案时，也可以不看该选项，以节省时间。

（二）不要先看选项，而要先读文章，读一段话，做一道题

大家先想一下，下面的做题方法好吗？

先看第一个选项，读懂它的意思。然后读原文的各个段落，判断该选项是原文哪个段落的小标题。然后按照同样的方法处理其余的各选项。

这样的做法不好。因为选项的数目远远大于原文段落的数目，所以这样做，不仅花费很多

时间，而且极易受到干扰选项的误导。很可能第一个选项就是干扰选项，你花费了很多时间，将这个选项与原文的各段落相对照，结果发现它是一个干扰选项，就已经浪费了很多时间。

正确的方法是：

不要先看选项，而要先读文章。读文章的时候，不要一次把文章全读完，而是读一段话，做一道题。假如原文的第一段已作为例子给出，那么，先读第 2 段，然后到选项列表中找到该段话的小标题。然后再读第 3 段，同样处理，直至完成。这样做，不仅速度快，而且准确率高。

（三）读每段话时，通读全段，同时注意寻找段落的主题句

主题句的特征是：

1. 如果段落的第一句中包含让步状语，它肯定是主题句。

包含让步状语的句子常常有如下的句式：

Although A, B.

While A, B.

Despite A, B.

中文意思是：虽然 A，但是 B。要说明的观点在 B 中。这句话肯定是主题句，更准确地说，B 肯定是主题句。

例 某段话的第一句为：

However, despite the importance of the recruitment decision and the range of sophisticated and more objective selection techniques available, including the use of psychometric tests, assessment centres, etc., many organisations are still prepared to make this decision on the basis of a single 30 to 45 minutes unstructured interview.

中文译文：虽然招收新人的决定很重要，而且有很多成熟的并且更客观的选择技巧，包括心理测试、评判中心等，但是很多单位仍然准备基于 30 到 45 分钟的无组织面试来做出决定。

这句肯定是主题句。但它比较复杂，不好理解。应重点看主句部分 many organisations are ... unstructured interview。

正确答案为：iii The unstructured interview and its validity.

2. 如果段落的第一句是如下句型，则它肯定是主题句。

Doing something is not easy.

Doing something is complicated.

Doing something is difficult.

Doing something is complex.

It is not easy to do something.

It is complicated to do something.

It is difficult to do something.

It is complex to do something.

正确选项通常为：doing something、how to do something 或 methods of doing something。

3. 如果段落的第一句是问句，则它肯定不是主题句，而第二句是主题句。

4. 如果段落的第一句是如下句型，则它肯定是主题句。

not only A, but also B.

not only...but also... 的意思是“不仅，而且”，常用来承上启下。not only 后面的部分是“承上”，即上一段的主旨，but also 后面的部分是“启下”，即本段话的主旨。所以，这句话肯定是主题句，更准确地说，B 肯定是主题句。

例 某段话的第一句为：

Diversity exists not only between cultures, but also within a single culture.

中文译文：多样性不仅存在于不同的文化之间，还存在于同一文化之中。

本句用来承上启下。not only 后面的部分是“承上”，即上一段的主旨是：多样性存在于不同的文化之间，but also 后面的部分是“启下”，即本段话的主旨是：多样性存在于同一文化之中。

正确选项为：G: Variation within cultures.

请注意：正确选项中的 Variation 是原文主题句中 Diversity 的同义词。这也说明，正确答案常常是主题句的改写。

5. 如果段落中某句话是举例子的句子，则它肯定不是主题句，而它前面的那个句子是主题句。

举例子的句子，通常采用如下句型：

A. For example, B.

A 是主题句，B 不是主题句。

6. 如果段落中某句话是如下句型，则它肯定是主题句。

A shows that B.

A showing that B.

A suggests that B.

show、suggest 是“表明，说明”的意思，其后的宾语从句 B 往往是要说明的观点，是该段话的主旨。

例 某段话中有一句为：

Despite the significant increase in the number of women with dependent children who are in the paid workforce, Australian research studies over the last 15 years are consistent in showing that divisions of labour for family work are very rigid indeed (Watson 1991).

中文译文：虽然有孩子的妇女参加工作的数目显著地上升，但是过去 15 年澳大利亚的研究一致表明，家庭工作的劳动分工实际上是固定不变的。

这句话比较复杂，不好理解。应用前面的注意事项 3，重点看主句部分。主句部分中，有 show 的类似结构：showing that，所以其后的宾语从句是要说明的观点，是该段话的主旨。正确答案应是，divisions of labour for family work are very rigid indeed 的改写。其中，关键词是 rigid，在本句中的意思是“固定不变的”。

正确答案为: vi The unchanged role of the female parent.

请注意: 正确选项中的 **unchanged** 是原文主题句中关键词 **rigid** 的同义词。

7. 通读全段后, 如果段落中没有明显的主题句, 这时, 如果读懂了全段的主要意思, 就把它归纳总结一下。如果没有读懂, 可以把段落的第一句看作是主题句。第一句是主题句的概率超过 50%, 所以应该重点理解第一句话的意思。

(四) 在选项列表中依次看各选项, 正确选项是主题句的改写

(五) 某段的答案确定后, 将它的选项从选项列表中划去

我们在前面讲过, 每个选项最多只能用一次, 也就是说, 不可能两个段落的小标题是同一个选项。所以, 一段话的答案确定后, 应将它的选项从选项列表中划去, 以免被其他的段落误选。而且在选其他段落的答案时, 可以不看该选项, 节省时间。但如果某段话的答案不太确定, 如第 3 段, 可能是对应 C, 也可能不是对应 C, 这时则不能将 C 从选项列表中划去。

三 注意事项

(一) 如果答案不确定, 则先将可能正确的选项全部选出

如果一个段落的答案不确定, 如第 2 段可能是对应 B 或 D, 应将它们先都选出来, 写在题目的旁边, 再往下做。这样做的好处是, 下面某一段, 如第 4 段你能够确定是 D, 那么, 第 2 段就能确定是 B。因为, 我们在前面讲过, 每个选项最多只能用一次, 也就是说, 不可能两个段落的小标题是同一个选项。第 2 段可能是 B 或 D, 但如果你能够确定第四段是 D, 那么第 2 段就是 B 了。即使第 2 段后面各段落的 Heading 都不是 B 或 D, 最后在确定第 2 段的 Heading 时, 也是从 B 和 D 中选择一个。

(二) 两个选项, 雌雄难辨, 优先选择后一个选项

两个选项, 雌雄难辨, 说明其中一个选项是正确答案, 另一个选项是陷阱。出题者在出题时, 通常会把陷阱放在前面, 把正确答案放在后面。这条规律, 在以后的练习中会经常出现。

(三) 包含下列词的选项, 是正确选项的可能性很大

这些词包括: **origin, cause, reason; effect, implication, impact**

其中, 前 3 个词是表示“原因”的, 后 3 个词是表示“结果、影响”的, 像是在对一段话进行总结。因此, 是正确选项的可能性很大。

3. Section D
4. Section E
5. Section F

The Nature of Disputes

To resolve a dispute means to turn opposing positions into a single outcome. The two parties may choose to focus their attention on one or more of three basic factors. They may seek to (1) reconcile their interests, (2) determine who is right, and/or (3) determine who is more powerful.

➡ Section A

Interests are needs, desires, concerns, fears — the things one cares about or wants. They provide the foundation for a person's or an organisation's position in a dispute. In a dispute, not only do the interests of one party not coincide with those of the other party, but they are in conflict. For example, the director of sales for an electronics company gets into a dispute with the director of manufacturing over the number of TV models to produce. The director of sales wants to produce more models because her interest is in selling TV sets. More models mean more choices for consumers and hence increased sales. The director of manufacturing, however, wants to produce fewer models. His interest is in decreasing

manufacturing costs and more models mean higher costs.

➞ Section B

Reconciling such interests is not easy. It involves probing for deeply rooted concerns, devising creative solutions, and making tradeoffs and compromises where interests are opposed. The most common procedure for doing this is negotiation, the act of communication intended to reach agreement. Another interestsbased procedure is mediation, in which a third party assists the disputants, the two sides in the dispute, in reaching agreement.

➞ Section C

By no means do all negotiations (or mediations) focus on reconciling interests. Some negotiations focus on determining who is right, such as when two lawyers argue about whose case has the greater merit. Other negotiations focus on determining who is more powerful, such as when quarrelling neighbours or nations exchange threats and counter threats. Often negotiations involve a mix of all three — some attempts to satisfy interests, some discussion of rights, and some references to relative power.

➞ Section D

It is often complicated to attempt to determine who is right in a dispute. Although it is usually straightforward where rights are formalised in law, other rights take the form of unwritten but socially accepted standards of behaviour, such as reciprocity, precedent, equality, and seniority.

There are often different — and sometimes contradictory — standards that apply to rights. Reaching agreement on rights, where the outcome will determine who gets what, can often be so difficult that the parties frequently turn to a third party to determine who is right. The most typical rights procedure is adjudication, in which disputants present evidence and arguments to a neutral third party who has the power to make a decision that must be followed by both disputants. (In mediation, by contrast, the third party does not have the power to decide the dispute) Public adjudication is provided by courts and administrative agencies. Private adjudication is provided by arbitrators.

➞ Section E

A third way to resolve a dispute is on the basis of power. We define power, somewhat narrowly, as the ability to pressure someone to do something he would not otherwise do. Exercising power typically means imposing costs on the other side or threatening to do so. The exercise of power takes two common forms: acts of aggression, such as physical attack, and withholding the benefits that derive from a relationship, as when employees stop working in a strike.

Section F

In relationships of mutual dependence, such as between labour and management or within an organisation or a family, the question of who is more powerful turns on who is less dependent on the other. If a company needs the employees' work more than employees need the company's pay, the company is more dependent and hence less powerful. How dependent one is turns on how satisfactory the alternatives are for satisfying one's interests. The better the alternative, the less dependent one is. If it is easier for the company to replace striking employees than it is for striking employees to find new jobs, the company is less dependent and thereby more powerful. Determining who is the more powerful party without a decisive and potentially destructive power contest is difficult because power is ultimately a matter of perceptions.

答案及详解

Questions 1-5

题型：找段落小标题

1. xii

Section A, 通读全段, 段落中有一句是 **for example** 句型, 它前面的句子是主题句, 也就是本段的第 3 句: **In a dispute, not ... are in conflict.**

中文译文: 在一个纠纷中, 一方的利益与另一方不仅不一致, 而且它们是冲突的。

对照选项列表, 本段话的 **Heading** 是 xii。

2. vi

Section B, 通读全段, 本段话的第一句: **Reconciling such interests is not easy.**

中文译文: 使利益一致是不容易的。

根据前面讲的规律, 这句话是该段话的主题句。

本段的 **Heading** 为 vi, 即 **Methods of settling conflicting interests** (解决冲突利益的方法)。

3. ii

Section D, 通读全段, 没有明显的主题句。如果理解全段有困难, 则把本段话的第一句当作是该段话的主题句 (实际上, 它确实也是本段话的主题句): **It is often complicated to attempt to determine who is right in a dispute.**

中文译文: 决定谁在纠纷中正确通常是很不容易的。

与选项一一对应, 正确答案为 ii, 即 **Handling rightsbased disputes** (处理基于对错的冲突)。

4. xi

Section E, 通读全段, 没有找到明显的主题句。如果理解全段意思有困难, 则把本段话的第一句当作是该段话的主题句 (实际上, 它也确实为本段话的主题句): **A third way to resolve**

a dispute is on the basis of power.

中文译文：解决冲突的第 3 种方法是基于力量。

关键词是 **power**。与选项一一对应，正确答案为 **xi**，即 **The role of power in settling disagreements**（力量在解决冲突中的作用）。

5. iv

Section F，通读全段，没有找到明显的主题句。如果理解全段意思有困难，则把本段话的第一句当作是该段话的主题句（实际上，它也确实为本段话的主题句）：**In relationships ... on the other.**

中文译文：在相互依赖的关系中，例如，劳资关系在一个家庭或一个组织中，谁更有力量的问题就转换成谁更少依赖于另一方的问题。

本句比较复杂，中间有一个较长的插入语，可先略去不读。关键词是 **dependence** 和 **dependent**。与选项一一对应，正确答案为 **iv**，即 **The role of dependence in disputes**（依赖性在冲突中的作用）。

Day 3 必须关注细节（上）

细节题——T/F/NG

在雅思五大题型中，“细节题”占的比例最大，它又包括如下 6 种类型：

1. T/F/NG
2. 问答题
3. 选择题
4. 完成句子
5. 填图填表
6. 摘要填空

这 6 种题型的解题方法是类似的，我们先一一介绍一下，然后再分别介绍每种题型的注意事项。

1. 仔细阅读题目，搞清题目的意思，找出其中的关键词。

2. 定位到原文。

(1) 题干中如果包含年代、人名、地名、数字、专有名词，那么这些词肯定是关键词，因为原文中不会对这些词做改变，而且这些词特别好找，依据这些词，常常能对应到原文中的一句话。

(2) 如果原文有小标题，将题目中的关键词与各小标题相对照，对应到原文的某一个段落。

(3) 如果这篇文章有“找段落的小标题”这个题型，将题目中的关键词与找出的各小标题相对照，对应到原文的某一个段落。

(4) 要注意顺序性，即题目的顺序和原文的顺序基本一致。

此题型是有顺序性的。第一题的答案应在文章的前部，第二题的答案应在第一题的答案之后，在第三题的答案之前。这个规律也有助于同学们确定答案的位置。

3. 阅读原文相关文字，结合题目，确定正确答案。

今天，我们重点讲解“T/F/NG”这一重要题型。

一 题型样式

题目是若干个陈述句 (statement)，要求根据原文所给的信息，判断每个陈述句是对 (TRUE)，错 (FALSE)，还是未提及 (NOT GIVEN)。

这种题型的难度在于，在对和错之外还有个第三种状态：未提及。很多同学难以区分“错”和“未提及”，“对”和“未提及”。

二 注意事项

1. 题目中包含“must”或“only”等词，答案是 FALSE 的概率最高，大约为 65%，答案是 NOT GIVEN 的概率大约为 30%，答案是 TRUE 的概率最低，大约为 5%。

原文是两个或多个情形 (通常是两种情形) 都可以，常有“both...and...”“and”“or”“also”等词。题目是“必须”或“只有”其中一个情况，常有“must”及“only”等词。这时，答案是 FALSE。否则，答案是 NOT GIVEN 或 TRUE。

2. 原文和题目中使用了表示不同范围、频率、可能性的词。这时，答案是 FALSE。

原文用词	题目用词
many/some/ several	all
sometimes	usually/ always
unlikely (不太可能)	impossible (完全不可能)
feel/ consider	prove
theory	hypotheses

3. 原文是主观愿望，题目是客观事实。这时，答案是 NOT GIVEN。

原文中常用“aim (目的)”“purpose (目的)”“promise (目的)”“swear (发誓)”及“vow (发誓)”等词。题目中用实意动词。

例 1 原文：He vowed he would never come back.

中文译文：他发誓他将永不回来。

题目：He never came back.

中文译文：他没再回来。

解释：原文中说他发誓将永不回来，但实际怎么样，我们并不知道。也可能他违背了自己的誓言。所以答案应为 NOT GIVEN。

例2 原文: His aim was to bring together, once every four years, athletes from all countries on the friendly fields of amateur sport.

中文译文: 他的目的是每四年一次, 把各国的运动员聚集到友好的业余运动的赛场上。

题目: Only amateur athletes are allowed to compete in the modern Olympics.

中文译文: 只有业余运动员被允许在现代奥运会中竞争。

解释: 原文中用“aim”表示目的, 题目用实意动词表示事实。把各国的运动员聚集到友好的业余运动的赛场上, 这只是创建者的目的, 实际情况如何, 文章中没说, 所以答案应为 NOT GIVEN。

4. 一定要依据原文, 不能凭借自己的知识做题。

原文是判断答案的唯一根据。所以, 无论你对文章的内容或背景多么熟悉, 或者你的知识面多么丰富, 都不能凭借自己的知识来确定答案。即使题目中说“地球是正方形的”。如果文章中没说, 你只能答 NOT GIVEN, 不能答 FALSE。

例 原文: His aim was to bring together, once every four years, athletes from all countries on the friendly fields of amateur sport.

中文译文: 他的目的是每四年一次, 把各国的运动员聚集到友好的业余运动的赛场上。

题目: Only amateur athletes are allowed to compete in the modern Olympics.

中文译文: 只有业余运动员被允许在现代奥运会中竞争。

解释: 有的同学会认为, 现在奥运会中有很多职业运动员参赛, 所以答 FALSE。但很可惜, 这是你自己的知识, 文章中没说, 所以答案应为 NOT GIVEN。

5. 可以根据原文做适当的推断, 但不能做无根据地自行推理或推之甚深。

有些题目需要根据原文做适当的推断, 才能确定正确答案, 但必须是根据原文来做推断, 不能做毫无根据的推理。而且一般来讲, 即使有推理, 也只推一步, 不会推得很深。有些阅读水平较好的同学, 如不掌握前面讲的规律和方法, 做这种题型反而错得更多, 主要原因就是想得太多, 或推理得太多和太深。

有时, 不做适当的推断, 就全是 NOT GIVEN, 因为毕竟题目和原文不会一模一样。如果自行推理或推之甚深, 就全不是 NOT GIVEN, 因为你都给推理出来了。这两种情况, 都是大家常犯的错误。怎么办? 对于能够适用规律和原则的, 就按规律和原则办, 肯定没错。否则越想越容易错。对于应用不上规律和原则的, 通过大量做题, 找感觉才能解题。

6. 要注意题目要求答什么。

同是是非题, 有时题目要求考生答 TRUE/FALSE/NOT GIVEN, 有时要求答 T/F/NG, 有时又要求考生答 YES/NO/NOT GIVEN, 必须按照要求去做。否则, 本来判断正确, 因为不符合要求而失分, 就很可惜。避免答错的一个方法是: 在平常练习中就按照题目的要求去答, 而不要随心所欲。

7. 在考试中，要相信自己的第一感觉，不要轻易改答案。

在考试中，除非有特别强的理由，否则不要轻易改答案，人的第一感觉往往是正确的。很多同学都将正确的答案改错了。

8. 要注意上述规律和方法的运用，不要钻牛角尖。

这种题型本身有一定的缺陷，即不严密。所以，刚开始做这种题时，有时真有天下大乱的感觉。多做一些题就好了。刚开始做错了不要紧，先对照答案，顺着答案的思路想，慢慢找感觉，而不是和答案对着干，钻牛角尖。

三 例题讲解

Party Labels in Mid-Eighteenth Century England

- 1 Until the late 1950s the Whig interpretation of English history in the eighteenth century prevailed. This was successfully challenged by Lewis Namier, who proposed, based on an analysis of the voting records of MPs* from the 1760 intake following the accession to the throne of George III, that the accepted Whig*/Tory* division of politics did not hold. He believed that the political life of the period could be explained without these party labels, and that it was more accurate to characterize political division in terms of the Court versus Country.
- 2 An attempt was then made to use the same methodology to determine whether the same held for early eighteenth century politics. To Namier's chagrin this proved that at the end of Queen Anne's reign in 1714 voting in parliament was certainly based on party interest, and that Toryism and Whiggism were distinct and opposed political philosophies. Clearly, something momentous had occurred between 1714 and 1760 to apparently wipe out party ideology. The Namierite explanation is that the end of the Stuart dynasty on the death of Queen Anne and the beginning of the Hanoverian with the accession of George I radically altered the political climate.
- 3 The accession of George I to the throne in 1715 was not universally popular. He was a German, spoke little English, and was only accepted because he promised to maintain the Anglican religion. Furthermore, for those Tory members of government under Anne, he was nemesis, for his enthronement finally broke the hereditary principle central to Tory philosophy, confirming the right of parliament to depose or select a monarch. Moreover, he was aware that leading Tories had been in constant communication with the Stuart court in exile, hoping to return the banished King James II. As a result, all Tories were expelled from government, some being forced to escape to France to avoid

execution for treason.

- 4 The failure of the subsequent Jacobite rebellion of 1715, where certain Tory magnates tried to replace George with his cousin James, a Stuart, albeit a Catholic, was used by the Whig administration to identify the word “Tory” with treason. This was compounded by the Septennial Act of 1716, limiting elections to once every seven years, which further entrenched the Whig’s power base at the heart of government focused around the crown. With the eradication of one of the fundamental tenets of their philosophy, alongside the systematic replacement of all Tory positions by Whig counterparts, Tory opposition was effectively annihilated. There was, however, a grouping of Whigs in parliament who were not part of the government.
- 5 The MOs now generally referred to as the “Independent Whigs” inherently distrusted the power of the administration, dominated as it was by those called “Court Whigs”. The independent Whig was almost invariably a country gentleman, and thus resisted the growth in power of those whose wealth was being made on the embryonic stock market. For them the permanency of land meant patriotism, a direct interest in one’s nation, whilst shares, easily transferable, could not be trusted. They saw their role as a check on the administration, a permanent guard against political corruption, the last line of defense of the mixed constitution of monarchy, aristocracy, and democracy. The reaction against the growing mercantile class was shared by the Tories, also generally landed country gentlemen. It is thus Namier’s contention, and that of those who follow his work, that by the Court administration, thus explaining why voting records in 1760 do not follow standard party lines.
- 6 It must be recognized that this view is not universally espoused. Revisionist historians such as Linda Colley dispute that the Tory party was destroyed during this period, and assert the continuation of the Tories as a discrete and persistent group in opposition.

*MP: Member of Parliament

*Whig: (a member) of a British political party of the 18th and early 19th centuries which supported the power of Parliament and wanted to limit royal power, and later became the Liberal Party

*Tory: (a member) of the British Conservative Party

4. NO

每个人都喜欢乔治一世。
原文第 3 段：The accession of George I to the throne in 1715 was not universally popular.
下文都是对此句的解释。

5. NOT GIVEN

独立的自由党员是大地主。

用 Independent Whigs 定位，原文第 5 段和第 6 段都没有提到他们是大地主。

6. YES

独立的自由党党员和保守党党员都不信任商业阶层。

原文第 5 段说：The reaction against the growing mercantile class was shared by the Tories, also generally landed country gentlemen. 本句前后分别说明两党成员都不信任商业阶层。

7. NO

Colley 支持 Namier 的观点。

用 Colley 定位到原文第 6 段。其首句为 It must be recognized that this view is not universally espoused（必须认识到并不是所有人都支持 Namier 的观点）。本段下文便以 Colley 为例解释说明。

8. NOT GIVEN

Namier 利用 Harris 对 18 世纪 40 年代报刊的分析支持自己的观点。

用 Harris 回原文第 6 段定位。在该段的最后一句中，没有提到 Namier 是否用 Harris 的分析来支持自己的观点。

细节题——问答题

一 题型样式

每个题目都是一个特殊疑问句，要求根据原文做出回答。

二 注意事项

1. 绝大多数都有词数限制，必须满足。

绝大部分的题目要求中有词数限制，一般有如下几种表述方式：

(1) NO MORE THAN TWO/THREE/FOUR WORDS

(2) ONE OR TWO WORDS

(3) USE A MAXIMUM OF TWO WORDS

有词数限制的题目，一定要严格按照题目要求去做，必须满足要求。少部分的题目要求中没有词数限制，这时，请注意答案词数也不会很长，一般不会超过 4 个词。总之，这种题型的答案都是词或短语，很少是句子，所以又叫“短问答”。

2. 满足词数限制的方法。

大多数简答题有词数的限制，找到答案后，如果答案超过了词数要求，就需要去掉一些词。基本原则是：保留核心词，去掉修饰词。依次去掉：

(1) 冠词：a/an/the。

(2) 副词：副词用来修饰动词，保留动词，去掉副词。

(3) 形容词或分词：常用来修饰名词，保留名词，去掉形容词或分词。

(4) 如果有必要，将 A of B 改为 B A：这里 A 和 B 都是名词，如 type of fabric，可改为 fabric type，省掉一个词。

大家注意，在去掉多余的词的时候，不要去得太过。在满足词数要求的前提下，应尽可能地多保留一些原文中的词句。有时去得太过，会造成错误。例如正确答案为：Australian taxpayer，如果答成 taxpayer 是不对的。

3. 答案必须要对应题目中的特殊疑问词。

绝大部分的答案是名词或名词短语，也有少部分是动词或形容词短语。详见下表：

特殊疑问词	答案词性(有可能是短语)	答 案 例 子	注 意 事 项
When	名词(时间)	8:00 a.m.	不需要时间名词前面的介词及冠词，钟点后面要有 a.m. 或 p.m.
How long	数词 + 单位(s)	2 days	
Where	名词(地点)	classroom	不需要地点名词前面的介词及冠词
What	名词	calcium deposit	
Who	名词(人或单位)	Australian taxpayer	
How many	数词	6	最好写阿拉伯数字
What proportion	数词(比例)	20%-30%	最好写阿拉伯数字
What is the cost	数词(钱币)	\$25 million	
What do	动词	evacuate the building	
What will happen	短的句子	The licence may be cancelled.	
How	介词短语	by bike	

4. 所有的答案都不用大写，专有名词除外。

一句话的第一个字母需要大写，我们的答案大部分都是词或短语，都不是一句话，所以不用大写。但答案中的专有名词，如人名和地名需要大写，例如：Australian taxpayer，不能答为：australian taxpayer。

5. 绝大部分的答案来自原文原词，极少一部分需要根据原文的意思自己写答案。

大部分的答案来自原文原词，而且是原文中连续的几个词。只有极少一部分需要自己写答案。所以，在考试中，如果发现有很多问题都需要自己写答案，应首先怀疑自己找错答案的位置。需要自己写答案的例子：

例 原文：If your iron produces droplets of water instead of giving off steam, your temperature control is set too low.

题目：What should you do if your iron starts to drip water?

答案及解释：原文说：如果你的熨斗开始滴水而不是放出蒸汽，你设置的温度过低。

题目问：如果你的熨斗开始滴水，你应该做什么？答案应该是升高温度的意思，但原文中并没有相应的原词，需要自己写出来。最好的答案是将 **your temperature control is set too low** 改为：**set temperature high/higher**。同样正确的答案有：**increase the temperature** 或 **turn up temperature**。

6. 答案涉及数字的，最好写阿拉伯数字，以免发生拼写错误。

题目问：How many/How much/What proportion 时，答案一般是数词，这是最好写阿拉伯数字，这样最保险，不用拼写成英文。

7. 答案涉及数字的，一般要有简单的四则运算。

题目问：How many/How much/What proportion/What is the cost 时，答案一般不会直接是原文中出现的数字，而要涉及简单的四则运算，通常是加减法。

例 原文：All major cities there have high car ownership, but well developed bus and rail systems are available, and overall public transport typically accounts for between 20 and 30 percent of passenger kilometres.

题目：What proportion of passenger kilometres is undertaken by private automobile in Western Europe?

答案及解释：很多同学误答 20% ~ 30%。原文说：公共交通占 20% ~ 30%。题目问：私人小汽车所占的比例。答案应为：70% ~ 80%。

三 例题讲解

Your Moulex Iron

A Filling the Reservoir

Your iron is designed to function using tap water. However, it will last longer if you use distilled water.

- Always unplug the iron before filling the reservoir.
- Always empty the reservoir after use.

B Temperature and Steam Control

Your Moulex iron has two buttons which control the intensity of heat produced by the iron. You can, therefore, adjust the temperature of the iron and the amount of steam being given off depending upon the type of fabric being ironed.

- Turn the steam control to the desired intensity.
- Turn the thermostat control to the desired temperature.

Important: If your iron produces droplets of water instead of giving off steam, your temperature control is set too low.

C Spray Button

This button activates a jet of cold water which allows you to iron out any unintentional creases.

Press the button for one second.

D Pressing Button

This button activates a super shot of steam which momentarily gives you an additional 40g of steam, when needed.

Important: Do not use this more than five successive times.

E Suits etc.

It is possible to use this iron in a vertical position so that you can remove creases from clothes on coathangers or from curtains. Turning the thermostat control and the steam button to maximum, hold the iron in a vertical position close to the fabric but without touching it. Hold down the pressing button for a maximum of one second. The steam produced is not always visible but is still able to remove creases.

Important: Hold the iron at a sufficient distance from silk and wool to avoid all risk of scorching. Do not attempt to remove creases from an item of clothing that is being worn, always use a coathanger.

F Auto-clean

In order that your iron does not become furred up, Moulex have integrated an autoclean system and we advise you to use it very regularly (1-2 times per month).

- Turn the steam control to the off position.
- Fill the reservoir and turn the thermostat control to maximum.
- As soon as the indicator light goes out, unplug the iron and, holding it over the sink, turn the steam control to autoclean. Any calcium deposits will be washed out by the steam. Continue the procedure until the reservoir is empty.

Questions 1-4

Answer the following questions on the Moulex iron using NO MORE THAN THREE WORDS. Write your answers in boxes 1-4 on your answer sheet.

1. What sort of water are you advised to use?
2. What factor makes you decide on the quantity of steam to use?
3. What should you do if your iron starts to drip water?
4. What could damage your iron if you do not clean it?

答案及详解

1. distilled water

先读题目，题目中的关键词是“water”，对应到原文 A 段，因为 A 段的小标题为“Filling the Reservoir”，reservoir 是“水库”的意思，在这里指“熨斗的储水箱”。reservoir 和 water 对应上了。此题有个陷阱，有的同学从原文的第一句中得出错误答案：tap water（自来水），但原文中马上就有一个转折词 However，正确答案应为：distilled water（蒸馏水）。只答 distilled 也对。

2. type of fabric

先读题目，题目中的关键词是“steam”，对应到原文 B 段“Temperature and steam control”，阅读该段话，根据题目中的其他关键词 decide on, quantity，找到 B 段中的句子：... the amount of steam being given off depending upon the type of fabric being ironed. 其中 decide on 对应 depending upon, quantity 对应 amount。

3. set temperature high/higher

先读题目，不能直接对应到原文的一个段落，根据顺序性，从第 6 题的答案位置向后找，找到 B 段中的句子：If your iron produces droplets of water instead of giving off steam, your temperature control is set too low. 原文中的 produces droplets of water 对应题目中的 drip water。答案为 set temperature high/higher。同样正确的答案有：increase the temperature 或 turn up temperature，或其他表示升温的答案。注意，不能答成 adjust/change the temperature，因为改变或调整温度并不代表升温，也可能是降低温度。也不能答成 high/higher temperature，因为题目问 What should you do，所以，答案的第一个词应是动词。

4. any calcium deposits 或 calcium deposits

先读题目，题目中的关键词是“clean”，对应到原文 F 段“Autoclean”，阅读该段话，找到段中的句子：Any calcium deposits will be washed out by the steam. 答案为 any calcium deposits 或 calcium deposits。

细节题——选择题

雅思考试的选择題分为四选一和多项选择两种。四选一考的多，多项选择考的很少。我们今天先重点讲解四选一，在最后，提一下多项选择。

一 题型样式

大家对四选一题型应该比较熟悉。题目有一个题干，然后有 4 个选项，让你从中选出最合适的选项。

二 注意事项

1. 在读题时，把选项也读一下。

选项中的特殊词，如：时间、数字、人名、地名等可以作为定位的依据。

2. 含有“绝对意义”的词汇的选项是正确选项的可能性很小。选项中含有“相对意义”的词汇是正确选项的可能性很大。

“绝对意义”的词汇包括: **must, always, all, will**。“相对意义”的词汇包括: **can, may, not always, sometimes, some**。也就是说, 越是模棱两可、含含糊糊的选项, 越可能是正确答案, 因为它适用的范围更广。这条规律的适用性很强, 实践证明它的准确率在 90% 以上。

3. 如果一个选项合乎题意, 还要看最后一个选项中是否是 “all of the above”。如果是, 它是正确选项的可能性很大。

4. 如果两个选项特别相近, 如只相差一个词, 正确答案应是其中之一。

5. 包含数字的选项是正确选项的可能性很小, 但可以定位到原文的依据。

原文中通常会有这个数字, 但都会做改变。这个数字是引诱你去选的陷阱。

三 例题讲解

Day after day we hear about how anthropogenic development is causing global warming. According to an increasingly vocal minority, however, we should be asking ourselves how much of this is media hype and how much is based on real evidence. It seems, as so often is the case, that it depends on which expert you listen to, or which statistics you study.

Yes, it is true that there is a mass of evidence to indicate that the world is getting warmer, with one of the world's leading weather predictors stating that air temperatures have shown an increase of just under half a degree Celsius since the beginning of the twentieth century. And while this may not sound like anything worth losing sleep over, the international press would have us believe that the consequences could be devastating. Other experts, however, are of the opinion that what we are seeing is just part of a natural upward and downward swing that has always been part of the cycle of global weather. An analysis of the views of major meteorologists in the United States showed that less than 20% of them believed that any change in temperature over the last hundred years was our own fault—the rest attributed it to natural cyclical changes.

There is, of course, no denying that we are still at a very early stage in understanding weather. The effects of such variables as rainfall, cloud formation, the seas and oceans, gases such as methane and ozone, or even solar energy are still not really understood, and therefore the predictions that we make using them cannot always be relied on. Dr James Hansen, in 1988, was predicting that the likely effects of global warming would be a raising of world temperature which would have disastrous consequences for mankind: “a strong cause and effect relationship between the current climate and human alteration of the atmosphere”. He has now gone on record as stating that using artificial models of climate as a way of predicting change is all but impossible. In fact, he now believes that, rather than getting hotter, our planet is getting greener as a result of the carbon dioxide increase, with the prospect of increasing

vegetation in areas which in recent history have been frozen wastelands.

In fact, there is some evidence to suggest that as our computer-based weather models have become more sophisticated, the predicted rises in temperature have been cut back. In addition, if we look at the much reported rise in global temperature over the last century, a close analysis reveals that the lion's share of that increase, almost three quarters in total, occurred before man began to "poison" his world with industrial processes and the accompanying greenhouse gas emissions in the second half of the twentieth century.

So should we pay any attention to those stories that scream out at us from billboards and television news headlines, claiming that man, with his inexhaustible dependence on oil-based machinery and ever more sophisticated forms of transport is creating a nightmare level of greenhouse gas emissions, poisoning his environment and ripping open the ozone layer? Doubters point to scientific evidence, which can prove that, of all the greenhouse gases, only two percent come from man-made sources, the rest resulting from natural emissions.

Who, then, to believe: the environmentalist exhorting us to leave the car at home, to buy re-usable products packaged in recycled paper and to plant trees in our back yard? Or the sceptics, including, of course, a lot of big businesses who have most to lose, when they tell us that we are making a mountain out of a molehill? And my own opinion? The jury's still out as far as I am concerned!

Questions 1-6

Choose the appropriate letters A-D for each question.

1. As to the cause of global warming, the author believes that _____.
 - A. occasionally the facts depend on who you are talking to
 - B. the facts always depend on who you are talking to
 - C. often the facts depend on which expert you listen to
 - D. you should not speak to experts
2. More than 80% of the top meteorologists in the United States are of the opinion that _____.
 - A. global warming should make us lose sleep
 - B. global warming is not the result of natural cyclical changes, but man-made
 - C. the consequences of global warming will be devastating
 - D. global warming is not man-made, but the result of natural cyclical changes
3. Our understanding of weather _____.
 - A. leads to reliable predictions
 - B. is variable
 - C. cannot be denied
 - D. is not very developed yet
4. Currently, Dr James Hansen's beliefs include the fact that _____.
 - A. it is nearly impossible to predict weather change using artificial models

- B. the consequences of global warming would be disastrous for mankind
 - C. there is a significant link between the climate now, and man's changing of the atmosphere
 - D. the Earth is getting colder
5. Most of the increase in global temperature happened _____.
 A. in the first half of the twentieth century
 B. in the second half of the twentieth century
 C. in the first half of the nineteenth century
 D. in the second half of the nineteenth century
6. Many big businesses _____.
 A. are exhorting us to leave the car at home
 B. benefit a lot from global warming
 C. are on the side of environmentalists as regards the cause of global warming
 D. are on the side of the sceptics as regards the cause of global warming

答案及详解

1. C

对应原文第 1 段最后 1 句，答案：C. 这经常要看你听从哪位专家的观点。

2. D

原文第 2 段有 An analysis of the views of major meteorologists in the United States showed that *less than 20%* of them believed that any change in temperature over the last hundred years was our own fault (不到 20% 的主流气象学家认为，过去 100 年里任何的温度上升都是我们自己的过错)。下文破折号后面的 the rest 就是题干中的 80%。大部分人认为全球变暖不是人类造成的，而是自然周期变化的结果。所以答案选 D：全球变暖不是人类造成的，而是自然周期变化的结果。

3. D

原文第 3 段第 1 句说：There is, of course ... in understanding weather. (当然，不可否认，我们对于天气的了解还处于初级阶段。) 答案为 D：还不成熟。

4. A

对应原文第 3 段倒数第 2 句：He has now ... all but impossible. 答案为 A：用人造模型来预测天气变化几乎是不可能的。

注意：题干说的是目前 James Hansen 博士的看法，而 B 和 C 都是 James Hansen 博士 1988 年的观点。

5. A

对应原文第 4 段：a close analysis ... greenhouse gas emissions *in the second half of the*

twentieth century. 指出 3/4 的气温升高都发生在人类开始污染环境的 20 世纪后半叶之前。答案为 A: 20 世纪前半叶。

6. D

对应原文最后一段有: *Or the sceptics ... most to lose*. 答案为 D: 在全球变暖的原因方面, 站在怀疑论者一边。

雅思考试的选择题分为四选一和多项选择两种。四选一, 选项肯定是 4 个。即要求从 A、B、C、D 四项中选择一个最符合题意的选项。多项选择, 选项肯定是 5 个或 5 个以上, 而正确答案的数目肯定在 2 个以上。

与四选一相比, 多项选择很容易, 是一种简单题型。它具有以下几个特点:

(1) 正确答案的数目是已知的。在题目的要求中会告诉你要选出几个选项。

(2) 答案在原文中是集中出现的, 对应原文中的列举。找到一个答案, 其余几个就在它的前后不远处。

我们举一个中文阅读的例子来说明。文章如下:

帕金森症是一种顽症。它是由大脑中缺乏一种叫多巴胺的化学物质引起的。(以下删减 100 词。)

很多名人深受其苦。比如, 我们改革开放的总设计师邓小平、拳王阿里、已故数学家陈景润等。(以下删减 100 词。)

题目是: 以下哪 3 个人得过帕金森症?

A. 邓小平

B. 里根

C. 拳王阿里

D. 杨凡

E. 陈景润

答案为: ACE

雅思考试多项选择的例题, 在以后的综合练习中会出现, 我们再作详细讲解。

三 例题讲解

Asia's Energy Temptation

Nuclear power supplies 5% of the world's energy from more than 400 plants. But with the exception of France and Japan, the rich world has stopped ordering new reactors. A technology that was once deemed both clean and "too cheap to metre" has proved to be neither. The industry's chief hope now rests on the poor world. Western firms with reactors to sell will be relying on Asia, where electricity demand is growing at 8% a year. New reactors are planned in China, Indonesia, South Korea, Pakistan and India. It is good news for the reactors' vendors; but these countries are making a mistake.

The economic arguments for building new nuclear plants are flawed. The marginal costs of generating electricity from nuclear energy may be tiny, but, as the technology now stands, huge and uncertain costs are involved in building the power stations, dealing with spent fuel, and decommissioning. Many western governments which sang nuclear's praises now admit that gas and hydropower can produce cheaper electricity.

The economics of nuclear power in the poor world could prove to be worse still. As in the rich world, fossil fuels such as gas and coal are invariably cheaper. In China the case for nuclear power may be a little stronger as domestic reserves of coal — though huge — are located far from some areas of growing electricity demand. But most developing countries, including China, are strapped for cash and need to increase electricity supply quickly to meet soaring demand. Nuclear plants fail on both counts: they are hugely capital-intensive, and can take as long as ten years to build.

Those still charmed by nuclear power nowadays make three new arguments in its favour: that it is a defence against climate change, against another OPEC-administered oil shock, and against the inevitable exhaustion of fossil fuels. None bears close examination.

At present rates of demand, the world has enough oil to last for more than 40 years, enough gas for more than 60 years and enough coal for more than 230 years. Naturally, demand will increase; but so will reserves as companies explore more widely and costs fall. Since 1970 viable reserves of oil have almost doubled while those of gas have leapt three-fold.

One distant day a crunch will come, but as it approaches fossil-fuel prices will rise, making alternative forms of energy, perhaps including nuclear power, competitive. That is no reason to spend on nuclear now.

An oil shock is a more worrying prospect, despite today's low oil price and OPEC's present inability to budge it upwards. After all, the cartel still sits on 75% of the world's economically viable reserves, and the politics of the Middle East can change at a stroke. However, even if an oil shock is a real danger, building nuclear reactors is not a good way to avert it. A higher oil price would have a relatively small effect on the supply of electricity — the only sort of energy that nuclear power can now provide. Just over a tenth of the world's electricity (and 14% of Asia's) is generated from oil, and the proportion has fallen steadily since 1970.

Besides, there are superior, non-nuclear, ways to prepare for an oil shock. Governments could take advantage of today's low oil prices to build up their stocks. Especially where congestion and pollution are serious problems, they could try to restrict the growth of car use, or promote cars which guzzle less fuel. For governments keen to reduce electricity's remaining dependence on oil still further, there are usually cheaper alternatives to nuclear, such as coal or hydropower.

Climate change is a legitimate worry. Although still riddled with uncertainties, the science of climate change is becoming firmer: put too much carbon in the atmosphere and you might end up cooking the earth, with possibly catastrophic results. But here again, switching immediately to nuclear power is not the best response. Cutting the hefty subsidies that go to the world's coal producers would help tilt the world's energy balance towards natural gas, which gives off much less carbon dioxide. Developing countries subsidise electricity prices to the tune of up to \$120 billion a year, according to World Bank estimates. If prices reflected the true costs of generation, electricity demand would fall, thus cutting greenhouse emissions.

Once the tough job of cutting subsidies is over, governments might want to reduce greenhouse gases further. Again there are carbon-free energies that merit more subsidies than nuclear. The costs of many renewable technologies, such as solar and wind power, have fallen dramatically in recent decades.

Moreover, supporting nuclear power to ward off climate change means swapping one environmental risk for another. Voters in many countries fear radiation like the plague. The risks of nuclear accidents may be tiny, but when they happen they can be catastrophic. Renewables are not without their environmental disadvantages (wind turbines, for example, can be unsightly on hilltops), but are much cleaner than nuclear. The billions rich countries each year pump into nuclear research would be better spent on renewables instead.

Having been invented, nuclear power will not disappear. The nuclear industry still has a job to do, running existing nuclear plants to the end of their lives as cheaply and safely as

possible. For now, the case for nuclear power is full of holes. Asia should resist the temptation to throw its money into them.

Questions 1-4

Using **NO MORE THAN THREE WORDS** complete the following statements. Write your answers in boxes 1-4 on your answer sheet.

1. Nuclear power plants require a great deal of _____ to build.
2. Two carbon-free forms of energy are _____ and _____.
3. Money presently used for nuclear research could be better spent on _____.
4. The nuclear industry should operate nuclear power plants _____.

答案及详解

1. costs

先读题目，搞懂它的意思，从文章开始处阅读，寻找答案，对应到第2段的第2句：The marginal costs ... and decommissioning.

原文中的 huge and uncertain 对应于题目中的 a great deal of。

2. solar (and) wind power

先读题目，搞懂它的意思，从原文第1题的答案开始处阅读，寻找答案，对应到倒数第3段的第2句和第3句：Again there are ... in recent decades.

此题比较难，主要是因为它的答案与上一题的答案在原文中相距较远，不好定位。

3. renewables

先读题目，搞懂它的意思，从原文第2题的答案开始处阅读，寻找答案，对应到倒数第2段的最后一句：The billions rich ... on renewables instead.

4. cheaply and safely

先读题目，搞懂它的意思，从原文第3题的答案开始处阅读，寻找答案，对应到最后一段的第2句：The nuclear industry ... safely as possible.

原文中的 running 对应于题目中的 operate。

细节题——填图填表

题型要求

题目中是一个图表或一个表格，其中有一些信息，信息中留出空格，要求根据文章填空。一般没有选项可供选择。

填空题类别较多，所填内容五花八门，但一般都比较容易。有的定位容易——集中于原文中的一个段落里。

二 注意事项

1. 注意看表头和题目中的例子。

2. 绝大部分的答案来自原文原词。

大部分的答案来自原文原词，而且是原文中连续的几个词。

3. 注意词数限制。

绝大部分的题目要求中有词数限制，这时必须满足题目要求。即使题目要求中没有词数限制，答案词数也不会很多，一般不会超过 4 个词。

三 例题讲解

Winter Sports

The 17th Winter Games, held in Norway in 1994, are part of an Olympic tradition which goes back almost 3,000 years. For more than 1,000 years the ancient Games were held, every four years, on hallowed ground near Mount Olympus, where the Greek gods were said to live.

The Olympics' brought together men from war-torn tribes and states in Greece and its colonies. A sacred truce was declared to allow men to travel to the games in safety. Women could not take part and were forbidden, on pain of death, even to attend the Games.

The ancient Olympics were abolished by the Roman Emperor Theodosius in 393 AD, after Greece had lost its independence. But the idea never died and the Frenchman Baron Pierre de Coubertin, an educator and scholar, founded the modern Olympics. His aim was to bring together, once every four years, athletes from all countries on the friendly fields of amateur sport. No account was to be taken of national rivalries, nor politics, race, religion, wealth or social status.

The first modern Games were held in Athens in 1896, and four years later, in Paris, women began to take part. Although the winter Olympics did not begin until 1924, figure skating was part of the 1908 London summer Olympics; both skating and ice hockey were included in the Antwerp Games in 1920. But generally winter sports were felt to be too specialized. Only cold weather countries had much experience of activities such as skiing — a means of transport overland across ice and snow during long winters.

The Scandinavians, for whom skiing is a part of everyday life, had objected to a winter games. They feared it would threaten their own Nordic Games, which had been held every four years since 1901. But the International Olympic Committee (IOC) agreed to stage an international Sports Week in Chamonix, France, in 1924. It was a success and the Scandinavians won 28 of the 43 medals, including nine golds. They dropped their objections and the event was retrospectively named the First Olympic Winter Games.

Apart from the Second World War period the Winter Olympics were held every four years,

a few months before the summer Olympics. But in 1986 the IOC changed the schedule so that the summer and winter games would be held in different years. Thus, for the only time in history, the Lillehammer (Norway) Games took place just two years after the previous Winter Olympics which were held in Albertville, France.

Since the Winter Games began, 55 out of 56 gold medals in the men's Nordic skiing events have been won by competitors from Scandinavia or the former Soviet Union. For teams from warm weather countries, cross-country skiing can pose problems. At the Calgary Games in 1988, one competitor in the 50-kilometre event was so slow that race officials feared he was lost and sent out a search party. Roberto Alvarez of Mexico had never skied more than 20 kilometres before and finished 61st and last — 52 minutes behind the 60th place.

Question 1-4

Complete the table below. Write a date for each answer.

Write your answers in boxes 1-4 on your answer sheet.

	DATE	EVENT
	(1)	Ancient Olympics came to an end.
	(2)	first women's events
Example	(1901)	first Nordic Games
	(3)	first winter team game included in Olympics
	(4)	first Winter Olympic Games

答案及详解

1. 393 AD

先读题目，然后在原文中从前向后，寻找时间。第 1 个含有时间的句子是原文的第 1 句话，但不是题目所要求的。继续向后寻找，下一句是原文第 3 段的第 1 句：The ancient Olympics ... lost its independence.

原文中的 the ancient Olympics were abolished 对应于题目中的 Ancient Olympics came to an end.

2. 1900

先读题目，在原文中继续向后寻找时间，对应于第 4 段的一句话：The first modern ... to take part.

注意，有简单的四则运算， $1896+4=1900$ 。

3. 1920

先读题目，在原文中继续向后寻找时间，对应于第 4 段的一句话：Both skating and ...

Games in 1920.

ice hockey (冰球) 是一种 team game。

4. 1924

先读题目，在原文中继续向后寻找时间，对应于第4段的一句话：The winter Olympics did not begin until 1924.

🔗 细节题——摘要填空

一 题型要求

题目是一小段文字，是原文或原文中几个段落主要内容的缩写或改写，我们称之为“摘要”。摘要中有几个地方被去掉，要求考生填空。

按照摘要范围，摘要可分为两种：全文摘要和部分段落摘要。全文摘要，摘要信息来自全文，一般题目空格的数目较多。部分段落摘要，摘要信息来自原文某几个连续的段落，一般题目空格的数目较少。最近的考试中，大部分题型是部分段落摘要，信息来自原文连续的两三段，题目空格的数目在5个左右。对于部分段落摘要，有的在题目要求中会指出它来自原文的哪些段落，如 **Complete the summary below of the first two paragraphs of the Reading Passage.** 但大部分的段落摘要只是在题目要求中说它是原文的一个摘要或部分段落摘要，并不指出它来自原文的哪些段落。

按照填空内容，摘要可分为两种：从原文选词和从多个选项中选词。从原文选词，题目要求中常有 **from the Reading Passage** 的字样。从多个选项中选词，选项的数目常常超过题目空格的数目。

二 例题讲解

1. 对于从原文选词的题目

(1) 要注意题目要求中是否有词数限制。

很多要求从原文选词即自己写词的，会有词数要求，如 **USE ONE OR TWO WORDS** 等，答案必须满足这个要求。

(2) 只能是原文中连续的几个词，不能改变它们的顺序。

如原文为 **virgin fibre**，答案不可能是 **fibre virgin**。原文为 **advances in the technology**，答案不能是 **technology advances**。

(3) 对于从原文选词的，越是生词，越可能是答案。

下列比较生僻的词 **sustainable** (可持续的)、**biodegradable** (可生物降解的)、**contaminants** (废物，杂物)、**nostrils** (鼻孔) 都是题目的答案。

2. 对于从选项中选词的题目

(1) 要注意看题目要求是回答答案本身，还是回答选项的代表字母。

选项前有代表字母的，肯定是要求答代表字母。最近的考试中，选项前大部分都有代表字母。

有代表字母的例子如下：

- | | |
|------------------------------|-------------------------------|
| A. passengers | H. singleoccupant automobiles |
| B. Moscow | I. energy policies |
| C. fuel efficiency | J. economic development |
| D. availability of transport | K. fuel consumption |
| E. vehicles per hour | L. decentralisation |
| F. Tokyo | M. frequency of use |
| G. passengers per hour | N. Third World cities |

这时，在答题纸上肯定是要求答 A, B, C, D 等。

(2) 如果时间不够，可以直接从选项中选择，不看原文。

这时，要特别注意语法规范。这样做的准确率在 50% 左右（视题目的难易及考生的水平）。所以，除非时间不够，否则建议大家不要这样做。

三 例题讲解

- 1 People may think that writing as a profession is glamorous; that it is just about sitting down and churning out words on a page, or more likely these days on a computer screen. If only it were true! So what exactly does writing a book entail? Being a writer is about managing a galaxy of contradictory feelings: elation, despair, hope, frustration, satisfaction and depression — and not all separately! Of course, it also involves carrying out detailed research: first to establish whether there is a market for the planned publication, and second into the content of the book. Sometimes, however, instinct takes the place of market research and the contents are dictated not by plans and exhaustive research, but experience and knowledge.
- 2 Once the publication has been embarked upon, there is a ling period of turmoil as the text takes shape. A first draft is rarely the final text of the book. Nearly all books are the result of countless hours of altering and re-ordering chunks of text and deleting the embarrassing bits. While some people may think that with new technology the checking and editing process is speeded up, the experienced writer would hardly agree. Unfortunately, advanced technology now allows the luxury of countless editings, a temptation many of us find hard to resist. So a passage, endlessly re-worked may end up nothing remotely like the original, and completely out of place when compared with the rest of the text.
- 3 After the trauma of self-editing and looking for howlers, it is time to show the text to other

people — friends perhaps, for appraisal. At this stage, it is not wise to send it off to a literary agent or direct to publishers, as it may need further fine-tuning of which the author is unaware. Once an agent has been approached and has rejected a draft publication, it is difficult to go and ask for the revamped text to be considered again. It also helps, at this stage, to offer a synopsis of the book, if it is a novel, or an outline if it is a textbook. This acts as a guide for the author, and a general reference for friends and later for agents.

- 4 Although it is tempting to send the draft to every possible agent at one time, it is probably unwise. Some agents may reject the publication out of hand, but others may proffer some invaluable advice, for example about content or the direction to be taken. Hints like this may be of use in finally being given a contract by an agent or publisher.
- 5 The few lucky taken on by publishers or agents, then have their books subjected to a number of readers, whose job is to vet a book: deciding whether it is worth publishing and whether the text as it stands is acceptable or not. After a book is finally accepted by a publisher, one of the greatest difficulties for the writer lies in talking on board the publisher's alterations to the text. Whilst the overall story and thrust of the book may be acceptable, it will probably have to conform to an in-house style, as regards language, spelling, or punctuation, etc. More seriously, the integrity of the text may be challenged and this may require radical re-drafting which is unpalatable to the author. A book's creation period is complex and unnerving, but the publisher's reworkings and text amputations can also be tortuous process.
- 6 For many writers, the most painful period comes when the text has been accepted, and the writer is waiting for it to be put together for the printer. By this stage, it is not uncommon for the writer to be thoroughly sick of the text.
- 7 Abandon writing? Nonsense. Once smitten, it is not easy to escape the compulsion to create and write, despite the roller-coaster ride of contradictory emotions.

Word List				
editing	process	beware	readers	first
draft	glamour	a literary agent	alterations	profession
publisher	challenges	compelling	dictating	research
publishing	summary	roller-coaster	ups and downs	

答案及详解

1. glamour

People often associate writing with 1_____. (人们常把写作和_____相联系。) 空格中缺少名词。原文第 1 句有: People may think that writing as a profession is glamorous. (人们把写作想象成有魅力的职业。) 备选项中最合适的答案为 glamour。

2. research

But being a writer involves managing conflicting emotions as well as 2_____ or instinct. 空格和 instinct 并列, 为名词。原文第 1 段末句有: Sometimes, however, instinct takes the place of market research. 与 instinct 并列的是 research。

3. editing process

Advanced technology, contrary to what might be thought, does not make the 3_____ faster. (与原先的设想相反, 改进的技术没有使_____加快。) 原文第 2 段有 While some people may think that with new technology the checking and editing process is speeded up, the experienced writer would hardly agree. (尽管有人认为, 有了新技术, 校对和编辑速度会提高, 但有经验的作家并不同意这种说法。) 结合单词表中的备选项, 答案选 editing process。

4. summary

When a writer has a draft of the text ready, it is a good idea to have a 4_____ for friends to look at. (如果作者打好草稿, 给朋友们看看_____是个好主意。) 空格中缺名词。原文第 3 段有: It also helps, at this stage, to offer a synopsis of the book, if it is a novel, or an outline if it is a textbook. This acts as a guide for the author, and a general reference for friends and later for agents. 意思是: 应该让朋友看看书的大纲、摘要, 以供参考。第 2 句中的 this 这里指 synopsis (梗概) 或 outline (提纲), 在备选项中对应的是 summary。

5. readers

If an author is accepted by a publisher, the draft of the book is given to 5_____ for vetting.

这里有生词 **vetting**，而答案就是做这个动作的人。原文第 5 段有：The few lucky taken ... vet a book.

6. Alterations

6_____ are then often made, which are not easy for the writer to agree. (书稿经常要被_____, 这对作者来说是很难同意的。) 空格中缺名词。原文第 5 段有: **After a book is ... to the text.** (出版商接受书稿后, 对于作者来说最大的困难就是接受出版商对原文所做的改动。) 答案应填复数的 **Alterations**。

7. ups and downs

However, writing is compelling, even though there are 7_____. (尽管有_____, 写作依然是扣人心弦的。) 空格中缺名词。原文第 7 段有: Abandon writing? ... of contradictory emotions. 这是一种关系重现: even though 对应 despite, 它们后面对应的成分必然相同——roller-coaster ride of contradictory emotions (坐过山车时起伏矛盾的感觉) 对应选项里的 ups and downs。

Day 5 必须了解的阅读题型

2 搭配题

搭配题是雅思最常考的题型之一。搭配题其实也是细节题，但它与我们前面讲的 6 种细节题最主要的区别在于：题目的顺序与原文的顺序不一致。所以，我们前面讲的 6 种细节题也可以叫作“有顺序性的细节题”，搭配题则可以叫作“无顺序性的细节题”。搭配题本身分为 3 种类型：

- (1) 事物及其特征搭配;
- (2) 下列信息由原文哪段话包含;
- (3) 作者及其观点的搭配。

下面，我们分别讲解以上类型。

事物及其特征搭配

一 题型要求

事物及其特征搭配是搭配题中最常考的类型。选项中的事物和题目中的特征是从属的关系, 题目要求根据原文, 将每个题目与相应的选项搭配。

二 解题方法

1. 先将选项和题目从头到尾看一遍，记住尽可能多的关键词。这是做这种题型的关键，否则，就会造成反复阅读原文，浪费时间。

2. 从头到尾依顺序快速阅读原文, 在阅读原文时, 注意寻找所记住的题目中的关键词, 如果关键词是专有名词或者很生僻的词, 一般在原文中出现的就是该词本身, 否则会有同义词或同义表述的对应。

选项常常是一些专有名词, 包含大写字母。这时, 在阅读原文时, 应特别注意包含大写字母的地方, 注意其前后的词是否与所记住的关键词相同或相对应。

3. 因为在读原文之前, 已把题目从头到尾看了一遍, 所以最好的情况是只读一遍文章就能做出来绝大多数的题目。比如一组 6 个题目, 能找到 4 ~ 5 个对应选项。

由于有的关键词没有记住, 或者有的与原文没有对应上。读完一遍文章后, 有的题目答案没有找出来。比如一组 6 个题目, 有 1 ~ 2 个没能找到。这已是很不错的表现了。对于这 1 ~ 2 个题目, 可以有如下的解决办法:

- (1) 如果有印象在文章的某个部位, 阅读原文的该部分, 确定答案。
- (2) 如果没有一点感觉, 但时间比较充裕, 再快速读一遍原文, 寻找这几个题的答案。
- (3) 如果没有一点感觉, 而且时间比较紧, 可以放弃。

三 例题讲解

The College

The college has the advantage of location in one of the most attractive cities in the country. Within the city of Bath it occupies modern buildings in a landscaped garden on Sion Hill, Lansdown and an adjacent Georgian Crescent, Somerset Crescent, which includes teaching and residential accommodation for post-graduate studies. It also occupies three houses in Sydney Place, which are used for studio and workshop accommodation for part-time courses in the Visual Arts and for the Foundation Course in Art and Design.

The Newton Park site is situated four miles west of Bath between the villages of Newton St Loe and Corston. Within the grounds are a Georgian mansion, where the college's central administration is located, an Elizabethan dairy, stables and the tower of a medieval manor house; all these older buildings have been adapted to present-day use. A new purpose-built Home Economics block was opened in January 1985. During 1986 a new Sports Hall will be completed and new residential blocks are under construction to be completed ready for the start of the academic year in September 1986; a new Music Block will be completed in 1987.

The Art and Design degree courses which are currently accommodated at Corsham, about nine miles east of Bath, will be moved to the Sion Hill site in Bath by September 1986 thus reinforcing faculty and course links.

The college courses are designed to take advantage of the special opportunities and circumstances provided by its environment. Students have available such resources as the Costume and Fashion Research Centre, the Royal Photographic Centre and the Museum of American Domestic Life at Calverton. Concerts and recitals, including some given by staff

and students, take place throughout the year in the Assembly Rooms.

The college uses buildings in five different places. Where are the following things located?

In boxes 1-7 on your answer sheet write

NP if something is located in Newton Park

C if something is located in Corsham

SH if something is located in Sion Hill

SC if something is located in Somerset Crescent

SP if something is located in Sydney Place

Example	Answer	A landscaped garden	SH
---------	--------	---------------------	----

1. Central Administration
2. Home Economics Block
3. Art and Design Foundation Course
4. Art and Design Degree Course after 1986
5. Post-graduate Residences
6. Sports Hall
7. Music Block

答案及详解

先把选项和题目都看一遍，选项都是专有名词，比较好找。从头到尾快速阅读原文，阅读时，注意寻找含有这些专有名词的句子，阅读这些句子，看是否和某个题目一致。

- | | | | |
|-------|-------|-------|-------|
| 1. NP | 2. NP | 3. SP | 4. SH |
| 5. SC | 6. NP | 7. NP | |

下列信息由原文哪段话包含

一 解题方法

先将题目从头到尾看一遍，划出并尽量记住其中的关键词。然后，从头到尾快速阅读原文，并不断与题目相对照，确定正确答案。

二 注意事项

1. 每个题目只能选一个选项。

每个题目只能和原文的一个观点对应，而该观点肯定是有一个人或组织提出来的。

2. 有些选项可能会用两次以上。

在原文中，可能会有作者提出两个或更多的观点，而这些观点都出现在了题目中。所以，有些选项可能会用两次以上。

3. 有些选项可能用不上。

有的作者虽然在原文中提出了观点，但这些观点没有出现在题目中，所以有些选项可能会用不上。

4. 注意与“找段落的小标题”题型的区别。

“找段落的小标题”题型是已知段落找主旨，这种题型是已知信息找段落。信息可能是主旨也可能不是。所以，像“找段落的小标题”题型找主题句的方法对这种题型是不适用的。

三 例题讲解

Questions 1-4

The passage “The Panda’s Last Chance” has 6 paragraphs labeled A-F.

Which paragraphs contain the following information?

Write the appropriate letters A-F in boxes 1-4 on your answer sheet. You only need ONE letter for each answer.

Note: You may use each letter more than once.

Example	Answer	Where panda habitats are located.	A
---------	--------	-----------------------------------	---

1. The separation of panda groups.
2. The panda’s diet.
3. The illegal killing of pandas.
4. Why pandas’ living areas have been reduced.

The Panda’s Last Chance

Chinese authorities have devised an ambitious plan to save the giant panda from the ravages of deforestation. Martin Williams assesses the creature’s chances of avoiding extinction.

- A** The giant panda, the creature that has become a symbol of conservation, is facing extinction. The major reason is loss of habitat, which has continued despite the establishment, since 1963, of 14 panda reserves. Deforestation, mainly carried out by farmers clearing land to make way for fields as they move higher into the mountains, has drastically contracted the mammal’s range. The panda has disappeared from much of central and eastern China, and is now restricted to the eastern flank of the Himalayas in Sichuan and Gansu provinces, and the Qinling Mountains in Shanxi province. Fewer than 1400 of the animals are believed to remain in the wild.
- B** Satellite imagery has shown the seriousness of the situation; almost half of the panda’s habitat has been cut or degraded since 1975. Worse, the surviving panda population has also become fragmented; a combination of satellite imagery and ground surveys reveals panda “islands” in patches of forest separated by cleared land. The population of

these islands, ranging from fewer than ten to more than 50 pandas, has become isolated because the animals are loath to cross open areas. Just putting a road through panda habitat may be enough to split a population in two.

- C The minuscule size of the panda populations worries conservationists. The smallest groups have too few animals to be viable, and will inevitably die out. The larger populations may be viable in the short term, but will be susceptible to genetic defects as a result of inbreeding.
- D In these circumstances, a more traditional threat to pandas — the cycle of flowering and subsequent withering of the bamboo that is their staple food — can become literally species-threatening. The flowerings prompt pandas to move from one area to another, thus preventing inbreeding in otherwise sedentary populations. In panda islands, however, bamboo flowering could prove catastrophic because the pandas are unable to emigrate.
- E The latest conservation management plan for the panda, prepared by China's Ministry of Forestry and the World Wide Fund for Nature, aims primarily to maintain panda habitats and to ensure that populations are linked wherever possible. The plan will change some existing reserve boundaries, establish 14 new reserves and protect or replant corridors of forest between panda islands. Other measures include better control of poaching, which remains a problem despite strict laws, as panda skins fetch high prices; reducing the degradation of habitats outside reserves; and reforestation.
- F The plan is ambitious. Implementation will be expensive — CNY 56.6 million (US \$ 12.5 million) will be needed for the development of the panda reserves—and will require participation by individuals ranging from villagers to government officials.

答案及详解

先将题目从头到尾看一遍，划出并尽量记住其中的关键词：

1. 处于分割状态
2. 饮食
3. 非法捕杀
4. 生活区域缩小的原因

然后，从头到尾快速阅读原文。

读到 A 段中的句子：

Deforestation, mainly carried out by farmers clearing land to make way for fields as they move higher into the mountains, has drastically contracted the mammal's range.

这句话指出了熊猫生活区域缩小的原因是 **deforestation**，所以 4 题的答案为：A。其中，**contracted** 对应于 **have been reduced**，**the mammal's range** 对应于 **pandas' living areas**。

继续向后阅读，读到 B 段中的句子：

Worse, the surviving panda population has also become fragmented; a combination of satellite imagery and ground surveys reveals panda “islands” in patches of forest separated by cleared land.

fragmented 的意思是：一片一片的，一段一段的。即使不认识这个词，原文中的 separated 也和 1 题中的 separation 相对应。所以 1 题的答案为：B。

继续向后阅读，读到 D 段中的句子：

the bamboo that is their staple food

很明显，bamboo 和 food 都对应于 2 题中的 diet，所以 2 题的答案为：D。

继续向后阅读，读到 E 段中的句子：

Other measures include better control of poaching, which remains a problem despite strict laws, as panda skins fetch high prices.

即使不认识 poaching（偷猎），从原文中的 panda skins fetch high prices，可以得出 3 题的答案为：E。

作者及其观点的搭配

一 题型要求

在原文中，就一个题目，若干人或组织提出了若干个观点，题目要求将观点与其提出者（作者）搭配。这种搭配题也有一个选项的集合和一个题目的集合。题目是观点，选项是作者。

这种题型一般比较难，主要表现在：

1. 没有顺序性，即题目的顺序与原文的顺序是不一致的。
 2. 文章题材多样，有的比较偏。作者提出的观点一般都比较抽象，不好理解。
 3. 文章句式复杂。一般句子都比较长，有很多都是复合句、并列复合句、多重复合句，容易造成大家理解上的困难。
 4. 题目中的观点与原文中的对应观点在句子形式上变化较大，造成对应困难。
- 与事物及其特征搭配题一样，作者及其观点搭配题也没有顺序性。但不能用同样的解题方法。怎么做事物及其特征搭配题呢？前面介绍的方法是：在阅读文章前，先将题目从头到尾看一遍，记住尽可能多的关键词。

但是不能用这种方法做作者及其观点搭配题。主要是因为题目都是一些观点，意思抽象，句式复杂。如果先将题目从头到尾看一遍，不仅会花很多时间，而且很可能读完题目之后，没有什么印象，也抓不住什么关键词。那么应该怎么做呢？请看下面的解题步骤。

二 解题步骤

1. 在原文中将作者及其观点用线划出。

作者都包含大写字母，有的还有年代，表明是什么时候提出来的观点，所以一般都比较好找。

他的观点在他的名字之前或者之后。表述观点一般有两种方法：

(1) 观点在作者的名字之前

例 In terms of time, women perform approximately 90 percent of child care tasks and 70 percent of all family work, and only 14 percent of fathers are highly participant in terms of time spent on family work (Russell 1983).

(2) 观点在作者的名字之后

例 Demo and Acock (1993), in a recent US study, also found that women continue to perform a constant and major proportion of household labour (68 percent to 95 percent) across all family types (first marriage, divorced, stepfamily or never married), regardless of whether they are employed or nonemployed in paid work.

2. 看题目的第一个观点，最好读懂它的意思，或者找出其中几个关键词。

做这种题型，应该一道题一道题地做。先看题目的第一个观点，最好能读懂它的意思或找出其中的几个关键词。

3. 将此观点与原文画线处一一对应，意思相同的或关键词对应的观点即为答案。

答案确定后，在原文观点处写上此题的题号。原文的每个观点只能与一个题目相对应，所以将已经与某一题目对应的观点做上标记，在做其他题目时，就不用看这个观点了。

4. 依此方法做其他题目。

三 注意事项

1. 每个题目只能选一个选项。

每个题目只能和原文的一个观点对应，而该观点肯定是由一个人或组织提出来的。

2. 有些选项可能会用两次以上。

在原文中，可能会有作者提出两个或更多的观点，而这些观点都出现在了题目中。所以，有些选项可能会用两次以上。

3. 有些选项可能用不上。

有的作者虽然在原文中提出了观点，但这些观点没有出现在题目中，所以有些选项可能会用不上。

4. 第一题往往对应文章的后几个观点，最后一题往往对应文章的前几个观点。

作者及其观点的搭配题是没有顺序性的。而且，出题者为了颠倒黑白，混淆是非，给考生造成障碍，第一题往往对应文章的后几个观点，最后一题往往对应文章的前几个观点。这个规律的准确率在 80% 以上。

我们可以利用这个规律，在找第一题的答案时，重点看文章的后几个观点。在找最后一题的答案时，重点看文章的前几个观点。

四 例题讲解

Right and Left-handedness in Humans

Why do humans, virtually alone among all animal species, display a distinct left or right-handedness? Not even our closest relatives among the apes possess such decided lateral asymmetry, as psychologists call it. Yet about 90 percent of every human population that has ever lived appears to have been right-handed. Professor Bryan Turner at Deakin University has studied the research literature on left-handedness and found that handedness goes with sidedness. So nine out of ten people are right-handed and eight are right-footed. He noted that this distinctive asymmetry in the human population is itself systematic. "Humans think in categories: black and white, up and down, left and right. It's a system of signs that enables us to categorise phenomena that are essentially ambiguous."

Research has shown that there is a genetic or inherited element to handedness. But while left-handedness tends to run in families, neither left nor right handers will automatically produce offspring with the same handedness; in fact about 6 percent of children with two right-handed parents will be left-handed. However, among two left-handed parents, perhaps 40 percent of the children will also be left-handed. With one right and one left-handed parent, 15 to 20 percent of the offspring will be left-handed. Even among identical twins who have exactly the same genes, one in six pairs will differ in their handedness.

What then makes people left-handed if it is not simply genetic? Other factors must be at work and researchers have turned to the brain for clues. In the 1860s the French surgeon and anthropologist, Dr Paul Broca, made the remarkable finding that patients who had lost their powers of speech as a result of a stroke (a blood clot in the brain) had paralysis of the right half of their body. He noted that since the left hemisphere of the brain controls the right half of the body, and vice versa, the brain damage must have been in the brain's left hemisphere. Psychologists now believe that among right-handed people, probably 95 percent have their language centre in the left hemisphere, while 5 percent have right-sided language. Left-handers, however, do not show the reverse pattern but instead a majority also have their language in the left hemisphere. Some 30 percent have right hemisphere language.

Dr Brinkman, a brain researcher at the Australian National University in Canberra, has suggested that evolution of speech went with right-handed preference. According to Brinkman, as the brain evolved, one side became specialized for fine control of movement (necessary for producing speech) and along with this evolution came right-hand preference. According to Brinkman, most left-handers have left hemisphere dominance but also some capacity in the right hemisphere. She has observed that if a left-handed person is brain-damaged in the left hemisphere, the recovery of speech is quite often better and this is explained by the fact that left-handers have a more bilateral speech function.

In her studies of macaque monkeys, Brinkman has noticed that primates (monkeys) seem to learn a hand preference from their mother in the first year of life but this could be one hand or the other. In humans, however, the specialisation in function of the two hemispheres results in anatomical differences: areas that are involved with the production of speech are usually larger on the left side than on the right. Since monkeys have not acquired the art of speech, one would not expect to see such a variation but Brinkman claims to have discovered a trend in monkeys towards the asymmetry that is evident in the human brain.

Two American researchers, Geschwind and Galaburda, studied the brains of human embryos and discovered that the left-right asymmetry exists before birth. But as the brain develops, a number of things can affect it. Every brain is initially female in its organization and it only becomes a male brain when the male foetus begins to secrete hormones. Geschwind and Galaburda knew that different parts of the brain mature at different rates; the right hemisphere develops first, then the left. Moreover, a girl's brain develops somewhat faster than that of a boy. So, if something happens to the brain's development during pregnancy, it is more likely to be affected in a male and the hemisphere more likely to be involved is the left. The brain may become less lateralised and this in turn could result in left-handedness and the development of certain superior skills that have their origins in the left hemisphere such as logic, rationality and abstraction. It should be no surprise then that among mathematicians and architects, left-handers tend to be more common and there are more left-handed males than females.

The results of this research may be some consolation to left-handers who have for centuries lived in a world designed to suit right-handed people. However, what is alarming, according to Mr Charles Moore, a writer and journalist, is the way the word "right" reinforces its own virtue. Subliminally he says, language tells people to think that anything on the right can be trusted while anything on the left is dangerous or even sinister. We speak of left-handed compliments and according to Moore, "it is no coincidence that left-handed children, forced to use their right hand, often develop a stammer as they are robbed of their freedom of speech". However, as more research is undertaken on the causes of left-handedness, attitudes towards left-handed people are gradually changing for the better. Indeed when the champion tennis player Ivan Lendl was asked what the single thing was that he would choose in order to improve his game, he said he would like to become a left-hander.

🔗 全文主旨题及其他题型

一 全文主旨题

题目要求你说出一篇文章的主旨，即整篇文章的中心意思。

1. 题目以四选一或五选一的形式出现。
2. 题干中常有 the aim of the writer（作者写文章的目的）、the title（文章的标题）、the main theme（文章的主旨）等词。
3. 最后做全文主旨题。

不管全文主旨题是文章的第一题还是最后一题，都在做完该篇文章的其他题目后，再做全文主旨题。这时，常常不需再看文章，就可直接做出来。一般全文主旨题还是比较简单的。

二 特殊题型

有些题型，不能归为前面 9 种题型中的任何一种，通常只在一篇文章中出现，没有通用性。做这种题型时，要注意：

1. 看懂题目非常重要，往往需要较多时间。
2. 题目通常具有顺序性，按照顺序性依次做题。

Disappearing Fish

- 1 Sea fishing grew rapidly in the decades after the Second World War. Mechanisation increased the fishermen's catch in traditional grounds and then carried them to distant waters for more. After the world catch had tripled to over 60 million tones in only 20 years, fishing developed more slowly in the 1970s and 1980s, like the rest of the oil-shocked world economy. In 1989, when the sea catch rose above 86 million tones, the growth stopped.
- 2 In 1990 and 1991, the two most recent years for which the Food and Agriculture Organisation (FAO) has figures, the world catch began to shrink. It has not been a dramatic fall — only a few percent overall. But experts at the FAO, in common with many fisheries scientists, now believe that the limit to sustainable catches of wild fish was exceeded decades earlier. In more and more waters, too few fish have been left in the sea to maintain levels needed for spawning. Thus fishermen are consuming the very resource that should yield their catch.

- 3 When catches of the most valuable fish in the waters of the northern hemisphere, such as turbot and halibut, started to fail, fleets began instead to chase other species that had been thrown back as “trash” only a generation before — whiting, spiny dogfish and others. They also fished distant waters and found massive catches of a few other low-value species. The FAO notes that it was these short-lived catches — of fish such as Alaska Pollack, Peruvian anchoveta and Japanese pilchard — that greatly increased the total world catch in the 1980s.
- 4 But the true, downward trend in fishing worldwide was masked because these catches were measured in tones, not dollars. Moreover, the world’s 3 million or so fishing boats cannot hope for further yields of that kind. There are no more waters and few species that have not been explored. The world’s fishermen say they operate at a loss: \$22 billion in 1989, not counting capital expenditure or profit from unreported illegal catches.
- 5 Almost all the 200 fisheries monitored by the FAO are fully exploited. One in three is depleted or heavily overexploited, almost all in the developed countries. Governments have encouraged this excess, by subsidizing fishermen, often as a form of regional aid and in response to failing catches. Although fishermen still catch relatively few of the 15,000 existing species of fish, most of the remainder is expensive to catch, taste bad, or both.
- 6 Overfishing is not the only threat to the world’s fisheries, although it is the most severe. Development and pollution are also reducing fish numbers. According to Paul Brouha, director of the American Fisheries Society, between 11 and 15 million salmon once spawned in the Columbia River system. Now there are only 3 million, of which 2.75 million are spawned artificially. So much of the river system has been dammed that only 250,000 salmon can find their way back to old spawning grounds. According to a recent study, three-quarters of the American catch comprises species that depend upon estuaries (often as a habitat for young fish, which can safely feed in the shallow waters).
- 7 But estuaries are themselves vulnerable. Almost a third of the world’s 5.5 billion people live within 60 kilometers of the sea, polluting inshore waters with effluent from industry, and farmland. Lagoons and wetlands are filled to make land; mangrove forests are cut down, fresh water is taken in large quantities upstream, affecting the salinity of estuaries and the growth of young fish.
- 8 For all the damage that they cause, overfishing and pollution rarely lead to extinction (though even this is possible for a few large, slow-growing and valuable species, such as the bluefin tuna). Nor, at least for many years yet, will fish be off the menu for those

who have enough money. Indeed, as the price of fish climbs and biotechnology develops, the most valuable fish will increasingly be farmed. Fish farming, or aquaculture, yielded more than 12 million tones in 1990, and is growing by more than 10% a year. Finfish make up almost 70% of the total, shellfish a quarter, and shrimp about 6%. But intensive fish farming tends to damage coastlines. And, though the technology is developing rapidly the FAO doubts whether farmed fish will account for more than 12% of world fish consumption by the end of the century.

- 9 A fish shortage has other economic and social consequences. Fish prices have been rising since the early 1980s. Fish is the most important source of animal protein in some countries, especially poor ones. Moreover, as overfishing spreads to poorer countries, the effects may be more severe than in the richer ones. This is partly because, overfishing threatens to engulf local fisheries more rapidly, and partly because more jobs are at stake: traditional fisheries employ 20 times as many people as the industrial fisheries that are replacing them, according to London's Panos Institute, and fishermen tend to live in places where few other jobs are available.

Questions 1-5

Based on the information in this reading passage, "Disappearing Fish", indicate the relationship between each of the two items listed below by identifying:

- PR if there is a positive relationship;
 NR if there is a negative relationship;
 L/N if there is little or no relationship;
 NI if there is no information.

Write the appropriate Letters (PR, NR, L/N, or NI) in boxes 1-5 on your answer sheet.

Example	Answer	catch of a particular species	
		sustainability of that species	NR
1. number of fish		level of spawning	_____
2. fishing subsidies		exploitation of fisheries	_____
3. extent of damming of river		level of natural spawning	_____
4. water pollution		species extinction	_____
5. value of a fish species		success in farming that species	_____

答案及详解

可以看作是配对题和 T/F/NG 的结合题型。先读懂题目要求：题干和选项之间是正比关系选 PR，题干和选项之间是反比关系选 NR，题干和选项之间没关系选 L/N，原文没有提及两者的关系答案选 NI。

1. PR

“鱼的数量和产卵水平。”关键词出现在第2段：In more and more waters, *too few fish* have been left in the sea to maintain levels needed for *spawning*. (在越来越多的水域里，剩下的鱼数量太少，以致不能保证产卵所需要水平。) 这证明鱼的数量越少，产卵水平就越低，两者间呈正比关系。

2. PR

“捕鱼津贴和对渔场的开发。”关键词在文章第5段：Almost all the 200 fisheries monitored by the FAO are fully exploited. One in three is depleted or heavily overexploited, almost all in the developed countries. Governments have encouraged this excess, by subsidizing fishermen, often as a form of regional aid and in response to failing catches. 可见，政府给渔民的津贴助长了滥捕行为。即补助越多，捞得越多，渔场开发得越彻底——正比关系。

3. NR

“河流筑坝的程度和自然产卵水平。”关键词在文章第6段：Development and pollution are also reducing fish numbers. According to Paul Brouha, director of the American Fisheries Society, between 11 and 15 million salmon once spawned in the Columbia River system. Now there are only 3 million, of which 2.75 million are spawned artificially. So much of the river system has been dammed that only 250,000 salmon can find their way back to old spawning grounds. 文中的 *once* 和 *now* 呈现出时间强对比：以前产卵的鱼数量很多，现在锐减。“整条河上筑了许多大坝，以致（300万条鱼中）只有25万条能回到以前的产卵地水域（自然产卵）。”即筑坝程度越高，自然产卵的水平越低。两者之间是反比关系。

4. L/N

“水污染和鱼类灭绝。”关键词在第8段首句：For all the damage that they cause, overfishing and pollution rarely lead to extinction (过度捕捞和污染很少导致物种灭绝)。可见两者没有关系。

5. NI

“鱼类的价值和成功养殖鱼类。”原文没有提到这两个方面，所以两者无关。

Day 1

Reading Passage 1

You should spend about 20 minutes on **Questions 1-13** which are based on Reading.

Passage 1 below.

Part One

- A. Air pollution is increasingly becoming the focus of government and citizen concern around the globe. From Mexico City and New York, to Singapore and Tokyo, new solutions to this old problem are being proposed, trialed and implemented with ever increasing speed. It is feared that unless pollution reduction measures are able to keep pace with the continued pressures of urban growth, air quality in many of the world's major cities will deteriorate beyond reason.
- B. Action is being taken along several fronts: through new legislation, improved enforcement and innovative technology. In Los Angeles, state regulations are forcing manufacturers to try to sell ever cleaner cars; their first of the cleanest, titled "Zero Emission Vehicles", have to be available soon, since they are intended to make up 2 percent of sales in 1997. Local authorities in London are campaigning to be allowed to enforce anti-pollution laws themselves; at present only the police have the power to do so, but they tend to be busy elsewhere. In Singapore, renting out road space to users is the way of the future.
- C. When Britain's Royal Automobile Club monitored the exhausts of 60,000 vehicles, it found that 12 percent of them produced more than half the total pollution. Older cars were the worst offenders; though a sizeable number of quite new cars were also identified as gross polluters, they were simply badly tuned. California has developed a scheme to get these gross polluters off the streets; they offer a flat \$700 for any old, run-down vehicle driven in by its owner. The aim is to remove the heaviest-polluting, most decrepit vehicles from the roads.
- D. As part of a European Union environmental programme, a London council is testing an infrared spectrometer from the University of Denver in Colorado. It gauges the pollution from a passing vehicle — more useful than the annual stationary test that is the British standard today — by bouncing a beam through the exhaust and measuring what gets blocked. The council's next step may be to link the system to a computerized video camera able to read number plates automatically.
- E. The effort to clean up cars may do little to cut pollution if nothing is done about the

tendency to drive them more. Los Angeles has some of the world's cleanest cars — far better than those of Europe — but the total number of miles those cars drive continues to grow. One solution is car-pooling, an arrangement in which a number of people who share the same destination share the use of one car. However, the average number of people in car on the freeway in Los Angeles, which is 1.3, has been falling steadily. Increasing it would be an effective way of reducing emissions as well as easing congestion. The trouble is, Los Angelinos seem to like being alone in their cars.

- F. Singapore has for a while had a scheme that forces drivers to buy a badge if they wish to visit a certain part of the city. Electronic innovations make possible increasing sophistication; rates can vary according to road conditions, time of day and so on. Singapore is advancing in this direction, with a city-wide network of transmitters to collect information and charge drivers as they pass certain points. Such road-pricing, however, can be controversial. When the local government in Cambridge, England, considered introducing Singaporean techniques, it faced vocal and ultimately successful opposition.

➡ Part Two

The scope of the problem facing the world's cities is immense. In 1992, the United Nations Environmental Programme and the World Health Organization (WHO) concluded that all of a sample of twenty megacities — places likely to have more than ten million inhabitants in the year 2000 — already exceeded the level the WHO deems healthy in at least one major pollution. Two-thirds of them exceeded the guidelines for two, seven for three or more.

Of the six pollutants monitored by the WHO — carbon dioxide, nitrogen dioxide, ozone, sulphur dioxide, lead and particulate matter — it is this last category that is attracting the most attention from health researchers. PM10, a sub-category of particulate matter measuring ten million of a metre across, has been implicated in thousands of deaths a year in Britain alone. Research being conducted in two counties of Southern California is reaching similarly disturbing conclusions concerning this little-understood pollutant.

A world-wide rise in allergies, particularly asthma, over the past four decades is now said to be linked with increased air pollution. The lungs and brains of children who grow up in polluted air offer further evidence of its destructive power. The old and ill, however, are the most vulnerable to the acute effects of heavily polluted stagnant air. It can actually hasten death, as it did in December 1991 when a cloud of exhaust fumes lingered over the city of London for over a week.

The United Nations has estimated that in the year 2000 there will be twenty-four megacities and a further eighty-five cities of more than three million people. The pressure on public officials, corporations and urban citizens to reverse established trends in air pollution is likely to grow in proportion with the growth of cities themselves. Progress is being made.

The question, though, remains the same: Will change happen quickly enough?

这 3 个选择题中，第一个比较难，后两个比较简单。整篇文章的 13 个题目都不难。

Reading Passage 2

You are advised to spend about 20 minutes on Questions 1-12 which refer to Reading Passage 2 below.

Of Ducks and Duck Eggs

For people who like to keep poultry, ducks offer certain advantages over hens. Ducks are immune to some common diseases found in hens and are less vulnerable to others. Some breeds of duck produce bigger eggs than hens. In addition, ducks lay eggs over a longer season than do hens.

Poultry keepers with gardens have less to worry about if they keep ducks rather than hens because the former are less apt to dig up plants and destroy roots. While both hens and ducks benefit the garden by eating pests, hens are known to damage herb and grass beds. Ducks, on the other hand, will search for insects and snails more carefully. Only very delicate plants are at risk from the broad, webbed feet of ducks.

Like all waterbirds, ducks need access to water, and duck keepers typically provide this by building a pond. Something this large is not absolutely necessary, however, ducks need only to be able to dip their heads in the water to keep their nostrils clean. If a pond is provided though it is important to keep ducklings away from it until they are old enough to withstand the cool temperature of the water — about eight weeks.

When keeping ducks, one has to consider just how many the land will support. Generally the rule is 100 ducks per half hectare. If more than this proportion is introduced, there is a risk of compacting the soil, which can lead to muddy conditions for long periods as the rain is not easily absorbed into the ground.

While ducks offer many advantages over hens. They must be given greater quantity of food, especially if regular eggs are desired. An adult duck will eat between 170 to 200 grams of food a day. If the ducks have access to grass and a pond, they will be able to find for themselves approximately 70% of their daily dietary requirements in warmer months but less than half that in colder times. Therefore, it is important that they be fed enough food, such as grain, every day.

Experienced duck keepers raise ducklings every three years or so because it is after this period of time that ducks' egg-laying powers begin to seriously weaken. If the aim is to hatch duckling, keepers should be aware that not all ducks make good mothers, and that certain breeds of duck appear to be worse than others. The poor mothers abandon their eggs a few days after laying them. A sure way of making sure the rejected eggs hatch is to place them next to chicken eggs under a hen.

The eggs of ducks as food for humans have a mixed reputation. This is because of a number of cases of salmonella food poisoning in Europe in the 1970s. Although it was never conclusively shown that duck eggs were to blame, the egg-eating public stopped buying and many duck egg producers went bankrupt. Indeed, there is a risk of salmonella poisoning when ducks lay their eggs in damp conditions, such as on ground that is constantly wet but

the same can be said for the eggs of hens. And commercial duck egg production in France and England, where the out-breaks of salmonella poisoning took place, followed the same standards as those used in the hen egg industry, which experienced no salmonella problems. (Storage of eggs, whether those of hen or duck, can also be a factor in contamination. Studies have found that bacterial growth reaches potentially dangerous levels at storage temperatures of 5°C or greater.)

The salmonella scare was over by the early 1980s but, at least in smaller markets like Australia and New Zealand, few producers wished to risk investment in ducks for fear of problems. No large-scale commercial duck egg production exists in these countries. It has thus been left to small producers, and, more commonly, home duck keepers.

poultry: farm birds (e.g. chickens, geese, ducks)

Questions 1-6

Classify the characteristics listed below as belonging to:

D Ducks

H Hens

or *NI* if there is no information in the reading passage

Write the appropriate letters in boxes 1-6 on your answer sheet.

Example

Answer

more vulnerable to illness:

H

1. more eggs per week
2. lengthier laying period
3. less likely to uproot plants
4. dangerous to grass
5. eat more grain
6. better mothers

Questions 7-10

Complete the partial summary below: Choose ONE or TWO words from the passage for each answer. Write your answers in boxes 7-10 on your answer sheet.

To prevent their (7) from getting dirty, ducks should have access to water. This may be provided by building a pond, but ducklings under (8) of age should be prevented from entering it because of the (9) of the water. If too many ducks are kept on a plot of land, the soil may eventually become (10) as a result of compaction. For this reason, it is advised

that one limits the number of ducks per half hectare of land to 100.

Questions 11-12

Choose the appropriate letters (A-D) and write them in boxes 11-12 on your answer sheet.

11. Salmonella food poisoning _____.
 - A. resulted from consumption of duck eggs
 - B. created difficulties for the duck egg business
 - C. occurred all over Europe
 - D. was found in both duck and hen eggs
12. Duck eggs _____.
 - A. have been produced in large quantities in New Zealand since the early 1980s

答案及详解

Reading Passage 2

Questions 1-6

题型：特殊题型

有些类似 T/F/NG

1. NI

先读题目，然后从文章开始处找答案。有的同学可能会定位到原文第 1 段的最后一句：

In addition, ducks lay eggs over a longer season than do hens.

从而确定答案为：D。实际上原文的意思是：鸭子的产蛋期比鸡长。而题目是：每周更多的蛋。意思是不一样的。

2. D

答案来自原文第 1 段的最后一句：

In addition, ducks lay eggs over a longer season than do hens.

3. D

先读题目，然后从原文第 2 题的答案处开始阅读，答案来自原文第 2 段的第 1 句：

Poultry keepers with gardens have less to worry about if they keep ducks rather than hens because the former are less apt to dig up plants and destroy roots.

4. H

先读题目，然后从原文第 3 题的答案处开始阅读，答案来自原文第 2 段中的第 2 句：

While both hens and ducks benefit the garden by eating pests, hens are known to damage herb and grass beds.

5. NI

此题是陷阱题，有的同学会误选 D。有的同学可能会定位到第 5 段的最后一句。

Therefore, it is important that they be fed enough food, such as grain, every day.

从而得出答案 D。原文说，鸭子要被喂足够的食物，比如说谷物。“比如说”不能说明任何问题。

6. H

答案来自原文第 6 段最后两句：

The poor mothers abandon their eggs a few days after laying them. A sure way of making sure the rejected eggs hatch is to place them next to chicken eggs under a hen.

Questions 7-10

题型：摘要填空

先看题目的要求，主要有以下几点：从原文中选词，答案为一个或两个词。

仔细阅读摘要的第一句话，与原文第 3 段话的第 1 句相对应：Like all waterbirds, ducks need access to water, and duck keepers typically provide this by building a pond. 各题的答案应从这里开始找。

7. nostrils

先读题目，然后从原文第 3 段开始阅读，寻找答案。对应到原文第 3 段中的句子：

Something this large is not absolutely necessary, however, ducks need only to be able to dip their heads in the water to keep their nostrils clean.

8. eight weeks

9. cool temperature

先读题目，然后从原文第 7 题的答案处开始阅读，寻找答案。对应到原文第 3 段的最后一句：

If a pond is provided though it is important to keep ducklings away from it until they are old enough to withstand the cool temperature of the water — about eight weeks.

因此，第 8 题答案为 eight weeks，第 9 题答案为 cool temperature。

10. muddy

先读题目，然后从原文第 9 题的答案处开始阅读，寻找答案。对应到原文第 4 段中的句子：

If more than this proportion is introduced, there is a risk of compacting the soil, which can lead to muddy conditions for long periods as the rain is not easily absorbed into the ground.

Questions 11-12

题型：选择题（四选一）

这两个四选一与目前考试的形式很接近，选项的干扰性很大。

11. B

先读题目，注意题目中的特殊词 Salmonella，依据它，很容易找到原文倒数第 2 段。仔细阅读相关句子，注意该段的第 3 句：

Although it was never conclusively shown that duck eggs were to blame, the egg-eating

public stopped buying and many duck egg producers went bankrupt.

12. C

先读题目，然后从原文第 9 题的答案处开始阅读，寻找答案。

注意：选项中有不确定性的词：**may**，这和我们以前讲的规律相吻合。另外，选项 **A** 和 **C** 都包含数字，但它们都不是正确选项，这也和我们以前讲的规律相吻合。

Day 2

Reading Passage 1

You are advised to spend about 20 minutes on **Questions 13-27** which refer to Reading Passage 1 below.

Wrap Up Your Visit With The Perfect Gift

➡ Section 1 A

"It is better to give than to receive"; "Never look a gift horse in the mouth"; "Beware of Greeks (ancient, of course) bearing gifts". Gifts are a fundamental element of culture and our lives as social creatures. They are also an important part of our business relationships.

There are occasions when giving a gift surpasses spoken communication, since the message it offers can cut through barriers of language and cultural diversity. Present a simple gift to your host in a foreign country and the chances are he or she will understand you perfectly, though you may not understand a single word of each other's languages. It can convey a wealth of meaning about your appreciation of their hospitality and the importance you place upon the relationship. Combine the act of giving with some knowledge of and sensitivity to the culture of the recipient and you have an invaluable chance to earn respect and lay the foundations of a durable and mutually beneficial business relationship.

For all countries, take account of climate, especially in regard to clothing. Some gifts can be ruined by extremely hot or humid climates, possibly causing their receiver considerable anguish. Consider the kinds of products that are abundant in the country concerned and try for something that is uncommon there. Think about the level of language skills: a book with hundreds of pages of English text may be at best useless, at worst embarrassing, to a person with limited English. Inform yourself as much as possible about local customs, rules and etiquette, especially to do with wrapping, presenting, superstitions, taboos and, importantly, customs and quarantine regulations. The following is a brief account of the etiquette of gift-giving in some countries of Asia and the Middle East.

➡ Section 1 B

Hong Kong Chinese greatly appreciate simple greeting cards, though obviously they will not refuse small tokens of friendship in the form of gifts.

Books with plenty of illustrations are most appreciated in Indonesia. Inappropriate items: alcohol, products made from pigs, warm clothing. Ties and cuff links are not commonly worn.

In Iran, short-sleeved shirts and any visual representation of naked or partially dressed people, male or female are highly inappropriate. Don't bother with ties, videos or records. As in all Islamic countries, there is a strict taboo on any pork products.

Respecting the Arab tradition, gifts should endeavor to praise the recipient in Iraq and should never be of an order that cannot reasonably be reciprocated.

Avoid certain color combinations: red, white and black (colors of the Nazi flag); and red, green and black (the Palestinian flag) in Israel.

Gifts are normally exchanged at the beginning of meetings with Japanese and should be given and received with both hands. It is seen as impolite to give an unwrapped gift. The emphasis should be on high quality, though not necessarily expensive items.

When in Jordan, it is preferable, but not vital, to avoid green in packaging. Do not give books, videos, etc. that mention Israel. Normal Arab customs apply, so no alcohol, pork, women's clothing etc. Arabs generally do not greatly appreciate handcrafts in wood, fabric or pottery. Gifts should ideally appear valuable.

Again, the exchange should be made with both hands in Korea. Also, similar to Japan, is the emphasis on presentation. Do not use red ink to write the names of the recipients. It is worth remembering that it is customary for a gift given to a company to be shared out around the office concerned, so items that lend themselves to this practice — like a bottle of good whisky — are very well received.

Laos has virtually no cultural taboo items. It would be difficult to offend with virtually any gift.

Business contacts in the People's Republic of China are keen recipients of good Scotch whisky and American cigarettes, to the point where it is almost obligatory to take some along when you go there. Or, if not obligatory, it certainly helps to warm relations.

Do not open gifts in the presence of the giver in the Philippines. Not recommended are items alluding to religion. Many people are Catholic and many others Moslems. This also means literature and art with any possible suggestions of lewdness or racism are to be strictly avoided.

For Thailand, gifts should not be wrapped or packaged in black. Modest gifts, like ties, scarves and key rings, are much appreciated. Traditionally, sharp objects like knives or even letter openers are not given as gifts.

No special gift-giving customs in Vietnam, but the Vietnamese are enthusiastic gift givers and like very much to receive them as well. Liquor and wine can be problematic, for

reasons pertaining to Vietnamese tastes rather than morality or religion.

Reading Passage 2

You are advised to spend about 20 minutes on Questions 28-41 which refer to Reading Passage 2 below.

A Different Taste of Things to Come

The French are turning their noses up at wine and rejecting their croissant in favour of breakfast cereal, the English are turning from tea to mineral water and the Spanish are turning to pizza at an alarming rate. In short, we are beginning to see the evolution of the Euro consumer. That seems to be the message from research conducted by Europanel, an association of research companies across 23 countries which monitor buying patterns using consumer panels.

Social and demographic factors and the marketing strategies of multinational food and drink companies are combining to make the lifestyles of different European nations more alike. The main demographic factors leading to this increasing uniformity across the continent are falling birth rates and easier divorce, according to one member of Europanel. He said: "The result is smaller households, which rely more on things such as microwaves and convenience foods, whatever the nationality."

Even the French, who are proud of their cuisine, are turning to the microwave. Latest Europanel figures show that 38% of French kitchens house a microwave, just under the figure of 40% in western Germany. In Britain, the figure is 57%.

The French are also becoming "less French" as they continue to shy away from wine. Wine consumption in France fell by an average of 6% a year between 1986 and 1992. By contrast, the British are drinking more.

A key demographic factor is average household size, measured by the number of adult residents. Already the spread between nations is quite narrow. Western Germany has the lowest figure in western Europe at 2.2 adults, and Spain the highest at 3.2, followed by Italy at 2.8. The gap will narrow still further because, surprisingly enough, the birth rates in Catholic countries such as Spain and Italy are falling.

Another factor is the rise of the one-person household, frequently misinterpreted to mean harboring an unmarried or divorced man or woman living alone. Statistically, one-person households include single-parent households, the numbers of which are shooting up. The phenomenon is growing. Forty percent of Swedish homes are now one-person households, compared with 29% ten years earlier. In western Germany the figure is 35% (30% ten years ago), in the Netherlands 29% (16%), and in Ireland 21% (17%).

In Spain, the one-adult household was so rare a decade ago it did not register statistically; now the figure is 10%. Hence the growth in demand for convenience foods. In Spain, the annual growth rate for pizza sales between 1986 and 1992 was 34% while growth last year slowed a little to 16%. Other factors affect consumer habits. For instance, Piper says that the wider prevalence of central heating in chilly Britain is the chief cause of the decline in the popularity not just of tea, but of all hot drinks. Another major factor is aggressive multinational marketing. After all, the French cannot indulge a craving for sliced bread if all that is on offer is a baguette. The products have to be on the supermarket shelves. In fact, there have to be supermarket shelves. There must be enough space to put new choices on offer.

Once a major manufacturer has won a dominant share in a mature market, it will look abroad for pastures new. Breakfast cereals are one such product. With growth opportunities in the mature British market slowing, manufacturers crossed the Channel.

As a result, cereal sales in France grew by 18% a year between 1986 and 1992, and continued to grow by 10% last year. Similarly, tomato ketchup sales have boomed in such unlikely places as Spain and France, with growth rates of 28% and 18% respectively.

How far the process will go is anybody's guess. Increased choice is all very well, but the prospect of every kitchen in Europe serving up milk-sodden cereal in the morning and microwaved pizza in the evening is surely a depressing one.

Day 3

Reading Passage 1

You should spend about 20 minutes on **Questions 1-13** which are based on Reading Passage 1 below.

Alternative Medicine in Australia

The first students to study alternative medicine at university level in Australia began their four-years, full-time course at the University of Technology, Sydney, in early 1994. Their course covered, among other therapies, acupuncture. The theory they learnt is based on the traditional Chinese explanation of this ancient healing art that it can regulate the flow of “Qi” or energy through pathways in the body. This course reflects how far some alternative therapies have come in their struggle for acceptance by the medical establishment.

Australia has been unusual in the Western world in having a very conservative attitude to natural or alternative therapies, according to Dr Paul Laver, a lecturer in Public Health at the University of Sydney. “We’ve had a tradition of doctors being fairly powerful and I guess they are pretty loath to allow any pretenders to their position to come into it.” In many other industrialized countries, orthodox and alternative medicine have worked “hand in glove” for years. In Europe, only orthodox doctors can prescribe herbal medicine. In Germany, plant remedies account for 10% of the national turnover of pharmaceuticals. Americans made more visits to alternative therapists than to orthodox doctors in 1990, and each year they spend about US \$ 12 billion on therapies that have not been scientifically tested.

Disenchantment with orthodox medicine has seen the popularity of alternative therapies in Australia climbing steadily during the past 20 years. In a 1983 national health survey, 1.9% of people said they had contacted chiropractor, naturopath, osteopath, acupuncturist or herbalist in the two weeks prior to the survey. By 1990, this figure had risen to 2.6% of the population. The 550,000 consultations with alternative therapists reported in the 1990 survey represented about an eighth of the total number of consultations with medically qualified personnel covered by the survey, according to Dr Laver and colleagues writing in the Australian Journal of Public Health in 1993. “A better educated and less accepting public has become disillusioned with the experts in general, and increasingly sceptical about science and empirically based knowledge,” they said, “The high standing of professionals, including doctors, has been eroded as a consequence.”

Rather than resisting or criticising this trend, increasing numbers of Australian doctors, particularly younger ones, are forming group practices with alternative therapists or taking courses themselves, particularly in acupuncture and herbalism. Part of the incentive was financial. Dr Laver said, “The bottom line is that most general practitioners are business people. If they see potential

clientele going elsewhere, they might want to be able to offer a similar service.”

In 1993, Dr Laver and his colleagues published a survey of 289 Sydney people who attended eight alternative therapists' practice in Sydney. These practices offered a wide range of alternative therapies from 25 therapists. Those surveyed had experienced chronic illnesses, for which orthodox medicine had been able to provide little relief. They commented that they liked the holistic approach of their alternative therapists and the friendly, concerned and detailed attention they had received. The cold, impersonal manner of orthodox doctors featured in the survey. An increasing exodus from their clinics, coupled with this and a number of other relevant surveys carried out in Australia, all pointing to orthodox doctors' inadequacies, have led mainstream doctors themselves to begin to admit they could learn from the personal style of alternative therapists. Dr Patrick Store, President of the Royal College of General Practitioners, concurs that orthodox doctors could learn a lot about bedside manner and advising patients on preventative health from alternative therapists.

According to the Australian Journal of Public Health, 18% of patients visiting alternative therapists do so because they suffer from musculo-skeletal complaints; 12% suffer from digestive problems, which is only 1% more than those suffering from emotional problems. Those suffering from respiratory complaints represent 7% of their patients, and candida sufferers represent an equal percentage. Headache sufferers and those complaining of general ill health represent 6% and 5% of patients respectively, and a further 4% see therapists for general health maintenance.

The survey suggested that complementary medicine is probably a better term than alternative medicine. Alternative medicine appears to be an adjunct, sought in times of disenchantment when conventional medicine seems not to offer the answer.

答案及详解

Reading Passage 1

Questions 1-2

题型：选择题（四选一）

1. C

先明白题目的意思。然后从文章开始处阅读，对应文章第 1 段的前两句话：

Australia has been unusual in the Western world in having a very conservative attitude to natural or alternative therapies, according to Dr Paul Laver, a lecturer in Public Health at the University of Sydney. "We've had a tradition of doctors being fairly powerful and I guess they are pretty loath to allow any pretenders to their position to come into it."

其中，原文第一段首句中 **unusual** 对应题干中的 **differed**，第 2 句中的 **loath** 对应选项 C 中的 **reluctant**。

2. B

先读题目，依据题干中的特殊词 1990，很容易定位到原文第 1 段的最后一句：

Americans made more visits to alternative therapists than to orthodox doctors in 1990, and each year they spend about US \$ 12 billion on therapies that have not been scientifically tested.

Questions 3-10

题型：T/F/NG

3. YES

先读题目，依据题目中的特殊词 20，很容易定位到原文第 2 段的第 1 句：

Disenchantment with orthodox medicine has seen the popularity of alternative therapies in Australia climb steadily during the past 20 years.

原文中的 **climb steadily** 对应于题目中的 **increasing numbers**。

4. NO

先读题目，依据题目中的特殊词 1983、1990 和 8%，很容易定位到原文第 2 段的第 2 句和第 3 句：

In a 1983 national health survey, 1.9% of people said they had contacted chiropractor, naturopath, osteopath, acupuncturist or herbalist in the two weeks prior to the survey. By 1990, this figure had risen to 2.6% of the population.

数字从 1.9% 增长到 2.6%，不是增长了 8%。有的同学可能注意到了原文中的下一句：

The 550,000 consultations with alternative therapists reported in the 1990 survey represented about an eighth of the total number of consultations with medically qualified personnel covered by the survey, according to Dr Laver and colleagues writing in the Australian Journal of Public Health in 1993.

其中 an eighth 是 1/8 的意思，也不是 8%。

5. YES

先读题目，依据题目中的特殊词 1990 和 550,000，很容易定位到原文第 2 段的句子：

The 550,000 consultations with alternative therapists reported in the 1990 survey represented about an eighth of the total number of consultations with medically qualified personnel covered by the survey, according to Dr Laver and colleagues writing in the Australian Journal of Public Health in 1993.

6. YES

先读题目，在原文第 5 题的答案处向后阅读，定位到原文第 2 段的最后一句：

“A better educated and less accepting public has become disillusioned with the experts in general, and increasingly sceptical about science and empirically based knowledge,” they said. “The high standing of professionals, including doctors, has been eroded as a consequence.”

中文译文：“一群受教育程度更高、接受程度更低的人总的来说对专家们已经不再抱幻想，他们对科学和靠经验得来的知识越来越怀疑，”他们说，“结果是，专业人员的崇高地位，其中包括医生，已经受到了损害。”

7. YES

先读题目，在原文第 6 题的答案处向后阅读，定位到原文第 3 段的第 1 句：

Rather than resisting or criticising this trend, increasing numbers of Australian doctors, particularly younger ones, are forming group practices with alternative therapists or taking courses themselves, particularly in acupuncture and herbalism.

原文中的 taking courses 对应于题目中的 retraining。

8. NOT GIVEN

先读题目，在原文第 7 题的答案处向后阅读，没有找到相关内容。有的同学可能定位到原文第 3 段的最后一句：

Part of the incentive was financial, Dr Laver said. “The bottom line is that most general practitioners are business people. If they see potential clientele going elsewhere, they might want to be able to offer a similar service.”

中文译文：部分动机是经济方面的，Laver 博士说。“基本情况是大部分普通医师都是商人，如果看到潜在顾客去了别处，他们可能会希望能继续提供类似的服务。”

原文只是说商机比较多，没有提到工资。

9. NO

先读题目，依据题目中的特殊词 1993 和 289，很容易定位到原文第四段的第 1 句和第 2 句：

In 1993, Dr Laver and his colleagues published a survey of 289 Sydney people who attended eight alternative therapists' practice in Sydney. These practices offered a wide range of alternative therapies from 25 therapists.

此题较难。如果只看第 1 句，因为句子中没有 **acupuncture**，所以容易误答为：NOT GIVEN。但第 2 句中的 **a wide range of alternative therapies** 和题目中的 **acupuncture** 相矛盾。

10. YES

先读题目，依据题目中的特殊词 **1993**，在原文第 9 题的答案处向后阅读，定位到原文第 4 段的第 3 句：

Those surveyed had experienced chronic illnesses, for which orthodox medicine had been able to provide little relief.

原文中的 **chronic** 对应于题目中的 **long-term**。

Questions 11-13

题型：填图填空

题目是和数字有关的，比较简单，依靠数字快速定位到原文的倒数第 2 段。

11. emotional

数字是在 10% 到 15% 之间，定位到原文：

12% suffer from digestive problems, which is only 1% more than those suffering from emotional problems.

注意：答案不是 **digestive**，因为题目中已经给出了这个信息，答案是：**emotional**。

12. headache

13. general ill health

12 和 13 题数字分别是 6% 和 5%，定位到原文：

Headache sufferers and those complaining of general ill health represent 6% and 5% of patients respectively,

这篇文章比较简单。很多题目中都有特殊词，容易定位。

Reading Passage 2

You should spend about 20 minutes on Questions 27-40, which are based on Reading Passage 2 below.

Doesn't That Sound Terribly Yellow to You?

- 1 "I can't say. I'm colour blind. ", was my flat-mate's response. And that was that for another twenty odd years, when by chance I came across an article in a newspaper on research into synaesthesia at a London hospital. At last, I understood my interpretation of the world through colour.
- 2 Synaesthesia is the subjective sensation of a sense other than the one being stimulated. For example, the sight of a word may evoke sensations of colour or the sound of music may also have a similar effect, as my taste. Or, to put it simply, synaesthetes, i.e. people with synaesthesia, have their senses held together, so that they experience several senses simultaneously.

- 3 To those not already aware of it, synaesthesia seems a new phenomenon. Yet, it is far from new. In 1690, John Locke, the philosopher, wrote of a blind man with synaesthetic capabilities. The first reference in the medical field was in 1710, by Thomas Woodhouse, an English ophthalmologist. In his *Theory of Colour*, the German writer, Goethe, talked about colour and the senses. The poet, Arthur Rimbaud, wrote about synaesthesia in his 1871 poem *Vouyelles*, as did another French poet Baudelaire, in *Correspondence*. So, synaesthesia has a respectable history.
- 4 Synaesthesia is understandably met with a certain degree of scepticism, since it is something beyond the ken of the vast majority of people. *Son et lumiere* shows in the 19th century were an attempt at combining the senses in a public display, but such displays were not capable of conveying the sensations experienced by involuntary synaesthesia, as the ability which a synaesthete's experience is called. There has been a number of well-documented synaesthetes. Alexander Scriabin, the Russian composer (1871 — 1915) tried to express his own synaesthetic abilities in his symphony *Prometheus, the Poem of Fire* (1911). And another Russian, Rimsky-Korsakov, noted the colour associations musical keys possessed. For example, Scriabin saw C major as red, while to Rimsky-Korsakov it was white, Arthur Bliss, an English composer, based his 1922 *Colour Symphony* on the concept of synaesthesia. He did not claim to be a synaesthete; his colour choices were arbitrary and the project was an intellectual exercise.
- 5 In the field of the visual arts, probably the best-known artist with synaesthetic capabilities is the Russian artist, Wassily Kandinsky (1866-1944), credited with being the founder of abstract painting. It is said he experienced "sensory fusion" at a performance of Wagner's *Lohengrin*, with the music producing colours before his eyes. He did not see colours solely in terms of objects, but associated them with sounds. He even composed an opera, *Der Gelbe Klang* (The Yellow Sound), which was a mixture of colour, light, dance and sound.
- 6 For many people with synaesthesia, knowing that what they have been experiencing has both a name and a history and that they are among a number of notable sufferers is a revelation. Initially, they often feel that there is something wrong psychologically or mentally, or that everyone feels that way. Then they realize with a thud that other people do not. Suppression is an option, but unwittingly some people have managed to make use of the ability to their advantage. While the condition of synaesthesia may hamper many people because of its disorienting effects, it can also open up a range of new skills. It is not unusual for people who have synaesthesia to be creative and imaginative. As many studies have shown, memory is based to some extent on association.

Synaesthetes find they are able to remember certain things with great ease. The person who associates the shape is able to remember a longer sequence of words; and the same goes for other areas where memory needs to be used.

- 7 But this condition like all gifts, has its drawbacks. Some people see words as colours; others even individual letters and syllables, so that a word becomes a kaleidoscope of colour. Beautiful though such a reading experience may be, synaesthesia can cause problems with both reading and writing. Reading can take longer, because one has to wade through all the colours, as well as the words! And, because the colour sequences as well as the words have to fit together, writing is then equally difficult.

答案及详解

Reading Passage 2

Questions 27-32

题型: T/F/NG

单选题和多选题。

27. NO

原文第1段: "I can't say. I'm colour blind." was my flat-mate's response. And that was that for another twenty odd years, when by chance I came across an article in a newspaper on research into synaesthesia at a London hospital. At last, I understood my interpretation of the world through colour.

作者说“我终于明白了我通过颜色对这个世界的认识”，证明他自己不是色盲。

28. YES

原文第2段后面出现了第28题的关键词：Synaesthesia is the subjective sensation of a sense other than the one being stimulated. For example, the sight of a word may evoke sensations of colour or the sound of music may also have a similar effect, as my taste. Or, to put it simply, synaesthetes, i.e. people with synaesthesia, have their senses held together, so that they experience several senses simultaneously.

原文大意为：synaesthetes（共感觉者）就是那些将各种感觉交织在一起，能够同时体会多种感觉的人。

29. NOT GIVEN

原文根本没有出现它的关键词。

30. NO

第3段开头出现了第30题的关键词：To those not already aware of it, synaesthesia seems a new phenomenon. Yet, it is far from new. In 1690, John Locke, the philosopher, wrote of a blind man with synaesthetic capabilities. The first reference in the medical field was in 1710, by Thomas Woodhouse, an English ophthalmologist. In his *Theory of Colour*, the German writer, Goethe, talked about colour and the senses. The poet, Arthur Rimbaud, wrote about synaesthesia in his 1871 poem *Vouyelles*, as did another French poet Baudelaire, in *Correspondence*. So, synaesthesia has a respectable history.

原文在转折关系后给出了答案：Yet, it is far from new. 即“共感觉”远不是新鲜事物。所以原文和第30题的题干意思相反，答案选NO。

31. YES

原文第3段有第31题的关键词重现：To those not already aware of it, synaesthesia seems a new phenomenon. Yet, it is far from new. In 1690, John Locke, the philosopher, wrote of a blind man with synaesthetic capabilities. The first reference in the medical field was in 1710, by Thomas Woodhouse, an English ophthalmologist. In his *Theory of Colour*, the German writer, Goethe, talked about colour and the senses. The poet, Arthur Rimbaud, wrote about synaesthesia in his 1871 poem *Vouyelles*, as did another French poet Baudelaire, in *Correspondence*. So, synaesthesia has a respectable history.

原文讲，1690年John Locke曾写过一个具有共感觉能力的盲人。第31题干说对于共感觉的描述最早可以追溯到17世纪。1690年属于17世纪，答案选YES。

32. NO

第4段：Synaesthesia is understandably met with a certain degree of scepticism, since it is something beyond the ken of the vast majority of people. *Son et lumiere* shows in the 19th century were an attempt at combining the senses in a public display, but such displays

were not capable of conveying the sensations experienced by involuntary synaesthesia, as the ability which a Synaesthete's experience is called. There has been a number of well-documented synaesthetes. Alexander Scriabin, the Russian composer (1871—1915), tried to express his own synaesthetic abilities in his symphony *Prometheus, the Poem of Fire* (1992). And another Russian, Rimsky-Korsakov, noted the colour associations musical keys possessed. For example, Scriabin saw C major as red, while to Rimsky-Korsakov it was white, Arthur Bliss, an English composer, based his 1922 *Colour Symphony* on the concept of synaesthesia. He did not claim to be a synaesthete; his colour choices were arbitrary and the project was an intellectual exercise.

原文说，人们对共感觉有某种程度的怀疑也是可以理解的，那就是说这种怀疑并不奇怪。所以第 32 题答案选 NO。

Questions 33-36

题型：选择题

33. D: 没有重现共感觉者的感受。

第 4 段: *Son et lumiere* shows in the 19th century were an attempt at combining the senses in a public display, but such displays were not capable of conveying the sensations experienced by involuntary synaesthesia, as the ability which a Synaesthete's experience is called.

原文说 19 世纪的 *Son et lumiere* 表演试图在公众面前展示合并感觉，但是都没能展现共感觉者的感受。

34. C: 把音乐同颜色相联系。

第 4 段: Synaesthesia is understandably met with a certain degree of scepticism, since it is something beyond the ken of the vast majority of people. *Son et lumiere* shows in the 19th century were an attempt at combining the senses in a public display, but such displays were not capable of conveying the sensations experienced by involuntary synaesthesia, as the ability which a Synaesthete's experience is called. There has been a number of well-documented synaesthetes. Alexander Scriabin, the Russian composer (1871 – 1915), tried to express his own synaesthetic abilities in his symphony *Prometheus, the Poem of Fire* (1992). And another Russian, Rimsky-Korsakov, noted the colour associations musical keys possessed. For example, Scriabin saw C major as red, while to Rimsky-Korsakov it was white, Arthur Bliss, an English composer, based his 1922 *Colour Symphony* on the concept of synaesthesia. He did not claim to be a synaesthete; his colour choices were arbitrary and the project was an intellectual exercise.

原文说 Alexander Scriabin 和 Rimsky-Korsakov 在音乐作品中表达他的共感觉能力，是把颜色同琴键相联系。

35. C: 也创作音乐。(第 5 段最后一句指出他创作的歌剧是色彩、灯光和音乐的组合。)

第 5 段: In the field of the visual arts, probably the best-known artist with synaesthetic

capabilities is the Russian artist, Wassily Kandinsky (1866 - 1944), credited with being the founder of abstract painting. It is said he experienced “sensory fusion” at a performance of Wagner’s *Lohengrin*, with the music producing colours before his eyes. He did not see colours solely in terms of objects, but associated them with sounds. He even composed an opera, *Der Gelbe Klang* (The Yellow Sound), which was a mixture of colour, light, dance and sound.

原文说 Wassily Kandinsky 是抽象画的创始人，在一次瓦格纳的音乐会上经历了感觉的融合，音乐带来了不同的颜色。

36. A: 其他人也有类似的经历或是他们自己有问题。

第 6 段: Initially, they often feel that there is something wrong psychologically or mentally, or that everyone feels that way.

原文的 initially 就是第 36 题题干中 at first 的关系重现，后面就是答案。

Questions 37-40

题型: 多选题

答案为: A C E F

原文第 6 段提到共感觉者: For many people with synaesthesia, knowing that what they have been experiencing has both a name and a history and that they are among a number of notable sufferers is a revelation. Initially, they often feel that there is something wrong psychologically or mentally, or that everyone feels that way. Then they realize with a thud that other people do not. Suppression is an option, but unwittingly some people have managed to make use of the ability to their advantage. While the condition of synaesthesia may hamper many people because of its disorienting effects, it can also open up a range of new skills. It is not unusual for people who have synaesthesia to be creative and imaginative. As many studies have shown, memory is based to some extent on association. Synaesthetes find they are able to remember certain things with great ease. The person who associates the shape is able to remember a longer sequence of words; and the same goes for other areas where memory needs to be used.

A. 一些共感觉者被他们的能力弄得不知所措。(正确)

第 6 段中有: While the condition of synaesthesia may hamper many people because of its disorienting effects.

B. 一些共感觉者经常有巨大的创造力。(迷惑项, great 一词原文没提。)

C. 记忆力被共感觉增强。(正确)

第 6 段后部有: Synaesthetes find they are able to remember certain things with great ease.

D. 共感觉者既有优点也有缺点。(迷惑项)

原文最后一段第 1 句: But this condition like all gifts, has its drawbacks. 说的是共感

觉这种能力，与共感觉者无关。

E. 有的共感觉者用自己的能力帮助自己。（正确）

原文第6段有：but unwittingly some people have managed to make use of the ability to their advantage。

F. 他们的能力可能成为对自己的障碍。（正确）

While the condition of synaesthesia may hamper many people because of its disorienting effects。

G. 一些共感觉者用颜色写作。（无关）

Day 4

Reading Passage 1

You should spend about 20 minutes on **Questions 14-26** which are based on Reading Passage 1 below.

Lost for Words

Many minority languages are on the danger list.

In the Native American Navajo nation, which sprawls across four states in the American south-west, the native language is dying. Most of its speakers are middle-aged or elderly. Although many students take classes in Navajo, the schools are run in English. Street signs, supermarket goods and even their own newspaper are all in English. Not surprisingly, linguists doubt that any native speakers of Navajo will remain in a hundred years' time.

Navajo is far from alone. Half the world's 6,800 languages are likely to vanish within two generations—that's one language lost every ten days. Never before has the planet's linguistic diversity shrunk at such a pace. "At the moment, we are heading for about three or four languages dominating the world," says Mark Pagel, an evolutionary biologist at the University of Reading. "It's a mass extinction, and whether we will ever rebound from the loss is difficult to know."

Isolation breeds linguistic diversity: as a result, the world is peppered with languages spoken by only a few people. Only 250 languages have more than a million speakers, and at least 3,000 have fewer than 2,500. It is not necessarily these small languages that are about to disappear. Navajo is considered endangered despite having 150,000 speakers. What makes a language endangered is not just the number of speakers, but how old they are. If it is spoken by children it is relatively safe. The critically endangered languages are those that are only spoken by the elderly, according to Michael Krauss, director of the Alaskan Native language Center, in Fairbanks.

Why do people reject the language of their parents? It begins with a crisis of confidence, when a small community finds itself alongside a larger, wealthier society, says Nicholas

Ostler, of Britain's Foundation for Endangered Languages, in Bath. "People lose faith in their culture," he says. "When the next generation reaches their teens, they might not want to be induced into the old traditions."

The change is not always voluntary. Quite often, governments try to kill off a minority language by banning its use in public or discouraging its use in schools, all to promote national unity. The former US policy of running Indian reservation schools in English, for example, effectively put languages such as Navajo on the danger list. But Salikoko Mufwene, who chairs the Linguistics department at the University of Chicago, argues that the deadliest weapon is not government policy but economic globalisation. "Native Americans have not lost pride in their language, but they have had to adapt to socio-economic pressures," he says. "They cannot refuse to speak English if most commercial activity is in English." But are languages worth saving? At the very least, there is a loss of data for the study of languages and their evolution, which relies on comparisons between languages, both living and dead. When an unwritten and unrecorded language disappears, it is lost to science.

Language is also intimately bound up with culture, so it may be difficult to preserve one without the other. "If a person shifts from Navajo to English, they lose something," Mufwene says. "Moreover, the loss of diversity may also deprive us of different ways of looking at the world," says Pagel. There is mounting evidence that learning a language produces physiological changes in the brain. "Your brain and mine are different from the brain of someone who speaks French, for instance," Pagel says, and this could affect our thoughts and perceptions. "The patterns and connections we make among various concepts may be structured by the linguistic habits of our community."

So despite linguists' best efforts, many languages will disappear over the next century. But a growing interest in cultural identity may prevent the direst predictions from coming true. "The key to fostering diversity is for people to learn their ancestral tongue, as well as the dominant language," says Doug Whalen, founder and president of the Endangered Language Fund in New Haven, Connecticut. "Most of these languages will not survive without a large degree of bilingualism," he says. In New Zealand, classes for children have slowed the erosion of Maori and rekindled interest in the language. A similar approach in Hawaii has produced about 8,000 new speakers of Polynesian languages in the past few years. In California, "apprentice" programmes have provided life support to several indigenous languages. Volunteer "apprentices" pair up with one of the last living speakers of a Native American tongue to learn a traditional skill such as basket weaving, with instruction exclusively in the endangered language. After about 300 hours of training they are generally sufficiently fluent to transmit the language to the next generation. But Mufwene says that preventing a language dying out is not the same as giving it new life by using it every day.

“Preserving a language is more like preserving fruits in a jar,” he says.

However, preservation can bring a language back from the dead. There are examples of languages that have survived in written form and then been revived by later generations. But a written form is essential for this, so the mere possibility of revival has led many speakers of endangered language to develop system of writing where none existed before.

**答案及详解****Reading Passage 1****Questions 14-17**

题型：摘要填空

14. isolation

先读题目，从原文有 6 800 的地方开始阅读，定位到第 3 段的第 1 句：

Isolation breeds linguistic diversity.

原文中的 breed 对应于题目中的 as a result of，原文中的 linguistic diversity 对应于题目中的 This great variety of languages。

15. economic globalisation

先读题目，在原文第 14 题的答案处向后阅读，定位到原文第 5 段中的句子：

But Salikoko Mufwene, who chair the Linguistics department at the University of Chicago, argues that the deadliest weapon is not government policy but economic globalisation.

原文中的 government policy 对应于题目中的 government initiatives。

16. cultural identity

先读题目，在原文第 15 题的答案处向后阅读，定位到原文第 7 段中的句子：

原文中的 prevent the direst predictions from coming true 对应于题目中的 ensure that some endangered languages do not die out，原文中的 growing interest 对应于题目中的 increasing appreciation。

17. traditional skill

先读题目，注意题目中的特殊词“apprentices”，在原文第 16 题的答案处向后阅读，寻找

“apprentices”，容易定位到原文第7段中的句子：

Volunteer “apprentices” pair up with one of the last living speakers of a Native American tongue to learn a traditional skill such as basket weaving, with instruction exclusively in the endangered language.

这几个题目都比较难，它是全文摘要题型，题目的数目比较少，而且题目与原文的对应不明显。

Questions 18-22

题型：搭配题（作者及其观点的搭配）

先在原文中将作者的名字划出来，注意不要漏掉。然后，依次做题。

18. E

先读题目，搞懂它的意思，然后与原文画线处（即作者的名字）的前后一一对照，对应到原文第7段中的句子：

...says Doug Whalen, founder and president of the Endangered Language Fund in New Haven, Connecticut. “Most of these languages will not survive without a large degree of bilingualism,” he says.

19. B

先读题目，搞懂它的意思，然后与原文画线处（即作者的名字）的前后一一对照，对应到原文第7段的最后：

But Mufwene says that preventing a language dying out is not the same as giving it new life by using it every day. “Preserving a language is more like preserving fruits in a jar,” he says.

此题较难，原文与题目对应不明显。

20. D

先读题目，搞懂它的意思，然后与原文画线处（即作者的名字）的前后一一对照，对应到原文第6段中的句子：

“Your brain and mine are different from the brain of someone who speaks French, for instance,” Pagel says, and this could affect our thoughts and perceptions. “The patterns and connections we make among various concepts may be structured by the linguistic habits of our community.”

21. C

先读题目，搞懂它的意思，然后与原文画线处（即作者的名字）的前后一一对照，对应到原文第4段中的句子：

22. B

先读题目，搞懂它的意思，然后与原文画线处（即作者的名字）的前后一一对照，对应到

原文第 6 段中的句子:

"If a person shifts from Navajo to English, they lose something," Mufwene says.

这几个题目,除了 19 题以外,并不难。

Questions 23-26

题型: T/F/NG

23. NO

先读题目,由于在做 14 ~ 17 题时,基本把原文读了一遍,所以,在做此题时,应该有印象,能定位到原文第 3 段中的句子:

Navajo is considered endangered despite having 150,000 speakers.

所以说,做 14 ~ 17 题,花的时间比较长,是正常的,并不是浪费时间。

24. YES

先读题目,在原文第 23 题的答案处向后阅读,定位到原文第 3 段中的句子:

What makes a language endangered is not just the number of speakers, but how old they are.

25. NOT GIVEN

先读题目,在原文第 24 题的答案处向后阅读,原文第 5 段中说,政府为了提高全国的统一性,政策上对少数民族语言有不利的影响。作者没有提到政府应该保护濒临灭绝的语言。

此题容易误答为: YES, 属于过度推断。

26. NO

先读题目,在原文第 25 题的答案处(即第 5 段)向后阅读,定位到原文第 7 段的第 1 句和第 2 句:

So despite linguists' best efforts, many languages will disappear over the next century. But a growing interest in cultural identity may prevent the direst predictions from coming true.

原文最后一段的第 1 句:

However, preservation can bring a language back from the dead.

这些都说明:语言多样化的丧失并不是不可避免的。

Reading Passage 2

You are advised to spend about 20 minutes on Questions 27-40 which refer to Reading Passage 2 below.

Why Some Women Cross the Finish Line Ahead of Men

The course is tougher but women are staying the distance, reports **Andrew Crisp**.

- A** Women who apply for jobs in middle or senior management have a higher success rate than men, according to an employment survey. But of course far fewer of them apply for these positions. The study, by recruitment consultants **N.B.** Selection, shows that while one in six men who appear on interview shortlists get jobs, the figure rises to one in four

for women.

- B The study concentrated on applications for management positions in the \$45,000 to \$110,000 salary range and found that women are more successful than men in both the private and public sectors. Dr Elisabeth Marx from Londonbased **N.B.** Selection described the findings as encouraging for women, in that they send a positive message to them to apply for interesting management positions. But she added, “We should not lose sight of the fact that significantly fewer women apply for senior positions in comparison with men.”
- C Reasons for higher success rates among women are difficult to isolate. One explanation suggested is that if a woman candidate manages to get on a shortlist, then she has probably already proved herself to be an exceptional candidate. Dr Marx said that when women apply for positions they tend to be better qualified than their male counterparts but are more selective and conservative in their job search. Women tend to research thoroughly before applying for positions or attending interviews. Men, on the other hand, seem to rely on their ability to sell themselves and to convince employers that any shortcomings they have will not prevent them from doing a good job.
- D Managerial and executive progress made by women is confirmed by the annual survey of boards of directors carried out by Korn/Ferry/Carre/Orban International. This year the survey shows a doubling of the number of women serving as nonexecutive directors compared with the previous year. However, progress remains painfully slow and there were still only 18 posts filled by women out of a total of 354 nonexecutive positions surveyed. Hilary Sears, a partner with Korn/Ferry, said, women have raised the level of grades we are employed in but we have still not broken through barriers to the top.
- E In Europe a recent feature of corporate life in the recession has been the delayering of management structures. Sears said that this has halted progress for women in as much as delayering has taken place either where women are working or in layers they aspire to. Sears also noted a positive trend from the recession, which has been the growing number of women who have started up on their own.
- F In business as a whole, there are a number of factors encouraging the prospect of greater equality in the workforce. Demographic trends suggest that the number of women going into employment is steadily increasing. In addition a far greater number of women are now passing through higher education, making them better qualified to move into management positions.
- G Organisations such as the European Women’s Management Development Network provide a range of opportunities for women to enhance their skills and contacts. Through

a series of both pan-European and national workshops and conferences the barriers to women in employment are being broken down. However, Ariane Berthoin Antal, director of the International Institute for Organisational Change of Archamps in France, said that there is only anecdotal evidence of changes in recruitment patterns. And she said, "It's still so hard for women to even get on to shortlists — there are so many hurdles and barriers." Antal agreed that there have been some positive signs but said, "Until there is a belief among employers, until they value the difference, nothing will change."

Day 5

Reading Passage 1

You should spend about 20 minutes on **Questions 14-27** which are based on Reading Passage 1 below.

Votes For Women

The suffragette movement, which campaigned for votes for women in the early twentieth century, is most commonly associated with the Pankhurst family and militant acts of varying degrees of violence. The Museum of London has drawn on its archive collection to convey a fresh picture with its exhibition *The Purple, White and Green: Suffragettes in London 1906-14*.

The name is a reference to the colour scheme that the Women's Social and Political Union (WSPU) created to give the movement a uniform, nationwide image. By doing so, it became one of the first groups to project a corporate identity, and it is this advanced marketing strategy, along with the other organizational and commercial achievements of the WSPU, to which the exhibition is devoted.

Formed in 1903 by the political campaigner Mrs Emmeline Pankhurst and her daughters Christabel and Sylvia, the WSPU began an educated campaign to put women's suffrage on the political agenda. New Zealand, Australia and parts of the United States had already enfranchised women, and growing numbers of their British counterparts wanted the same opportunity.

With their slogan "Deeds not words", and the introduction of the colour scheme, the WSPU soon brought the movement the cohesion and focus it had previously lacked. Membership grew rapidly as women deserted the many other, less directed, groups and joined it. By 1906 the WSPU headquarters, called the Women's Press Shop, had been established in Charing Cross Road and in spite of limited communications (no radio or television, and minima use of the telephone) the message had spread around the country, with members and branch officers stretching to as far away as Scotland.

The newspapers produced by the WSPU, first *Votes for Women* and later *The Suffragette*, played a vital role in this communication. Both were sold throughout the country and proved an invaluable way of informing members of meetings, marches, fundraising events and the latest news and views on the movement.

Equally importantly for a rising political group, the newspaper returned a profit. This was partly because advertising space was bought in the paper by large department stores such as Selfridges, and jewellers such as Mappin & Webb. These two, together with other like-minded commercial enterprises sympathetic to the cause, had quickly identified a direct way to reach a huge market of women, many with money to spend.

The creation of the colour scheme provided another money-making opportunity which the WSPU was quick to exploit. The group began to sell playing cards, board games, Christmas and greeting cards, and countless other goods, all in the purple, white and green colours. In 1906 such merchandising of a corporate identity was a new marketing concept.

But the paper and merchandising activities alone did not provide sufficient funds for the WSPU to meet organisational costs, so numerous other fundraising activities combined to fill the coffers of the “war chest”. The most notable of these was the Woman’s Exhibition, which took place in 1909 in a Knightbridge ice-skating rink, and in 10 days raised the equivalent of £250,000 today.

The Museum of London’s exhibition is largely visual, with a huge number of items on show. Against a quiet background hum of street sounds, copies of *The Suffragette*, campaign banners and photographs are all on display, together with one of Mrs Pankhurst’s shoes and a number of purple, white and green trinkets.

Photographs depict vivid scenes of a suffragette’s life: WSPU members on a self-proclaimed “monster” march, wearing their official uniforms of a white frock decorated with purple, white and green accessories; women selling *The Suffragette* at street corners, or chalking up pavements with details of a forthcoming meeting.

Windows display postcards and greeting cards designed by women artists for the movement, and the quality of the artwork indicates the wealth of resources the WSPU could call on from its talented members. Visitors can watch a short film made up of old newsreels and cinema material which clearly reveals the political mood of the day towards the suffragettes. The programme begins with a short film devised by the “antis” - those opposed to women having the vote - depicting a suffragette as a fierce harridan bullying her poor, abused husband. Original newsreel footage shows the suffragette Emily Wilding Davison throwing herself under King George V’s horse at a famous race-course.

Although the exhibition officially charts the years 1906 to 1914, graphic display boards outlining the bills of enfranchisement of 1918 and 1928, which gave the adult female populace of Britain the vote, show that was achieved. It demonstrates how advanced the suffragettes were in their thinking, in the marketing of their campaign, and in their work as shrewd and skilful image-builders. It also conveys a sense of the energy and ability the suffragettes brought to their fight for freedom and equality. And it illustrates the intelligence employed by women who were at that time deemed by several politicians to have “brains too small to know how to vote”.

答案及详解

Reading Passage 1

Questions 14-15

题型：选择题（四选一）

14. C

比较难。先读题目，通过题目中的特殊词 **Museum of London** 很容易定位到原文的第 1 段的第 2 句：

The Museum of London has drawn on its archive collection to convey a fresh picture with its exhibition *The Purple, White and Green: Suffragettes in London 1906-1914*.

注意句子中的 **fresh** 一词，原文此句的前一句话（即原文第 1 段的第 1 句话）的意思是：20 世纪初为妇女争取投票权的女权运动通常都会和 **Pankhurst** 家族以及不同暴力程度的激进行为相联系。

这说明，**Museum of London** 的这个展览不是表现 **Pankhurst** 家族，也不是表现暴力程度。所以，选项 **A** 和 **B** 都不对。那这个展览表现的是什么呢？需要在原文中继续向下阅读。正确答案来自原文第 2 段的最后一句：

By doing so, it became one of the first groups to project a corporate identity, and it is this advanced marketing strategy, along with the other organizational and commercial achievements of the WSPU, to which the exhibition is devoted.

中文译文：通过设计此方案，WSPU 成为首批表明团体特征的团体之一。此次展览专门展

示的正是 WSPU 这一超前的市场策略和其他在组织和商业方面的成就。

15. D

比较难。虽然题目中有特殊词 WSPU，但原文中出现这个词的地方特别多，只能一个一个地依次仔细阅读。正确答案来自原文第 4 段的第 2 句：

Membership grew rapidly as women deserted the many other, less directed, groups and joined it.

Question 16

题型：选择题（多选多）

16. D, E

先读题目，根据选项中的各个年份，很容易定位到原文第 12 段的第 1 句：

Although the exhibition officially charts the years 1906 to 1914, graphic display boards outlining the bills of enfranchisement of 1918 and 1928, which gave the adult female populace of Britain the vote, show that was achieved.

Questions 17-19

题型：完成句子

17. advertising space 或者 advertising

先读题目，根据题目最前面的总结性的句子知道下面三项是有关 WSPU 筹集资金的方式。本题的关键词是 newspaper，从原文第 15 题的答案处开始阅读，定位到原文第 6 段的第 2 句：

The group began to sell playing cards, board games, Christmas and greeting cards, and countless other goods, all in the purple, white and green colours.

答案本来应为：purple, white and green colours

但字数超过了题目的要求，所以应改为：three colours。

19. the Woman's Exhibition

先读题目，在原文第 17 题的答案处开始阅读，定位到原文第 8 段的最后一句：

The most notable of these was the Woman's Exhibition, which took place in 1909 in a Knightbridge ice-skating rink, and in 10 days raised the equivalent of £250,000 today.

Questions 20-26

题型：T/F/NG

20. NO

New Zealand, Australia and parts of the United States had already enfranchised women,

and growing numbers of their British counterparts wanted the same opportunity.

21. YES

先读题目，在原文第 20 题的答案处开始阅读，定位到原文第 5 段的第 1 句：

The newspapers produced by the WSPU, first *Votes for Women* and later *The Suffragette*, played a vital role in this communication.

原文中的 *vital* 对应于题目中的 *main*。

22. NO

先读题目，在原文第 21 题的答案处开始阅读，定位到原文第 5 段的第 2 句：

这句话中并没有提到题目的后半句 *opposition from Parliament*，阅读原文这句话的前后一些句子，也没有相关内容。

25. YES

先读题目，在原文第 24 题的答案处开始阅读，本题较难，不好定位。定位到原文第 11 段的第 1 句：

Windows display postcards and greeting cards designed by women artists for the movement, and the quality of the artwork indicates the wealth of resources the WSPU could call on from its talented members.

26. YES

先读题目，在原文第 25 题的答案处开始阅读，定位到原文第 11 段的第 3 句：

Reading Passage 2

You should spend about 20 minutes on **Questions 28-40** which are based on Reading Passage 2 below.

Measuring Organizational Performance

There is clear-cut evidence that, for a period of at least one year, supervision which increases the direct pressure for productivity can achieve significant increases in production. However, such short-term increases are obtained only at a substantial and serious cost to the organization.

To what extent can a manager make an impressive earnings record over a short period of one to three years by exploiting the company's investment in the human organization in his plant or division? To what extent will the quality of his organization suffer if he does so? The following is a description of an important study conducted by the institute for Social Research designed to answer these questions.

The study covered 500 clerical employees in four parallel divisions. Each division was organized in exactly the same way, used the same technology, did exactly the same kind of work, and had employees of comparable aptitudes.

Productivity in all four of the divisions depended on the number of clerks involved. The work entailed the processing of accounts and generation of invoices. Although the volume of work was considerable, the nature of the business was such that it could only be processed as it came along. Consequently, the only way in which productivity could be increased was to change the size of the work group.

The four divisions were assigned to two experimental programmes on a random basis. Each programme was assigned at random a division that had been historically high in productivity and a division that had been below average in productivity. No attempt was made to place a division in the programme that would best fit its habitual methods of supervision used by the manager, assistant managers, supervisors and assistant supervisors.

The experiment at the clerical level lasted for one year. Beforehand, several months were devoted to planning, and there was also a training period of approximately six months. Productivity was measured continuously and computed weekly throughout the year. The attitudes of employees and supervisory staff towards their work were measured just before and after the period.

Turning now to the heart of the study, in two divisions an attempt was made to change the supervision so that the decision levels were pushed down and detailed supervision of the workers reduced. More general supervision of the clerks and their supervisors was

introduced. In addition, the managers, assistant managers, supervisors and assistant supervisors of these two divisions were trained in group methods of leadership, which they endeavoured to use as much as their skill would permit during the experimental year. For easy reference, the experimental changes in these two divisions will be labeled the “participative programme”.

In the other two divisions, by contrast, the programme called for modifying the supervision so as to increase the closeness of supervision and move the decision levels upwards. This will be labeled the “hierarchically controlled programme”. These changes were accomplished by a further extension of the scientific management approach. For example, one of the major changes made was to have the jobs timed and to have standard times computed. This showed that these divisions were overstaffed by about 30%. The general manager then ordered the managers of these two divisions to cut staff by 25%. This was done by transfers without replacing the persons who left; no one was to be dismissed.

Results of the Experiment

Changes in Productivity

Figure 1 shows the changes in salary costs per unit of work, which reflect the change in productivity that occurred in the divisions. As will be observed, the hierarchically controlled programmes increased productivity by about 25%. This was a result of the direct orders from the general manager to reduce staff by that amount. Direct pressure produced a substantial increase in production.

A significant increase in productivity of 20% was also achieved in the participative programme, but this was not as great an increase as in the hierarchically controlled programme. To bring about this improvement, the clerks themselves participated in the decision to reduce the size of the work group. (They were aware of course that productivity increases were sought by management in conducting these experiments.) Obviously, deciding to reduce the size of a work group by eliminating some of its members is probably one of the most difficult decisions for a work group to make. Yet the clerks made it. In fact, one division in the participative programme increased its productivity by about the same amount as each of the two divisions in the hierarchically controlled programme. The other participative division, which historically had been the poorest of all the divisions, did not do so well and increased productivity by only 15%.

Changes in Attitudes

Although both programmes had similar effects on productivity, they had significantly different results in other respects. The productivity increases in the hierarchically controlled programme were accompanied by shifts in an adverse direction in such factors as loyalty, attitudes, interest, and involvement in the work. But just the opposite was true in the

participative programme.

For example, Figure 2 shows that when more general supervision and increased participation were provided, the employees' feeling of responsibility to see that the work got done increased. Again, when the supervisor was away, they kept on working. In the hierarchically controlled programme, however, the feeling of responsibility decreased, and when the supervisor was absent, work tended to stop.

As Figure 3 shows, the employees in the participative programme at the end of the year felt that their manager and assistant manager were "closer to them" than at the beginning of the year. The opposite was true in the hierarchical programme. Moreover, as Figure 4 shows, employees in the participative programme felt that their supervisors were more likely to "pull" for them, or for the company and them, and not be solely interested in the company, while in the hierarchically controlled programme, the opposite trend occurred.

 答案及详解 Reading Passage 2 Questions 28-30

题型：选择题（四选一）

28. A

先读题目，在原文开始处阅读，定位到原文第 2 段：

To what extent can a manager make an impressive earnings record over a short period of one to three years by exploiting the company's investment in the human organization in his plant or division? To what extent will the quality of his organization suffer if he does so? The following is a description of an important study conducted by the institute for Social Research designed to answer these questions.

最后一句说：设计这个试验就是为了回答前面的两个问题。第一个问题是：一个经理可以在多大程度上利用公司人员结构在短期内创造更多的利润。第二个问题是：如果经理这么做，他的组织质量会受到多大程度的影响。

理解这段话的意思，可以很容易排除掉选项 B 和 C。

选项 A 的意思是：证实是否应该不惜一切代价增加生产率。

选项 D 的意思是：利用公司的人员结构来增加利润。

选项 D 只回答了第一个问题。

29. C

先读题目，在原文第 28 题的答案处开始阅读，定位到原文第 3 段的第 1 句和第 2 句：

The study covered 500 clerical employees in four parallel divisions. Each division was organized in exactly the same way, used the same technology, did exactly the same kind of work, and had employees of comparable aptitudes.

原文中的 the same 对应于选项中的 identical。

30. C

先读题目，在原文第 29 题的答案处开始阅读，定位到原文第 6 段的第 2 句：

Beforehand, several months were devoted to planning, and there was also a training period of approximately six months.

原文中的 planning, training 对应于选项中的 preparing。

Questions 31-36

题型：填图填空

31. supervision

先读题目，本题难度较大，比较难定位。空格处要填写的是一年内分组的项目中采用了不同的什么方法。定位到第 6 段的第 1 句。但第 6 段说的是实验开始前的准备工作，第 7 段才是试验的实际内容。正确答案来自原文第 7 段的第 1 句：

Turning now to the heart of the study, in two divisions an attempt was made to change the supervision so that the decision levels were pushed down and detailed supervision of the workers reduced.

中文译文：现在来看研究的核心，其中两个部门尝试改变管理方式，以减少决策层面并减少对工人复杂的管理。

32. productivity

先读题目，本来此题比较好定位。但顺序性有错位，正确答案来自原文第 6 段的第 3 句：

Productivity was measured continuously and computed weekly throughout the year.

原文中的 computed 对应于题目中的 calculated。

33. reduced

33, 34 是关于 participative programme 的，对应原文的第 7 段。

第 33 题答案来自原文第 7 段的第 1 句：

In addition, the managers, assistant managers, supervisors and assistant supervisors of

these two divisions were trained in group methods of leadership, which they endeavoured to use as much as their skill would permit during the experimental year.

原文中的 the managers, assistant managers, supervisors and assistant supervisors 对应于题目中的 supervisory staff, 原文中的 were trained 对应于题目中的 were given training。

答案本来应该是 group methods of leadership, 但由于只能填一个词, 所以答案为: leadership。

35. overstaffed

35, 36 题是关于 hierarchically controlled programme 的, 对应原文的第 8 段。

35 题根据题目中的特殊词 30%, 很容易定位到原文第 8 段的第 5 句:

36. cut

根据题目中的特殊词 25%, 很容易定位到原文第 8 段的倒数第 2 句:

The general manager then ordered the managers of these two divisions to cut staff by 25%.

原文中的 staff 对应于题目中的 the work force。

Reading Passage 1

You are advised to spend about 20 minutes on Questions 1-13 which are based on the Reading Passage 1.

Wild Foods of Australia

Over 120 years ago, the English botanist J. D. Hooker, writing of Australian edible plants, suggested that many of them were “eatable but not worth eating”. Nevertheless, the Australian flora, together with the fauna, supported the Aboriginal people well before the arrival of Europeans. The Aborigines were not farmers and were wholly dependent for life on the wild products around them. They learned to eat, often after treatment, a wide variety of plants.

The conquering Europeans displaced the Aborigines, killing many, driving others from their traditional tribal lands, and eventually settling many of the tribal remnants on government reserves, where flour and beef replaced nardoo and wallaby as staple foods. And so, gradually, the vast store of knowledge, accumulated over thousands of years, fell into disuse. Much was lost.

However, a few European men took an intelligent and even respectful interest in the people who were being displaced. Explorers, missionaries, botanists, naturalists and government officials observed, recorded and fortunately in some cases, published. Today, we can draw on these publications to form the main basis of our knowledge of the edible, natural products of Australia. The picture is no doubt mostly incomplete. We can only speculate on the number of edible plants on which no observation was recorded.

Not all our information on the subject comes from the Aborigines. Times were hard in the early days of European settlement, and traditional foods were often in short supply or impossibly expensive for a pioneer trying to establish a farm in the bush. And so necessity led to experimentation, just as it must have done for the Aborigines, and experimentation led to some lucky results. So far as is known, the Aborigines made no use of *Leptospermum* or *Dodonaea* as food plants, yet the early settlers found that one could be used as a substitute for tea and the other for hops. These plants are not closely related to the species they replaced, so their use was not based on botanical observation. Probably some experiments had less happy endings; L. J. Webb has used the expression eat, die and learn in connection with the Aboriginal experimentation, but it was the successful attempts that became widely known. It is possible that the edibility of some native plants used by the Aborigines was discovered independently by the European settlers or their descendants.

Explorers making long expeditions found it impossible to carry sufficient food for the whole journey and were forced to rely, in part, on food that they could find on the way. Still another

source of information comes from the practice in other countries. There are many species from northern Australia which occur also in Southeast Asia, where they are used for food.

In general, those Aborigines living in the dry inland areas were largely dependent for their vegetable foods on seed such as those of grasses, acacias and eucalypts. They ground these seeds between flat stones to make a coarse flour. Tribes on the coast, and particularly those in the vicinity of coastal rainforests, had a more varied vegetable diet with a higher proportion of fruits and tubers. Some of the coastal plants, even if they had grown inland, probably would have been unavailable as food since they required prolonged washing or soaking to render them non-poisonous; many of the inland tribes could not obtain water in the quantities necessary for such treatment. There was also considerable variation in the edible plants available to Aborigines in different latitudes. In general, the people who lived in the moist tropical areas enjoyed a much greater variety, than those in the southern part of Australia.

With all the hundreds of plant species used for food by the Australian Aborigines, it is perhaps surprising that only one, the Queensland nut, has entered into commercial cultivation as a food plant. The reason for this probably does not lie with an intrinsic lack of potential in Australian flora, but rather with the lack of exploitation of this potential. In Europe and Asia, for example, the main food plants have had the benefit of many centuries of selection and hybridisation, which has led to the production of forms vastly superior to those in the wild. Before the Europeans came, the Aborigines practised no agriculture and so there was no opportunity for such improvement; either deliberate or unconscious, in the quality of the edible plants.

Since 1788, there has, of course, been opportunity for selection of Australian food plants which might have led to the production of varieties that were worth cultivating. But Australian plants have probably “missed the bus”. Food plants from other regions were already so far in advance after a long tradition of cultivation that it seemed hardly worth starting work on Australian species. Undoubtedly, the native raspberry, for example, could, with suitable selection and breeding programs, be made to yield a high-class fruit; but Australians already enjoy good raspberries from other areas of the world and unless some dedicated amateur plant breeder takes up the task, the Australian raspberries are likely to remain unimproved.

And so, today, as the choice of which food plants to cultivate in Australia has been largely decided, and as there is little chance of being lost for long periods in the bush. Our interest in the subject of Australian food plants tends to relate to natural history rather than to practical necessity.

edible: fit to be eaten

botany: the study of plants

**Questions 1-7**

Do the following statements reflect the claims of the writer in the reading passage? In boxes 1-7 write:

- Most of the pre-European Aboriginal knowledge of wild foods has been recovered.
- There were few food plants unknown to pre-European Aborigines.

- Dodonaea is an example of a plant used for food by both pre-European Aborigines and European settlers.
- Some Australian food plants are botanically related to plants outside Australia.
- Pre-European Aboriginal tribes closer to the coast had access to a greater variety of food plants than tribes further inland.
- Some species of coastal food plants were also found inland.

**Questions 8-10**

Choose the appropriate letters (A-D) and write them in boxes 33-35 on your answer sheet.

- Wallaby meat_____.
 - was regularly eaten by Aborigines before European settlement
 - was given by Aborigines in exchange for foods such as flour
 - was a staple food on government reserves
 - was produced on farms before European settlement
- Experimentation with wild plants_____.
 - depended largely on botanical observation
 - was unavoidable for early settlers in all parts of Australia
 - led Aborigines to adopt Leptospermum as a food plant
 - sometimes had unfortunate results for Aborigines
- Wild plant use by Aborigines_____.
 - was limited to dry regions
 - was restricted to seed

- C. sometimes required the use of tools
D. was more prevalent in the southern part of Australia

Questions 11-13

Complete the partial summary below. Choose ONE or TWO words from the passage for each answer. Write your answers in boxes 11-13 on your answer sheet.

Despite the large numbers of wild plants that could be used for food, only one, the 11 is being grown as a cash crop. Other edible plants in Australia, however much potential they have for cultivation, had not gone through the lengthy process of 12 that would allow their exploitation, because Aborigines were not farmers. Thus species such as the 13, which would be an agricultural success had it not had to compete with established European varieties at the time of European settlement, are of no commercial value.

Volcanoes—Earth-shattering News

When Mount Pinatubo suddenly erupted on 9 June 1991, the power of volcanoes past and present again hit the headlines.

- A Volcanoes are the ultimate earth-moving machinery. A violent eruption can blow the top few kilometers off a mountain, scatter fine ash practically all over the globe and hurl rock

fragments into the stratosphere to darken the skies a continent away.

But the classic eruption—cone-shaped mountain, big bang, mushroom cloud and surges of molten lava—is only a tiny part of a global story. Volcanism, the name given to volcanic processes, really has shaped the world. Eruptions have rifted continents, raised mountain chains, constructed islands and shaped the topography of the earth. The entire ocean floor has a basement of volcanic basalt.

Volcanoes have not only made the continents. They are also thought to have made the world's first stable atmosphere and provided all the water for the oceans, rivers and ice-caps. There are now about 600 active volcanoes. Every year they add two of three cubic kilometers of rock to the continents. Imagine a similar number of volcanoes smoking away for the last 3,500 million years. That is enough rock to explain the continental crust.

What comes out of volcanic craters is mostly gas. More than 90% of this gas is water vapour from the deep earth: enough to explain, over 3,500 million years, the water in the oceans. The rest of the gas is nitrogen, carbon dioxide, sulphur dioxide, methane, ammonia and hydrogen. The quantity of these gases, again multiplied over 3,500 million years, is enough to explain the mass of the world's atmosphere. We are alive because volcanoes provided the soil, air and water we need.

- B Geologists consider the earth as having a molten core, surrounded by a semi-molten mantle and a brittle, outer skin. It helps to think of a soft-boiled egg with a runny yolk, a firm but squishy white and a hard shell. If the shell is even slightly cracked during boiling, the white material bubbles out and sets like a tiny mountain chain over the crack — like an archipelago of volcanic islands such as the Hawaiian Islands. But the earth is so much bigger and the mantle below is so much hotter.

Even though the mantle rocks are kept solid by overlying pressure, they can still slowly “flow” like thick treacle. The flow, thought to be in the form of convection currents, is powerful enough to fracture the “eggshell” of the crust into plates, and keep them bumping and grinding against each other, or even overlapping, at the rate of a few centimeters a year. These fracture zones, where the collisions occur, are where earthquakes happen. And, very often, volcanoes.

- C These zones are lines of weakness, or hot spots. Every eruption is different, but put at its simplest, where there are weaknesses, rocks deep in the mantle, heated to 1,350, will start to expand and rise. As they do so, the pressure drops, and they expand and become liquid and rise more swiftly.

Sometimes it is slow: vast bubbles of magma—molten rock from the mantle—inch towards

the surface, cooling slowly, to show through as granite extrusions (as on Skye, or the Great Whin Sill, the lava dyke squeezed out like toothpaste that carries part of Hadrian's Wall in northern England). Sometimes—as in Northern Ireland, Wales and the Karoo in South Africa—the magma rose faster, and then flowed out horizontally on to the surface in vast thick sheets. In the Deccan plateau in western India, there are more than two million cubic kilometers of lava, some of it 2,400 meters thick, formed over 500,000 years of slurping eruption.

Sometimes the magma moves very swiftly indeed. It does not have time to cool as it surges upwards. The gases trapped inside the boiling rock expand suddenly, the lava glows with heat, it begins to froth, and it explodes with tremendous force. Then the slightly cooler lava following it begins to flow over the lip of the crater. It happens on Mars, it happened on the moon, it even happens on some of the moons of Jupiter and Uranus. By studying the evidence, vulcanologists can read the force of the great blasts of the past. Is the pumice light and full of holes? The explosion was tremendous. Are the rocks heavy, with huge crystalline basalt shapes, like the Giant's Causeway in Northern Ireland? It was a slow, gentle eruption.

The biggest eruptions are deep on the mid-ocean floor, where new lava is forcing the continents apart and widening the Atlantic by perhaps five centimeters a year. Look at maps of volcanoes, earthquakes and island chains like the Philippines and Japan, and you can see the rough outlines of what are called tectonic plates—the plates which make up the earth's crust and mantle. The most dramatic of these is the Pacific "ring of fire" where there have been the most violent explosions—Mount Pinatubo near Manila, Mount St Helen's in the Rockies and El Chichon in Mexico about a decade ago, not to mention world-shaking blasts like Krakatoa in the Sunda Straits in 1883.

- D But volcanoes are not very predictable. That is because geological time is not like human time. During quiet periods, volcanoes cap themselves with their own lava by forming a powerful cone from the molten rocks slopping over the rim of the crater; later the lava cools slowly into a huge, hard, stable plug which blocks any further eruption until the pressure below becomes irresistible. In the case of Mount Pinatubo, this took 600 years.

Then, sometimes, with only a small warning, the mountain blows its top. It did this at Mount Pelee in Martinique at 7:49 a.m. on 8 May, 1902. Of a town of 28,000, only two people survived. In 1815, a sudden blast removed the top 1,280 meters of Mount Tambora in Indonesia. The eruption was so fierce that dust thrown into the stratosphere darkened the skies, canceling the following summer in Europe and North America. Thousands starved as the harvests failed, after snow in June and frosts in August. Volcanoes are potentially world

news, especially the quiet ones.

Questions 18-21

Answer the questions below using **NO MORE THAN THREE WORDS AND / OR A NUMBER** from the passage for each answer.

Write your answers in boxes 18-21 on your answer sheet.

18. What are the sections of the earth's crust, often associated with volcanic activity, called?
19. What is the name given to molten rock from the mantle?
20. What is the earthquake zone on the Pacific Ocean called?
21. For how many years did Mount Pinatubo remain inactive?

Questions 22-26

Complete the summary below.

Choose **NO MORE THAN TWO WORDS** from the passage for each answer.

Write your answers in boxes 22-26 on your answer sheet.

Volcanic eruptions have shaped the earth's land surface. They may also have produced the world's atmosphere and 22. Eruptions occur when molten rocks from the earth's mantle rise and expand. When they become liquid, they move more quickly through cracks in the surface. There are different types of eruption. Sometimes the 23 moves slowly and forms outcrops of granite on the earth's surface. When it moves more quickly it may flow out in thick horizontal sheets. Examples of this type of eruption can be found in Northern Ireland, Wales, South Africa and 24. A third type of eruption occurs when the lava emerges very quickly and 25 violently. This happens because the magma moves so suddenly that 26 are emitted.

Reading Passage 3

You should spend about 20 minutes on **Questions 27-40** which are based on Reading Passage 3 below.

Visual Symbols and the Blind

Part 1

From a number of recent studies, it has become clear that blind people can appreciate the use of outlines and perspectives to describe the arrangement of objects and other surface in space. But pictures are more than literal representations. This fact was drawn to my attention dramatically when a blind woman in one of my investigations decided on her own initiative to draw a wheel as it was spinning. To show this motion, she traced a curve inside the circle (*Fig. 1*). I was taken aback. Lines of motion, such as the one she used, are a very recent invention in the history of

Fig1

illustration. Indeed, as art scholar David Kunzle notes, Wilhelm Busch, a trend-setting nineteenth-century cartoonist, used virtually no motion lines in his popular figures until about 1877.

When I asked several other blind study subjects to draw a spinning wheel, one particularly clever rendition appeared repeatedly: several subjects showed the wheel's spokes as curved lines. When asked about these curves, they all described them as metaphorical ways of suggesting motion. Majority rule would argue that this device somehow indicated motion very well. But was it a better indicator than, say, broken or wavy lines — or any other kind of line, for that matter? The answer was not clear. So I decided to test whether various lines of motion were apt ways of showing movement or if they were merely idiosyncratic marks. Moreover, I wanted to discover whether there were differences in how the blind and the sighted interpreted lines of motion.

To search out these answers, I created raised-line drawings of five different wheels, depicting spokes with lines that curved, bent, waved, dashed and extended beyond the perimeter of the wheel. I then asked eighteen blind volunteers to feel the wheels and assign one of the following motions to each wheel: wobbling, spinning fast, spinning steadily, jerking or braking. My control group consisted of eighteen sighted undergraduates from the University of Toronto.

All but one of the blind subjects assigned distinctive motions to each wheel. Most guessed that the curved spokes indicated that the wheel was spinning steadily; the wavy spokes, they thought, suggested that the wheel was wobbling; and the bent spokes were taken as a sign that the wheel was jerking. Subjects assumed that spokes extending beyond the wheel's perimeter signified that the wheel had its brakes on and that dashed spokes indicated the wheel was spinning quickly.

In addition, the favoured description for the sighted was the favoured description for the blind in every instance. What is more, the consensus among the sighted was barely higher than that among the blind. Because motion devices are unfamiliar to the blind, the task I gave them involved some problem solving. Evidently, however, the blind not only figured out meanings for each line of motion, but as a group they generally came up with the same meaning at least as frequently as did sighted subjects.

➡ Part 2

We have found that the blind understand other kinds of visual metaphors as well. One blind woman drew a picture of a child inside a heart-choosing that symbol, she said, to show that love surrounded the child. With Chang Hong Liu, a doctoral student from China, I have begun exploring how well blind people understand the symbolism behind shapes such as hearts that do not directly represent their meaning.

We gave a list of twenty pairs of words to sighted subjects and asked them to pick from each pair the term that best related to a circle and the term that best related to a square. For example, we asked: What goes with soft? A circle or a square? Which shape goes with hard?

All our subjects deemed the circle soft and the square hard. A full 94% ascribed happy to the circle, instead of sad. But other pairs revealed less agreement: 79% matched fast to slow and weak to strong, respectively. And only 51% linked deep to circle and shallow to square. (See Fig.2.) When we tested four totally blind volunteers using the same list, we found that their choices closely resembled those made by the sighted subjects. One man, who had been blind since birth, scored extremely well. He made only one match differing from the consensus, assigning “far” to square and “near” to circle. In fact, only a small majority of sighted subjects—53%—had paired far and near to the opposite partners. Thus, we concluded that the blind interpret abstract shapes as sighted people do.

Words associated with circle / square	Agreement among subjects (%)
SOFT—HARD	100
MOTHER—FATHER	94
HAPPY—SAD	94
GOOD—EVIL	89
LOVE—HATE	89

Fig.2 Subjects were asked which word in each pair fits best with a circle and which with a square. These percentages show the level of consensus among sighted subjects.

**Reading Passage 1**

You are advised to spend about 15 minutes on Questions 1-14 which refer to Reading Passage 1 below.

Finding the Lost Freedom

1. The private car is assumed to have widened our horizons and increased our mobility. When we consider our children's mobility, they can be driven to more places (and more distant places) than they could visit without access to a motor vehicle. However, allowing our cities to be dominated by cars has progressively eroded children's independent mobility. Children have lost much of their freedom to explore their own neighbourhood or city without adult supervision. In recent surveys, when parents in some cities were asked about their own childhood experiences, the majority remembered having more, or far more, opportunities for going out on their own, compared with their own children today. They had more freedom to explore their own environment.
2. Children's independent access to their local streets may be important for their own personal, mental and psychological development. Allowing them to get to know their own neighbourhood and community gives them a "sense of place". This depends on "active exploration", which is not provided for when children are passengers in cars. (Such children may see more, but they learn less.) Not only is it important that children be able to get to local play areas by themselves, but walking and cycling journeys to school and to other destinations provide genuine play activities in themselves.
3. There are very significant time and money costs for parents associated with transporting their children to school, sport and to other locations. Research in the United Kingdom estimated that this cost, in 1990, was between 10 billion and 20 billion pounds.
4. The reduction in children's freedom may also contribute to a weakening of the sense of local community. As fewer children and adults use the streets as pedestrians, these streets become less sociable places. There is less opportunity for children and adults to have the spontaneous exchanges that help to engender a feeling of community. This in itself may exacerbate fears associated with assault and molestation of children, because there are fewer adults available who know their neighbours' children, and who can look out for their safety.
5. The extra traffic involved in transporting children results in increased traffic congestion, pollution and accident risk. As our roads become more dangerous, more parents drive their children to more places, thus contributing to increased levels of danger for the remaining pedestrians. Anyone who has experienced either the reduced volume of traffic in peak hour during school holidays, or the traffic jams near schools at the end of a school day, will not need convincing about these points. Thus, there are also important environmental implications of children's loss of freedom.

6. As individuals, parents strive to provide the best upbringing they can for their children. However, in doing so, (e.g. by driving their children to sport, school or recreation) parents may be contributing to a more dangerous environment for children generally. The idea that “streets are for cars and back yards and playgrounds are for children” is a strongly held belief, and parents have little choice as individuals but to keep their children off the streets if they want to protect their safety.
7. In many parts of Dutch cities, and some traffic calmed precincts in Germany, residential streets are now places where cars must give way to pedestrians. In these areas, residents are accepting the view that the function of streets is not solely to provide mobility for cars. Streets may also be for social interaction, walking, cycling and playing. One of the most important aspects of these European cities, in terms of giving cities back to children, has been a range of “traffic calming” initiatives, aimed at reducing the volume speed of traffic. These initiatives have had complex interactive effects, leading to a sense that children have been able to “recapture” their local neighbourhood, and more importantly, that they have been able to do this in safety. Recent research has demonstrated that children in many German cities have significantly higher levels to freedom to travel to places in their own neighbourhood or city than children in other cities in the world.
8. Modifying cities in order to enhance children’s freedom will not only benefit children. Such cities will become more environmentally sustainable, as well as more sociable and more livable for all city residents. Perhaps it will be our concern for our children’s welfare that convinces us that we need to challenge the dominance of the car in our cities.

Reading Passage 2

You are advised to spend about 25 minutes on Questions 15-28 which refer to Reading Passage 2 below.

Rising Seas

Paragraph 1

INCREASED TEMPERATURES The average air temperature at the surface of the earth has risen this century, as has the temperature of ocean surface waters. Because water expands as it heats, a warmer ocean means higher sea levels. We cannot say definitely that the temperature rises are due to the greenhouse effect; the heating may be part of a “natural” variability over a long time-scale that we have not yet recognised in our short 100 years of recording. However, assuming the build up of greenhouse gases is responsible, and that the warming will continue, scientists — and inhabitants of low-lying coastal areas — would like to know the extent of future sea level rises.

Paragraph 2

Calculating this is not easy. Models used for the purpose have treated the ocean as passive, stationary and one-dimensional. Scientists have assumed that heat simply diffused into the sea from the atmosphere. Using basic physical laws, they then predict how much a known volume of water would expand for a given increase in temperature. But the oceans are not one-dimensional, and recent work by oceanographers, using a new model which takes into account a number of subtle facets of the sea — including vast and complex ocean currents — suggests that the rise in sea level may be less than some earlier estimates had predicted.

Paragraph 3

An international forum on climate change, in 1986, produced figures for likely sea-level rises of 20cm and 1.4m, corresponding to atmospheric temperature increases of 1.5°C and 4.5 °C respectively. Some scientists estimate that the ocean warming resulting from those temperature increases by the year 2050 would raise the sea level by between 10 cms and 40 cms. This model only takes into account the temperature effect on the oceans; it does not

consider changes in sea level brought about by the melting of ice sheets and glaciers, and changes in ground water storage. When we add on estimates of these, we arrive at figures for total sea-level rises of 15cm and 70cm respectively.

➡ Paragraph 4

It's not easy trying to model accurately the enormous complexities of the ever-changing oceans, with their great volume, massive currents and sensitivity to the influence of land masses and the atmosphere. For example, consider how heat enters the ocean. Does it just "diffuse" from the warmer air vertically into the water, and heat only the surface layer of the sea? (Warm water is less dense than cold, so it would not spread downwards.) Conventional models of sea-level rise have considered that this is the only method, but measurements have shown that the rate of heat transfer into the ocean by vertical diffusion is far lower in practice than the figures that many modelers have adopted.

➡ Paragraph 5

Much of the early work, for simplicity, ignored the fact that water in the oceans moves in three dimensions. By movement, of course, scientists don't mean waves, which are too small individually to consider, but rather movement of vast volumes of water in huge currents. To understand the importance of this, we now need to consider another process — advection. Imagine smoke rising from a chimney. On a still day it will slowly spread out in all directions by means of diffusion. With a strong directional wind, however, it will all shift downwind. This process is advection — the transport of properties (notably heat and salinity in the ocean) by the movement of bodies of air or water, rather than by conduction or diffusion.

➡ Paragraph 6

Massive ocean currents called gyres do the moving. These currents have far more capacity to store heat than does the atmosphere. Indeed, just the top 3 m of the ocean contains more heat than the whole of the atmosphere. The origin of gyres lies in the fact that more heat from the Sun reaches the Equator than the Poles, and naturally heat tends to move from the former to the latter. Warm air rises at the Equator, and draws more air beneath it in the form of winds (the "Trade Winds") that, together with other air movements, provide the main force driving the ocean currents.

➡ Paragraph 7

Water itself is heated at the Equator and moves poleward, twisted by the Earth's rotation and affected by the positions of the continents. The resultant broadly circular movements between about 10° and 40° North and South are clockwise in the Northern Hemisphere and anticlockwise in the Southern Hemisphere. They flow towards the east at mid latitudes in the equatorial region. They then flow towards the Poles, along the eastern sides of continents, as warm currents. When

two different masses of water meet, one will move beneath the other, depending on their relative densities in the subduction process. The densities are determined by temperature and salinity. The convergence of water of different densities from the Equator and the Poles deep in the oceans causes continuous subduction. This means that water moves vertically as well as horizontally. Cold water from the Poles travels at depth — it is denser than warm water — until it emerges at the surface in another part of the world in the form of a cold current.

➡ Paragraph 8

How the Green House Effect Will Change Ocean Temperatures

Ocean currents, in three dimensions, form a giant “conveyor belt”, distributing heat from the thin surface layer into the interior of the oceans and around the globe. Water may take decades to circulate in these 3-D gyres in the top kilometre of the ocean, and centuries in the deeper water. With the increased atmospheric temperatures due to the greenhouse effect, the oceans’ conveyor belt will carry more heat into the interior. This subduction moves heat around far more effectively than simple diffusion. Because warm water expands more than cold when it is heated, scientists had presumed that the sea level would rise unevenly around the globe. It is now believed that these inequalities cannot persist, as winds will act to continuously spread out the water expansion. Of course, if global warming changes the strength and distribution of the winds, then this “evening-out” process may not occur, and the sea level could rise more in some areas than others.

Reading Passage 3

You are advised to spend about 20 minutes on Questions 29-40 which refer to Reading Passage 3 below.

New Rules for the Paper Game

1. Computerised data storage and electronic mail were to have heralded the paperless office. But, contrary to expectations, paper consumption throughout the world shows no sign of abating. In fact, consumption, especially of printing and writing papers, continues to increase. World demand for paper and board is now expected to grow faster than the general economic growth in the next 15 years. Strong demand will be underpinned by the growing industrialization of South-East Asia, the reemergence of paper packaging, greater use of facsimile machines and photocopiers, and the popularity of direct-mail advertising. It is possible that by 2007, world paper and board demand will reach 455 million tonnes, compared with 241 million tonnes in 1991.
2. The pulp and paper industry has not been badly affected by the electronic technologies that promised a paperless society. But what has radically altered the industry's structure is pressure from another front — a more environmentally conscious society driving an irreversible move towards cleaner industrial production. The environmental consequences of antiquated pulp mill practices and technologies had marked this industry as one in need of reform. Graphic descriptions of deformed fish and, thinning populations, particularly in the Baltic Sea where old pulp mills had discharged untreated effluents for 100 years, have disturbed the international community.
3. Until the 1950s, it was common for pulp mills and other industries to discharge untreated effluent into rivers and seas. The environmental effects were at the time either not understood, or regarded as an acceptable cost of economic prosperity in an increasingly import-oriented world economy. But greater environmental awareness has spurred a fundamental change in attitude in the community, in government and in industry itself.
4. Since the early 1980s, most of the world-scale pulp mills in Scandinavia and North America have modernised their operations, outlaying substantial amounts to improve

production methods. Changes in mill design and processes have been aimed at minimising the environmental effects of effluent discharge while at the same time producing pulp with the whiteness and strength demanded by the international market. The environmental impetus is taking this industry even further, with the focus now on developing processes that may even eliminate waste-water discharges. But the ghost of the old mills continues to haunt the industry today. In Europe companies face a flood of environment-related legislation. In Germany companies are now being held responsible for the waste they create.

5. Pulp is the porridge-like mass of plant fibres from which paper is made. Paper makers choose the type of plant fibre and the processing methods, depending on what the end product will be used for: whether it is a sturdy packing box, a smooth sheet of writing paper or a fragile tissue. In wood, which is the source of about 90% of the world's paper production, fibres are bound together by lignin, which gives the unbleached pulp a brown colour. The pulping stage separates the wood into fibres so they are suitable for paper making. Pulping can be done by mechanical grinding, or by chemical treatment in which woodchips are "cooked" with chemicals, or by a combination of both methods.
6. Kraft pulping is the most widely used chemical process for producing pulp with the strength required by the high-quality paper market. It is now usually carried out in a continuous process in a large vessel called a digester. Woodchips are fed from a pile into the top of the digester. In the digester, the chips are cooked in a solution called white liquor, composed of caustic soda (sodium hydroxide) and sodium sulphide. The chips are cooked at high temperatures of up to 170°C for up to three hours. The pulp is then washed and separated from the spent cooking liquor which has turned dark and is now appropriately called black liquor. An important feature of kraft pulping is a chemical recovery system which recycles about 95% of the cooking chemicals and produces more than enough energy to run the mill. In a series of steps involving a furnace and tanks, some of the black liquor is transformed into energy, while some is regenerated into the original white cooking liquor. The recovery system is an integral part of production in the pulp and paper industry. The pulp that comes out has little lignin left in the fibres. Bleaching removes the last remaining lignin and brightens the pulp. Most modern mills have modified their pulping processes to remove as much of the lignin as possible before the pulp moves to the bleaching stage.

Questions 29-32

Below is a list of possible factors, A-G, which will influence the amount of paper being used in the future. From the list, choose FOUR factors which are mentioned in Paragraph 1 of the reading passage. Write your answers A-G, in the spaces numbered 29-32 on the

answer sheet.

- A more people read newspapers
- B increased use of paper bags
- C increased book production for education
- D wider use of sign post advertising
- E increased use of fax machines
- F wider use of leaflet advertising

答案及详解

Reading Passage 1

Questions 1-5

题型：T/F/NG

先看题目的要求，得出以下信息：

特殊要求：要求答 T / F / NI

有利信息：答案在原文的 1、2、3 段中找

1. F

先读题目，然后从原文开始处阅读，对应到第 2 段中的句子：

Such children may see more, but they learn less.

2. T

此题顺序性有错位，答案来自原文第 1 段中的句子：

However, allowing our cities to be dominated by cars has progressively eroded children's independent mobility.

erode 在这里是腐蚀，损害的意思。

3. T

答案来自原文第 2 段中的句子：

Such children may see more, but they learn less.

本题与第 1 题实际上是有关联的。判断第一题为 F，那么此题必为 T。

4. NI

容易误选为 F，实际上原文中并没有明确地提到，属于推理过度。

5. F

此题比较容易。对应原文第三段的第一句：

There are very significant time and money costs for parents associated with transporting their children to school, sport and to other locations.

题目与原文直接相反。

Questions 6-9

题型：搭配题（因果关系搭配）

题目的要求中告诉了答案来自原文的第 4 段和第 5 段，所以仔细看题目的要求很重要，有时它会告诉你很多有利的信息。

6. B

从原文第 4 段的开始处阅读，应该注意第一句就是一个表示因果关系的句子，其中有表示因果关系的动词 **contribute to**，这一句是作为本组题目的例子给出。该段的第 2 句：As

fewer children and adults use the streets as pedestrians, these streets become less sociable places. 其中 these streets become less sociable places 与题目中的 streets become less sociable 是对应的。仔细分析这句话, as 在这里是表示原因的连词, 答案应是 fewer children and adults use the streets as pedestrians 的改写, 所以为 B。

7. B

继续向下阅读, 下一句 There is less opportunity for children and adults to have the spontaneous exchanges that help to engender a feeling of community. 实际上与第 7 题就对应上了。less opportunity 即 fewer chances, have the spontaneous exchanges that help to engender a feeling of community 即 meeting friends。但在这句前没有说出新的原因(没有新的表示因果的词句), 所以, 是一因多果, 答案为 B。

8. A

继续向下阅读, 下一句 This in itself may exacerbate fear associated with assault and molestation of children, because there are fewer adults available who know their neighbors' children, and who can look out for their safety. 与本题对应上。because 是表示原因的连词, 答案应是 there are fewer adults available who know their neighbors' children 的改写, 所以为 A。

9. G

对应第 5 段的第 1 句 The extra traffic involved in transporting children results in increased traffic congestion, pollution and accident risk. 注意 results in 表示导致, 原因在前, 结果在后。答案应是 The extra traffic involved in transporting children 的改写, 所以答案为 G。

Questions 10-14

题型: 完成句子

最近的考试中出现了一种新型的完成句子题型。它不是要求考生写出答案, 而是从选项中选择。也就是说, 在题目中还给出一个句子结尾的选项的集合。选项的数目要多于题目的数目。这种选择选项的完成句子一般要比填写答案的完成句子要简单一些。有利信息: 答案在原文的第 6、7、8 段中找。

10. vii

先读题目, 题目中的关键词是: Children should play. 从原文第 6 段起快速阅读, 对应第 6 段中的句子:

The idea that "streets are for cars and back yards and playgrounds are for children" is a strongly held belief.

这时再看选项, 从中找 back yards and playgrounds 的对应词, 答案应为 vii。

11. iii

先读题目, 题目中的关键词肯定是 German. 从原文第 10 题的答案处继续向下阅读, 对

应第 7 段中的句子:

In many parts of Dutch cities, and some traffic calmed precincts in Germany, residential streets are now places where cars must give way to pedestrians.

仔细阅读 residential streets are now places where cars must give way to pedestrians 这句话,意思是:居民街道现在是汽车必须让位给人行道的地方,题目中说人行道有道路的优先权……这时再看选项,答案应为 iii。

12. vi

先读题目,题目的意思是:街道还应被用来……。从原文第 11 题的答案处继续向下阅读,对应第 7 段中的句子:

Streets may also be for social interaction. 这时再看选项,从中找 social interaction 的对应词,答案应为 vi。

13. ix

先读题目,题目的意思是:降低交通的数量和速度是……。从原文第 12 题的答案处继续向下阅读,对应第 7 段中的句子:

One of the most important aspects of these European cities, in terms of giving cities back to children, has been a range of “traffic calming” initiatives, aimed at reducing the volume and speed of traffic, reducing the volume and speed of traffic. 与题目中的词句对应上了。这时再看选项,答案应为 ix。

14. ii

先读题目,题目的意思是:所有居住在城市里的人都会受益如果城市……。从原文第 13 题的答案处继续向下阅读,对应第 8 段中的第 1 句:

Modifying cities in order to enhance children's freedom will not only benefit children.

这时再看选项,答案应为 ii。

Reading Passage 2

Questions 15-20

题型:找段落的小标题

15. G

先读第 2 段的第 1 句: Calculating this is not easy. 意思是:计算这个是不容易的。根据前面讲的规律,这句话是主题句。与选项一一对应,应该对应 G。G 中的 FIGURING 是动名词,与 Calculating 词性一致。FIGURE 的动词意思是“计算、计算出”,与 Calculating 的意思也相同。本题容易误选 H。H 中也有 FIGURES, 但为名词,意思为数字。

16. H

通读全段,没有明显的主题句。如果理解全段有困难,把第一句当成是主题句。第一句: An international forum on climate change, in 1986, produced figures for likely sea-level rises

of 20cm and 1.4m, corresponding to atmospheric temperature increases of 1.5 °C and 4.5 °C respectively. 其中有关键词 **figures**, 也有具体的数字。与选项一一对应, 应该对应 H, 意思是估算的数字。

17. I

此题较难。通读全段, 因为第二句是个包含 **For example** 的句子, 第一句肯定是主题句。与选项一一对应, 发现看得一头雾水。说明这句话比较难理解。此段的最后一句:

Conventional models of sea-level rise have considered that this is the only method, but measurements have shown that the rate of heat transfer into the ocean by vertical diffusion is far lower in practice than the figures that many modellers have adopted.

这句比较长, 也不好理解, 重点看后面句子中 **have shown that** 之后的宾语从句。其中有关键词: **diffusion**。

18. E

此题较难, 通读全段, 没有明显的主题句。实际上, 本段的主题句为最后一句:

This process is advection—the transport of properties (notably heat and salinity in the ocean) by the movement of bodies of air or water, rather than by conduction or diffusion.

关键词为 **advection**。

19. A

通读全段, 没有明显的主题句。如果阅读有困难, 把第一句当成是主题句。第一句: Massive ocean currents called gyres do the moving.

关键词为 **gyres**。

20. C

通读全段, 没有明显的主题句。如果阅读有困难, 把第一句当成是主题句。第一句:

Water itself is heated at the Equator and moves poleward, twisted by the Earth's rotation and affected by the positions of the continents.

中文意思是: 水在赤道被加热, 向两极移动, 与地球的自转相反, 并受陆地位置的影响。

Questions 21-22

题型: 选择题 (四选一)

21. C

先读题目, 注意选项 D 中有特殊词 **100**, 依据它很容易定位到第一段中的句子:

We cannot say definitely that the temperature rises are due to the greenhouse effect; the heating may be part of a “natural” variability over a long time-scale that we have not yet recognised in our short 100 years of recording.

中文意思是: 我们不能确定温度升高是由于温室效应引起的。这种热量可能是我们短短 100 多年的记录所不能认识到的一种自然的变化。

注意技巧: 包含数字的选项是正确选项的可能性很小, 但可以作为定位到原文的依据。

22. D

先读题目，从第 21 题的答案处开始阅读，对应到原文第 2 段中的最后一句：

But the oceans are not one-dimensional, and recent work by oceanographers, using a new model which takes into account a number of subtle facets of the sea—including vast and complex ocean currents, suggests that the rise in level may be less than some earlier estimates had predicted.

这句比较复杂，是一个并列复合句。该句 and 后面的句子的主干是：work suggests that the rise in level may be less than some earlier estimates had predicted. 抓住这个主干，不难看出，答案 D 就是它的改写。

这两道选择题有一定的难度，难度主要在于原文句式复杂，而不在于选项的迷惑性。

Question 23

题型：选择题（多选多）

23. B、C、E

先读题目，从原文第 22 题的答案处开始阅读，对应第 3 段中的句子：

This model only takes into account the temperature effect on the oceans; it does not consider changes in sea level brought about by the melting of ice sheets and glaciers, and changes in groundwater storage.

中文意思是：这个模型只考虑了对海洋的温度的影响，没有考虑冰块和冰原的融化对海平面的影响，以及地下水存储的变化。

其中：C 是 the temperature effect on the oceans 的改写，B 是 changes in sea level brought about by the melting of ice sheets and glaciers 的改写，E 是 changes in groundwater storage 的改写。

Questions 24-28

题型：T/F/NG

24. NI

有的同学从文章的第一句：The average air temperature at the surface of the earth has risen this century, as has the temperature of ocean surface waters.

判断此题为 T，实际上是错误理解了该句的意思。该句是倒装句式，中文意思是：这个世纪以来，地球表面的空气的平均温度上升了，海水表面的温度也一样。其中 as 是“也一样”的意思，并不表示原因。实际此题的答案应该从原文第 23 题的答案处开始寻找。

25. T

先读题目，关键词为 advection，从原文第 23 题的答案处开始阅读，对应到原文第 5 段中的句子：

This process is advection—the transport of properties (notably heat and salinity in the ocean) by the movement of bodies of air or water, rather than by conduction or diffusion.

26. F

先读题目，关键词为 **gyre**，从原文第 25 题的答案处开始阅读，对应原文第 6 段的第 2 句：

These currents have far more capacity to store heat than does the atmosphere.

原文是 **far more**，题目是 **less than**，题目与原文直接相反。

27. T

先读题目，关键词为 **subduction**，从原文第 26 题的答案处开始阅读，对应原文第 7 段中的句子：

The convergence of water of different densities from the Equator and the Poles deep in the oceans causes continuous subduction.

28. F

先读题目，从原文第 27 题的答案处开始阅读，对应原文第 8 段中的句子：

Because warm water expands more than cold when it is heated, scientists had presumed that the sea level would rise unevenly around the globe.

原文是 **unevenly**，题目是 **evenly**，题目与原文直接相反。

这篇文章很难，句式复杂，而且涉及的内容很生僻。但实际上题目并不难，按照我们所讲述的方法，还是能够找到大部分题目的答案的。而如果先理解文章，再做题目，则很困难。这再次证明了“双向阅读法”的重要性。

31. F

32. G

先读题目，然后仔细阅读原文的第 1 段，对应到第 1 段中的句子：

Strong demand will be underpinned by the growing industrialization of Southeast Asia, the re-emergence of paper packaging, greater use of facsimile machines and photocopiers, and the popularity of direct-mail advertising.

其中 4 个因素 re-emergence of paper packaging 对应 B；facsimile machines 对应 E；photocopiers 对应 G；the popularity of direct-mail advertising 对应 F。

Questions 33-35

题型：完成句子

特殊要求：NO MORE THAN THREE WORDS FROM THE TEXT

有利信息：答案在原文的第 2、3、4 段中找。

33. cleaner industrial production

先读题目，题目中的关键词为：international community 和 demand，从原文第 2 段开始阅读，对应到原文第 2 段中的句子：

But what has radically altered the industry's structure is pressure from another front — a more environmentally conscious society driving an irreversible move towards cleaner industrial production.

原文和题目的对应如下：

原 文	题 目
society	international community
move towards	demand

34. economic prosperity

先读题目，从原文第 33 题的答案处开始阅读，对应到原文第 3 段中的句子：

The environmental effects were at the time either not understood, or regarded as an acceptable cost of economic prosperity in an increasingly import-oriented world economy.

原文和题目的对应如下：

原 文	题 目
at the time	in the past
cost	price

35. the environmental effects

先读题目，从原文第 34 题的答案处开始阅读，对应原文第 4 段中的句子：

原文和题目的对应如下：

原 文	题 目

这三道完成句子题，有一定的难度，主要是因为原文和题目之间的对应不明显。

The Nature of Disputes

To resolve a dispute means to turn opposing positions into a single outcome. The two parties may choose to focus their attention on one or more of three basic factors. They may seek to (1) reconcile their interests, (2) determine who is right, and / or (3) determine who is more powerful.

➡ Section A

Interests are needs, desires, concerns, fears—the things one cares about or wants. They

provide the foundation for a person's or an organisation's position in a dispute. In a dispute, not only do the interests of one party not coincide with those of the other party, but they are in conflict. For example, the director of sales for an electronics company gets into a dispute with the director of manufacturing over the number of TV models to produce. The director of sales wants to produce more models because her interest is in selling TV sets; more models mean more choice for consumers and hence increased sales. The director of manufacturing, however, wants to produce fewer models. His interest is in decreasing manufacturing costs and more models mean higher costs.

➡ Section B

Reconciling such interests is not easy. It involves probing for deeply rooted concerns, devising creative solutions, and making tradeoffs and compromises where interests are opposed. The most common procedure for doing this is negotiation, the act of communication intended to reach agreement. Another interestsbased procedure is mediation, in which a third party assists the disputants, the two sides in the dispute, in reaching agreement.

➡ Section C

By no means do all negotiations (or mediations) focus on reconciling interests. Some negotiations focus on determining who is right, such as when two lawyers argue about whose case has the greater merit. Other negotiations focus on determining who is more powerful, such as when quarrelling neighbours or nations exchange threats and counter threats. Often negotiations involve a mix of all three—some attempts to satisfy interests, some discussion of rights, and some references to relative power.

➡ Section D

It is often complicated to attempt to determine who is right in a dispute. Although it is usually straightforward where rights are formalised in law, other rights take the form of unwritten but socially accepted standards of behaviour, such as reciprocity, precedent, equality, and seniority.

There are often different—and sometimes contradictory—standards that apply to rights. Reaching agreement on rights, where the outcome will determine who gets what, can often be so difficult that the parties frequently turn to a third party to determine who is right. The most typical rights procedure is adjudication, in which disputants present evidence and arguments to a neutral third party who has the power to make a decision that must be followed by both disputants. (In mediation, by contrast, the third party does not have the power to decide the dispute.) Public adjudication is provided by courts and administrative agencies. Private adjudication is provided by arbitrators.

➡ Section E

A third way to resolve a dispute is on the basis of power. We define power, somewhat narrowly, as the ability to pressure someone to do something he would not otherwise do. Exercising power typically means imposing costs on the other side or threatening to do so. The exercise of power takes two common forms: acts of aggression, such as physical attack, and withholding the benefits that derive from a relationship, as when employees stop working in a strike.

➡ Section F

In relationships of mutual dependence, such as between labour and management or within an organisation or a family, the question of who is more powerful turns on who is less dependent on the other. If a company needs the employees' work more than employees need the company's pay, the company is more dependent and hence less powerful. How dependent one is turns on how satisfactory the alternatives are for satisfying one's interests. The better the alternative, the less dependent one is. If it is easier for the company to replace striking employees than it is for striking employees to find new jobs, the company is less dependent and thereby more powerful. Determining who is the more powerful party without a decisive and potentially destructive power contest is difficult because power is ultimately a matter of perceptions.

Reading Passage 2

You are advised to spend about 20 minutes on Questions 16-27 which are based on Reading Passage 2 below.

AUTOMOBILES VS. PUBLIC TRANSPORT

Public transport plays a central role in any efficient urban transport system. In developing countries, where at least 16 cities are expected to have more than 12 million people each by the end of this decade, failing to give priority to public transport would be disastrous.

The term “public transport” covers many different types of vehicles, but most commonly refers to buses and trains. Rail services fall into four major categories: rapid rail (also called the underground, tube, metro, or subway), which operates on exclusive rightsofway in tunnels or on elevated tracks; trams, which move with other traffic on regular streets; light rail, which

is a quieter, more modern version of trams that can run either on exclusive rightsofway or with other traffic; and suburban or regional trains, which connect a city with surrounding areas.

The recent trend in many cities is toward light rail over “heavy” rapidrail systems. Whereas metros require exclusive rightsofway, which often means building costly elevated or underground lines and stations, light rail can be built on regular city streets.

The concept of public transport also includes organised car pools, in which several people share the cost of riding together in the same private automobile. For U.S. commuters in areas with inadequate bus and train services, this is the only “public” transport option. But even where other systems are comprehensive, there is vast potential for car pooling; recent research shows that in cities the world over, private cars during commuting hours on average carry just 1.2-1.3 persons per vehicle.

Public transport modes vary in fuel use and emissions and in the space they require, but if carrying reasonable numbers of passengers, they all perform better than singleoccupant private cars on each of these counts.

Although energy requirements vary according to the size and design of the vehicle and how many people are on board, buses and trains require far less fuel per passenger for each kilometre of travel. In the United States, for example, a lightrail vehicle needs an estimated 640 BTUs of energy per passenger per kilometre; a city bus would use some 690 BTUs per passengerkilometre; and a car pool with four occupants 1,140 BTUs. A singleoccupant automobile, by contrast, burns nearly 4,580 BTUs per passengerkilometre.

The pollution savings from public transport are even more dramatic. Since both rapid and light rail have electric engines, pollution is measured not from the motor exhaust, but from the power plant generating electricity, which is usually located outside the city, where air quality problems are less serious. For typical U.S. commuter routes, rapid rail emits 30 grams of nitrogen oxides for every 100 kilometres each rail passenger travels, compared with 43 grams for light rail, 95 grams for transit buses, and 128 grams for singleoccupant automobiles. Public transport’s potential for reducing hydrocarbon and carbon monoxide emissions is even greater.

Although diesel buses—especially in developing countries—can be heavy polluters, existing technologies, such as filters, can control their exhaust. Buses can also run on less polluting fuels such as propane (used in parts of Europe) and natural gas (used in Brazil and China).Test buses in the Netherlands that run on natural gas are estimated to emit 90 percent less nitrogen oxide and 25 percent less carbon monoxide than diesel engines do.

In addition to reducing fuel consumption and pollution, public transport saves valuable city space. Buses and trains carry more people in each vehicle and, if they operate on their own rightsofway, can safely run at much higher speeds. In other words, they not only take up less space but also occupy it for a shorter time. Thus, comparing ideal conditions for each mode in one lane of traffic, an underground metro can carry 70,000 passengers past a certain point in one hour, light rail can carry up to 35,000 people, and a bus, just over 30,000.

By contrast, a lane of private cars with four occupants each can move only about 8,000 people an hour, and without such carpooling the figure is, of course, far lower.

The availability and use of public transport vary widely in cities around the globe. Since variations in distances and city densities affect the total kilometres of travel, the annual number of trips each person takes by public transport provides a better standard for comparing its importance in various cities. The range of frequency of public transport use is shown in Table 1.

Urban public transport has long been a government priority in Western Europe. All major cities there have high car ownership, but welldeveloped bus and rail systems are available, and overall public transport typically accounts for between 20 and 30 percent of passengerkilometres. In recent years, several large cities have stepped up their commitment to public transportation, combining further investments with complementary policies to restrict auto use.

Public transport also plays an important role in urban areas of the Third World. In many cities in Asia, Latin America, and Africa, buses make 50—80 percent of all motorised trips. Buses are sometimes hopelessly overcrowded; it is not uncommon to see several riders clinging to the outside. Yet most Third World cities have lower public transport use per person than those in Western Europe, reflecting the inability of small bus fleets to keep up with population growth.

Among the world's major cities, those in Australia and the United States make the least use of alternatives to the private car. Indeed, less than 5 percent of U.S. trips are by public transport, but in some cities such as New York City and Chicago, where service is provided extensively, it is used heavily. Indeed, nearly one quarter of the entire country's public transport trips are in New York City.

Questions 16-20

Below is a summary of some of the main points of "Automobiles vs Public Transport".

Read the summary and select a word or phrase from the box below to fill each gap according to the information in the Reading Passage.

Write the corresponding letter (A, B, ...N) in boxes 16-20 on your answer sheet.

N.B.: There are more words and phrases than you will need to fill the gaps. You may use a word or phrase more than once if you wish.

KEY POINTS: AUTOMOBILES VS. PUBLIC TRANSPORT

The obvious advantages of public transport include lowering 16 and reducing exhaust emissions. Another important benefit is the amount of space that is taken up. This is measured by determining the number of 17 that pass a particular point under ideal conditions. As would be expected, public transport vehicles perform very well under these criteria. However, the success of public transport depends more importantly on its 18. A 1989 survey revealed that 19 was the city in which the greatest number of trips per person were made on an annual basis. Interestingly, there is no clear correlation between acceptance of public transport and the degree of 20 of a country or city.

Reading Passage 3

You are advised to spend about 20 minutes on Questions 28-39 which are based on Reading Passage 3 below.

Pupil Size and Communication

It has already been well established that changes in pupil size are clearly associated with changes in attitude. In a typical example, when viewing photographs of food, hungry subjects experience a much greater increase in pupil diameter than do sated subjects (see Figure 1) However, it now appears that enlarged or constricted pupils can also affect the response of the person who observed them.

Studies of the pupil as an indicator of attitude point to the possibility that one person uses another person's pupil size as a source of information about that person's feelings or attitudes. In one experiment two photographs of an attractive young woman were shown to a group of men. The photographs were identical except that in one the woman's pupils had been retouched to make them larger and in the other they had been retouched to make them smaller. None of the men reported noticing the difference in pupil size, but when they were asked to describe the woman, they said that the women in the picture with the large pupils was "soft" "more feminine" or "pretty". The same woman in the picture with the small pupils was described as being "hard" "selfish" or "cold". There could be little doubt that the large pupils made the woman more attractive to the men.

It seems that what is appealing about large pupils in a woman is that they are an indicator of interest, which can be interpreted as sexual interest. However, when men view a picture of a woman with large pupils, their own pupils dilate. In other words, seeing large pupils gives rise to larger pupils. Interestingly, men and women showed almost no increase in pupil size when viewing photographs of members of the same sex with dilated pupils.

That the dilation response is in fact learned rather than innate is supported by

experiments with children. In one experiment, subjects aged 6 to 22 were shown drawings of female faces that had different sized pupils, and asked to choose the one which was “happier”. The results showed that, up to the age of 14, a person does not necessarily perceive larger pupils as being happier than smaller pupils (see Figure 2).

Of particular interest was another finding by McLean: blueeyed subjects were more likely to judge large pupils as being happy and than browneyed subjects. This finding was confirmed when another group of subjects were asked to fill in the pupils on drawings of happy faces and angry ones: the blueeyed subjects drew larger “happy” pupils and smaller “angry” pupils than the browneyed subjects (see Figure 3).

Blueeyed people have also been found to have a stronger pupil response than brown-eyed people when they view a picture that causes pupil dilation or constriction. To be more precise, with respect to the total range of response from the smallest pupil size to the largest, the range is greater for blueeyed people than it is for brown-eyed people.

答案及详解

Reading Passage 1

Questions 1-5

题型：找段落的小标题

1. xii

Section A, 通读全段, 段落中有一句是 **for example** 句型, 它前面的句子是主题句, 也就是本段的第 3 句:

In a dispute, not only do the interests of one party not coincide with those of the other party, but they are in conflict.

中文译文: 在一个纠纷中, 不仅一方的利益与另一方不一致, 而且它们是冲突的。

对照选项列表, 本段话的 **Heading** 是 xii。

2. vi

Section B, 通读全段, 本段话的第 1 句:

Reconciling such interests is not easy.

中文译文: 使利益一致是不容易的。

根据前面讲的规律, 这句话是该段话的主题句。

本段的 **Heading** 是 vi **Methods of settling conflicting interests** (解决冲突利益的方法)。

3. ii

Section D, 通读全段, 没有明显的主题句。如果理解全段有困难, 把本段话的第 1 句当作是该段话的主题句 (实际上, 它确实也是本段话的主题句):

It is often complicated to attempt to determine who is right in a dispute.

中文译文: 试图决定谁在冲突中是正确的通常很复杂。

与选项一一对应, 正确答案为 ii **Handling rightsbased disputes** (处理基于对错的冲突)。

4. xi

Section E, 通读全段, 没有明显的主题句。如果理解全段有困难, 把本段话的第 1 句当作是该段话的主题句 (实际上, 它确实也是本段话的主题句):

A third way to resolve a dispute is on the basis of power.

中文译文: 解决冲突的第 3 种方法是基于力量。

关键词是 **power**。与选项一一对应, 正确答案为 xi **The role of power in settling disagreements** (力量在解决冲突中的作用)。

5. iv

Section F, 通读全段, 没有明显的主题句。如果理解全段有困难, 把本段话的第 1 句当作是该段话的主题句(实际上, 它确实也是本段话的主题句):

In relationships of mutual dependence, such as between labour and management or within an organisation or a family, the question of who is more powerful turns on who is less dependent on the other.

中文译文: 在相互依赖的关系中, 例如, 劳资关系或在一个家庭或一个组织中, 谁更有力量的问题就转换成谁更少依赖于另一方。

本句比较复杂, 中间有一个较长的插入语, 可先略去不读。关键词是 **dependence** 和 **dependent**。与选项一一对应, 正确答案为 iv The role of dependence in disputes (依赖性在冲突中的作用)。

Questions 6-11

题型: 特殊题型

其他文章不会出现这个题型, 考查对文章的理解。文章中论述了解决冲突的 3 种方法, 分别是:

A: 利益达成一致, 包括谈判 (negotiation) 和调解 (mediation);

B: 决定谁对谁错, 通常的方法是裁决 (adjudication);

C: 决定谁更有力量。

在调解和裁决中, 都有第三方的参与。在调解中, 第三方帮助双方达成一致, 没有权力做出决定。在裁决中, 第三方有权力做出决定, 双方必须遵照决定执行。

把这三种方法搞清楚了(这个比较难), 再把每个题目的意思搞清楚(这个比较容易), 这几个题目就不难做了。

6. C

容易误答为 A。题目中只说“母亲接受了这场婚姻, 因为她想和儿子重建好的关系”, 并没有提到儿子的看法。说明, 母亲更依赖于她的儿子, 或者说她的儿子更有力量。母亲和儿子不一定达成了一致。

7. A

属于谈判。

8. B

容易误答为 C。第三方联合国做出决定: 这块土地应该给国家 A, 因为更强的社会和历史联系说明, 在这个问题上, 国家 A 是对的。这个决定双方必须遵照执行, 这是裁决。在 C (决定谁更有力量) 中, 一般是没有第三方的。

9. A

属于调解。

10. B

是裁决。第三方法院有权力做出决定, 双方必须遵照执行。

11. C

雇主更有力量, 雇员依赖于雇主。

Questions 12-15

题型：完成句子

这篇文章在前面有“找段落的小标题”这个题型，在定位时，将题目中的关键词，与找出的段落的小标题相对照，先定位到原文中的一个段落。注意：题目中有字数要求：NO MORE THAN THREE WORDS。

12. negotiation, mediation

题目中的关键词是 **resolution** 和 **interestbased**，与找出的段落的小标题相对照，对应原文 **Section B**。阅读该段，再根据题目中的其他关键词 **common procedures** 确定答案为 **negotiation** 和 **mediation**。此题有两个空格，两个词算一个答案，必须都正确。目前考试中，绝大多数题目都只有一个空格。

13. formalised in law

此题比较难。题目中的关键词是 **rights**，与找出的段落的小标题相对照，对应原文 **Section D**。阅读该段，再根据题目中的其他关键词 **relatively simple process**，找到该段中的句子：**it is usually straightforward where rights are formalised in law**，确定答案为 **formalised in law**。其中，原文中 **straightforward**（直截了当的）与题目中的关键词 **relatively simple process** 相对应，此题反映了目前考试中这种题型的特点，即对应不明显。

14. reciprocity, precedent

此题比较容易。先根据题目中的关键词 **who is right**，与找出的段落的小标题相对照，对应到原文 **Section D**。阅读该段，再根据题目中的其他关键词 **behavioural** 和 **such as**，找到 **Section D** 中第一段的最后一句：**other rights take the form of unwritten but socially accepted standards of behaviour, such as reciprocity, precedent, equality, and seniority**。答案为 **reciprocity, precedent, equality, seniority** 中任选两个。因为题目中有字数要求：NO MORE THAN THREE WORDS，此题两个空格算一个题目，所以四个词都写是不对的。

15. evidence, arguments

此题是一道难题，首先根据题目中的关键词，与找出的段落的小标题相对照，不好定位到一个段落。只有根据顺序性，从第 14 题的答案向后找。正确答案来自 **Section D** 中第 2 段的一句：**The most typical rights procedure is adjudication, in which disputants present evidence and arguments to a neutral third party who has the power to make a decision that must be followed by both disputants**。答案为 **evidence** 和 **arguments**，对应同样不明显。原文的意思是：最典型的判断对错的方法叫裁决，在裁决中，冲突双方拿出证据和论据给一个中立的第三方，它有权做出决定，冲突双方必须遵守。题目的意思是：仲裁人和裁决人在帮助解决冲突之前，必须从冲突方那里得到证据和论据。

Reading Passage 2

Questions 16-20

题型：摘要填空

先看题目的要求，主要有以下几点：从选项中选词，选项前有代表字母。

仔细阅读摘要的第 1 句话，与原文第 9 段话的第 1 句相对应：**In addition to reducing fuel**

consumption and pollution, public transport saves valuable city space. 各题的答案应从这里开始找。

16. K

对应原文第 9 段的第 1 句, 答案为 K。注意不要答成 C, 公共交通降低的是燃料的消费, 而不是燃料的效率, 它提高了燃料的效率。

17. G

空格前后的词: pass a particular point under ideal conditions, 对应原文中的句子: carry 70,000 passengers past a certain point in one hour, 答案为 G, 注意不要答成 A, 因为原文中有 in one hour, 此题有一定的难度, 属于陷阱题。

18. M

这是这几题中最难的。对应原文第 10 段中: Since variations in distances and city densities affect the total kilometres of travel, the annual number of trips each person takes by public transport provides a better standard for comparing its importance in various cities. The range of frequency of public transport use is shown in Table 1. 中文意思是: 因为距离和城市密度的不同影响了旅行的总公里数, 每年每人使用公共交通的旅行次数, 提供了在各城市中比较它的重要性的更好标准。公共交通使用的频率如表 1 所示。答案为 M。

19. B

是这几题中最简单的, 答案来自图表, 为 B。

20. J

答案是归纳出来的。原文倒数第 3 段的第 1 句: Urban public transport has long been a government priority in Western Europe. 中文意思是: 城市公共交通在西欧一直是政府优先考虑的事。原文倒数第二段的第一句: Public transport also plays an important role in urban areas of the Third World. 中文意思是: 公共交通在第三世界国家的城市区域起到重要的作用。结合这两句话, 可以归纳出题目中的表述: Interestingly, there is no clear correlation between acceptance of public transport and the degree of economic development of a country or city. 中文意思是: 有趣的是, 公共交通的接受程度和国家及城市的经济发展程度之间没有清楚的联系。

Questions 21-25

题型: 问答题

21. less costly

题目中的关键词是 “light rail preferable to rapid rail water”, 对应原文第 3 段的第 1 句: The recent trend in many cities is toward light rail over “heavy” rapidrail systems. 第 3 段共两句话, 但不好确定答案。文中说, metros (即 “heavy” rapidrail) 要求建造花费很高的 (costly) 地上或地下的线路和车站, 而 light rail 则不需要, 所以, 得出答案为 less costly。

22. carrying more passengers / more passengers

题目问 rapidrail 超过 light rail 的方面。可从原文第 7 段得出答案 less pollution, 也可从第 9 段得出答案 carrying more passengers 或 more passengers。

23. power plant

题目中的关键词是“pollution”，对应原文第7段的第1句：The pollution savings from public transport are even more dramatic. 该段第2句中有 pollution is measured not from the motor exhaust, but from the power plant generating electricity，意思是：污染不是从废气中测量，而是从产生电力的发电厂测量。答案应为 power plant。

24. 1.2 ~ 1.3

题目问：在上下班时间（commuting hours），小汽车中人的平均数目。应对应到原文的第4段，答案在该段的最后一句，为 1.2 ~ 1.3。

25. 70% ~ 80%

题目中的关键词是“Western Europe”，对应原文倒数第3段的第1句：Urban public transport has long been a government priority in Western Europe，阅读该段话，找到段中的句子：overall public transport typically accounts for between 20 and 30 percent of passengerkilometres，注意原文说的是公共交通占 20% ~ 30%，题目问的是私人小汽车所占的比例，答案为 70% ~ 80%。

Questions 26-27

题型：填图填表

注意题目要求填的是相应的排位而不是具体的数字。

26. 213

根据题目中的关键词 Fuel Efficiency，对应到原文第6段。

27. 324

根据题目中的关键词 emissions，对应到原文第7段或第8段。

即使对应不到原文的段落，直接寻找数字，也比较容易。

Reading Passage 3

Questions 28-34

题型：特殊题型

和 T / F / NG 有一点类似。每个题目有两个 measure，根据原文判断它们的关系。

PC：两个 measure 有正面的联系。

L / N：两个 measure 没有或者几乎没有关系。

NI：原文没有提供相应信息。

28. PC

对应原文第1段：

In a typical example, when viewing photographs of food, hungry subjects experience a much greater increase in pupil diameter than do sated subjects (see Figure 1).

29. PC

对应原文第3段：

However, when men view a picture of a woman with large pupils, their own pupils dilate.

In other words, seeing large pupils gives rise to larger pupils.

dilate 是“扩大，膨胀”的意思，如果不认识这个词，从下一句中也能猜测出来。

30. L / N

对应原文第 3 段：

Interestingly, men and women showed almost no increase in pupil size when viewing photographs of members of the same sex with dilated pupils.

31. PC

对应原文第 2 段：

The same woman in the picture with the small pupils was described as being “hard” “selfish” or “cold”.

32. NI

注意：不要主观猜测。原文中说了：男人和女人在看同性成员放大瞳孔的照片时，自己瞳孔大小几乎没有增加（参见第 30 题）。本题说的是照片中小的瞳孔，原文中没有提及这方面的内容。

33. L / N

对应原文第 4 段：

The results showed that, up to the age of 14, a person does not necessarily perceive larger pupils as being happier than smaller pupils (see Figure 2).

34. NI

注意：原文说的是实验对象（就是看照片的人）瞳孔的颜色，题目说的是照片中瞳孔的颜色。

Questions 35-39

题型：问答题

35. steak & potatoes

答案来自 Figure 1。

36. steak & potatoes

答案来自 Figure 1。

37. sexual interest

对应原文第 3 段：

It seems that what is appealing about large pupils in a woman is that they are an indicator of interest, which can be interpreted as sexual interest.

38. learned

对应原文第 4 段：

That the dilation response is in fact learned rather than innate is supported by experiments with children.

39. stronger 或 greater

对应原文最后一段。

注意：如果文章中有包含数据的图，会有题目的答案来自这些图。

**Reading Passage 1**

You are advised to spend about 20 minutes on Questions 1-12 which are based on Reading Passage 1 below.

Fanwall Noise Barrier

Noise generated by traffic on arterial roads and freeways is an increasing problem in Australia and there is growing concern among highways authorities in Australia about the limitations of some types of noise barriers which have been installed in this country.

The Roads and Traffic Authority (RTA) in Sydney faced a problem when it decided to proceed with the link between Concord Road at Rhodes and the F4 Freeway at Homebush (Country Road 5030) as the new arterial would deliver heavy traffic right past the backyards of suburban homes. This was because the RTA had purchased and removed a number of houses to allow the new corridor to be built, exposing road traffic noises to houses which were once located in a quiet back street.

Initially, the RTA had proposed to erect a new timber fence, replacing the existing suburban fences, to act as a noise barrier. Timber noise barriers were used quite extensively on the recently constructed F3 Freeway link from Pearce's Corner to Berowra. However, RTA engineers have become more acutely aware of noise and the problems which arise if ineffective noise barriers are installed. They also appreciate the benefits of early consultations with the affected residents and local councils.

Residents of the area were fully briefed on the appearances, the performance and the benefits of various types of noise barriers. The majority opted for the Fanwall barrier, which also provides security advantages to the householders.

The Fanwall barrier to be installed at Rhodes is the first to be erected in Australia. Fanwall barriers have been used in the United States and have been very effective at noise attenuation with up to 10 dBA reduction in noise level reached at L.A. International Airport. Similar success has been achieved in various highway projects right across the USA.

In the USA, concrete has proved to be the most popular material for constructing noise barrier walls. As is happening in Australia, early barrier designs opted for low timber barriers selected largely on the basis of cost. However, low barriers are not effective and high timber barriers have become much more expensive. Add to this the poor durability of timber fences and the combination of initial capital cost, maintenance costs and replacement cost quickly makes timber barriers very expensive.

The advantages of concrete include low capital cost and durability. Furthermore, concrete barriers can be engineered for a variety of site condition and architectural finishes can be applied to enhance aesthetics. Careful landscaping provides the final touch.

Fanwall is a two-component, modular, free-standing pre-cast concrete noise barrier

which can be cheaply and quickly erected on a variety of foundation conditions. The wall is engineered to be stable under design wind load conditions while maintaining relatively low bearing pressures on the foundation soils. Therefore, like the timber barriers, the Fanwall barrier can be built without expensive concrete footings or piles, speeding the construction time up and reducing costs. Furthermore, Fanwall is maintenance free and it is not susceptible to damage by fire and vandalism.

Because the Fanwall barriers are engineered into a modular form, construction is easily staged. At Rhodes, the Fanwall noise barrier will be built in three stages commencing in mid August. Staging will enable further consultation with local residents and allow access to be maintained across the site via local roads. However, most importantly, the greater proportion of the barrier will be in place prior to the road corridor being constructed, reducing the effect of construction noise.

Figure1. How Noise Barriers Work

- I (A) There is a direct line of sight between the noise source and the receiver. What can be seen can be heard.
- I (B) Line of sight has been broken, creating an insertion loss of noise energy.

Parenting and Responsibility

➡ Section A

There are still significant gaps between women and men in terms of their involvement in family life, the tasks they perform and the responsibilities they take. Yet, at least in developed Western countries, both women and men express a desire for greater equality in family life. It is evident that in terms of attitudes and beliefs, the problem cannot simply be thought of in terms of women wanting men to share more equally and men being reluctant to do so. The challenge now is to develop policies and practices based on a presumption of shared responsibility between men and women, and a presumption that there are potential benefits for men and women, as well as for families and the community, if there is greater gender equality in the responsibilities and pleasures of family life. These are becoming key concerns of researchers, policy makers, community workers and, more importantly, family members themselves.

➡ Section B

Despite the significant increase in the number of women with dependent children who are in the paid workforce, Australian research studies over the last 15 years are consistent in showing that divisions of labour for family work are very rigid indeed (Watson 1991). In terms of time, women perform approximately 90 percent of child care tasks and 70 percent of all family work, and only 14 percent of fathers are highly participant in terms of time spent on family work (Russell 1983). Demo and Acock (1993), in a recent US study, also found that women continue to perform a constant and major proportion of household labour (68 percent to 95 percent) across all family types (first marriage, divorced, step-family or never married), regardless of whether they are employed or non-employed in paid work.

➡ Section C

Divisions of labour for family work are particularly problematic in families in which both parents are employed outside the home (dual-worker families). Employed mothers adjust their jobs and personal lives to accommodate family commitments more than employed fathers do. Mothers are less likely to work overtime and are more likely to take time off work to attend to children's needs (Vanden Heuvel, 1993). Mothers spend less time on personal leisure activities than their partners, a factor that often leads to resentment (Demo and Acock, 1993).

➡ Section D

The parental role is central to the stress-related anxiety reported by employed mothers, and a major contributor to such stress is their taking a greater role in child care (Vanden Heuvel 1993). Edgar and Glezer (1992) found that close to 90 percent of both

husbands and wives agreed that the man should share equally in child care, yet 55 percent of husbands and wives claimed that the men actually did this. (These claims are despite the findings mentioned earlier that point to a much lower participation rate by fathers.) A mother's wanting her partner to do more housework and child care is a better predictor of poor family adjustment than is actual time spent by fathers in these tasks (Demo and Acock, 1993). It is this desire, together with its lack of fulfillment in most families, that bring about stress in the female parent.

➡ Section E

Family therapists and social work researchers are increasingly defining family problems in terms of a lack of involvement and support from fathers and are concerned with difficulties involved in having fathers take responsibility for the solution of family and child behaviour problems (Edgar and Glezer 1986). Yet, a father accepting responsibility for behaviour problems is linked with positive outcomes.

➡ Section F

Research studies lend strong support to the argument that there are benefits for families considering a change to a fairer or more equitable division of the pleasures and pains of family life. Greater equality in the performance of family work is associated with lower levels of family stress and higher self-esteem, better health, and higher marital satisfaction for mothers. There is also higher marital satisfaction for fathers, especially when they take more responsibility for the needs of their children-fathers are happier when they are more involved (Russell, 1984).

Questions 18-26

Below is a list of research findings mentioned in Reading Passage 2.

Indicate which researcher (s) are responsible for each research finding:

DA	Demo and Acock
EG	Edgar and Glezer
R	Russell
VH	Vanden Heuvel
W	Watson

Write the appropriate letters (DA, EG, R, VH, or W) in boxes 18- 26 on your answer sheet.

Research Findings

Example

Answer

Fathers spend more time than mothers on personal leisure activities. DA

18. The number of hours a father spends doing child care is not the best indicator of how well the family is adjusted.
19. The vast majority of fathers do not take part to any great extent in family work.
20. Women do the majority of housework whether they are married or not.
21. With regard to the issue of equal responsibility for child care, there is a discrepancy between the wishes and the claims of parent couples.
22. Both mothers and fathers are happier where the father assumes some responsibility for issues relating to the behaviour of the children.
23. Researchers now link family problems to fathers' lack of involvement in rearing children.
24. In terms of dealing with family issues, employed fathers make fewer sacrifices in their jobs than do working women.
25. Anxiety results from the mother being the primary care giver.
26. There has been little recent change in the housework and child care roles of mothers and fathers.

Question 27

Write the appropriate letter (A, B, C, or D) in box 27 on your answer sheet.

27. In "Parenting and Responsibility", the writer's main aim is to _____.
 - A. argue that a division of labour in parenting is equitable.
 - B. argue for increased participation in parenting by working men and women.
 - C. discuss the differences in the contributions of men and women to the job of parenting.
 - D. describe the composition of modern families.

Reading Passage 3

You are advised to spend about 20 minutes on Questions 28-40 which are based on Reading Passage 3 below.

Fermented Foods for Babies

Malnutrition during weaning age—when breast milk is being replaced by semi-solid foods—is highly prevalent in children of poor households in many developing countries. While the etiology is complex and multifactorial, the immediate causes are recognized as feeding at less than adequate levels for child growth and development, and recurrent infections, including diarrhoea, resulting mainly from ingestion of contaminated foods. As a result, many young children, particularly between six months to two years of age, experience weight loss

and impaired growth and development.

Studies by investigators in various countries have concentrated on traditional food preparation methods and have resulted in offering cheap and practical answers to these problems based on familiar, indigenous and culturally acceptable home processing practices.

Two such answers have arisen. Firstly, cereal fermentation is used for reducing the risk of contamination under the existing inappropriate conditions for food preparation and storage in many households. Secondly, a tiny amount of sprouted grains flour is used in preparation of weaning foods as a magic way to lessen the viscosity without decreasing energy density.

A method to eliminate pathogenic bacteria and inhibit their growth during storage of weaning preparations can benefit nutrition and health in young children considerably. Use of fermented foods for feeding children of weaning age appears to be an effective solution. Fermented foods have lower levels of diarrhoeal germ contamination, they are suitable for child feeding, and can be safely stored for much longer periods of time than fresh foods. The practice has been a traditional way of food preservation in many parts of the world. The anti-microbial properties of fermented foods and their relative higher safety—documented since the early 1900's—have been indicated in a number of studies.

In Ghana, it is common to ferment maize dough before cooking it as porridge. In Kenya, cereal-based porridge and milk are traditionally fermented. Preserving milk in the form of yoghurt has been known to many households living in hot climates.

What are the underlying mechanisms by which fermentation processes help to prevent or reduce contamination? A possible answer suggests that during the fermentation process foods become more acid. This explains why diarrhoea-causing bacteria are not able to grow in fermented foods as rapidly as in unfermented ones. It is also hypothesized that some of the germs present in the foods are killed or inhibited from growing through the action of anti-microbial substances produced during fermentation (Dialogue on Diarrhoea, 1990). The fermented foods can, therefore, be kept for a longer time compared to fresh ones. It has been shown that while contamination levels in cooked unfermented foods increase with storage time, fermented foods remain less contaminated.

Whatever the underlying mechanisms, the fact is that the exercise reduces contamination without adding to the household cost both in terms of time and money. Its preparation is easy. The cereal flour is mixed with water to form a dough which

is left to be fermented; addition of yeast, or mixing with a small portion of previously fermented dough is sometimes needed. The dough can then be cooked into porridge for feeding to the child.

Although beneficial, unfortunately the practice is going out of fashion, partly because of current emphasis on the use of fresh foods, particularly for children. For example, a study on the use of fermented foods for young children in Kenya (Dialogue on Diarrhoea, 1990), demonstrated that while foods are still frequently fermented at home for child feeding, their use is becoming less popular, particularly in urban areas where commercial products are more available. Clearly they now need to be promoted.

Questions 28-34

Below is a summary of some of the main points of Reading Passage 3, "Fermented Foods for Babies".

Read the summary and then select the best word or phrase from the box below to fill each gap, according to the information in the Reading Passage.

Write the corresponding letter (A, B, ...N) in boxes 28-34 on your answer sheet.

N.B. *There are more words and phrases than you will need to fill the gaps. You may use a word or phrase more than once if you wish.*

Summary: Fermented Foods for Babies

Example

Answer

During (Ex.), many infants in developing countries may obtain inadequate nutrition.

M

Malnutrition and the resulting impaired growth and development in children of weaning age in developing countries results not only from 28 but also from infections caused by 29. Studies have addressed the problem of inadequate intake by using sprouted grains in food preparation. Contamination has been tackled with 30. Both of these methods are, or were, used traditionally and are practical and inexpensive.

Fermented foods have higher 31, and also have anti-microbial qualities. This means that contamination is decreased and that their 32 is increased. Fermentation occurs when 33 is left to stand, occasionally with simple additives. There is, however, a trend away from this 34 to commercial products.

Airport. Similar success has been achieved in various highway projects right across the USA.

7. A, B

8. A

9. B

10. A, B, C

11. A, B

其中，最难的三道题 7、10、11 对应于原文倒数第 2 段的最后两句话。

Therefore, like the timber barriers, the Fanwall barrier can be built without expensive concrete footings or piles, speeding the construction time up and reducing costs. Furthermore, Fanwall is maintenance free and it is not susceptible to damage by fire and vandalism.

第 8 和 9 题对应于原文第 6 段：

However, low barriers are not effective and high timber barriers have become much more expensive.

Question 12

12. B

Reading Passage 2

Questions 13-17

题型：找段落的小标题

13. vi

Section B，主题句是该段话的第 1 句：

Despite the significant increase in the number of women with dependent children who are in the paid workforce, Australian research studies over the last 15 years are consistent in showing that divisions of labour for family work are very rigid indeed (Watson, 1991).

中文译文：虽然有孩子的妇女参加工作的数目显著的上升，过去 15 年澳大利亚的研究一致的表明，家庭工作的劳动分工实际上是非常固定不变的。

这句比较复杂，不好理解。应重点看主句部分中 **showing that** 其后的宾语从句 **divisions of labour for family work are very rigid indeed**。

正确答案为：vi The unchanged role of the female parent（母亲的作用是没有改变的）。

14. iii

Section C，没有明显的主题句，需要通读全段。实际上，主题句是该段话的第 1 句：

Divisions of labour for family work are particularly problematic in families in which both parents are employed outside the home (dualworker families).

中文译文：家庭工作的劳务分工在父母都在外工作的家庭（双职工家庭）尤其有问题。

关键词是 dualworker families。所以，本段话的 Heading 是 iii The impact of dual employment

(双职工的影响)

15. xi

Section D, 没有明显的主题句, 需要通读全段。实际上, 主题句是该段话的第 1 句:

The parental role is central to the stress-related anxiety reported by employed mothers, and a major contributor to such stress is their taking a greater role in child care (Vanden Heuvel, 1993).

中文译文: 工作母亲有和压力相关的焦虑, 这种压力的主要原因是她们在照顾孩子方面责任更多。

此题是这 5 道题中最难的。如果搞不懂意思的话, 很容易误选 vii The effect of stress on the female parent (母亲压力的影响)。而实际上本段说的是压力的原因, 正确答案为: Origins of anxiety in working mothers (工作母亲焦虑的原因)。

16. ix

Section E, 没有明显的主题句, 需要通读全段。实际上, 主题句是该段话的第 1 句:

Family therapists and social work researchers are increasingly defining family problems in terms of a lack of involvement and support from fathers and are concerned with difficulties involved in having fathers take responsibility for the solution of family and child behaviour problems (Edgar and Glezer, 1986).

中文译文: 家庭问题咨询师和社会工作研究者认为, 家庭问题与缺乏父亲的参与有关, 而且他们关注让父亲们负责解决家庭和孩子行为问题的困难性。

本句特别复杂, 不好理解。但如果抓住句首的 “Family therapists and social work researchers” 以及后面谈的都是有关父亲的事, 不难选出正确答案为 ix The experts' view of the male parent's role (专家们关于父亲们的作用的观点)。

17. V

Section F, 没有明显的主题句, 需要通读全段。实际上, 主题句是该段话的第 1 句:

Research studies lend strong support to the argument that there are benefits for families considering a change to a fairer or more equitable division of the pleasures and pains of family life.

中文译文: 研究表明能够更平等地分担快乐和痛苦的家庭会受益。

本句比较复杂, 关键词是 **benefits**, **fairer** 和 **equitable**。与选项一一对应, 正确答案为 V The benefits of balanced responsibility (平衡责任的益处)。

上述各段话的主题句均为该段话的第 1 句。

Reading Passage 1

You should spend about 20 minutes on Questions 1-11 which are based on Reading Passage 1.

The Spectacular Eruption of Mount St. Helens

- A** The eruption in May 1980 of Mount St. Helens, Washington State, astounded the world with its violence. A gigantic explosion tore much of the volcano's summit to fragments; the energy released was equal to that of 500 of the nuclear bombs that destroyed Hiroshima in 1945.
- B** The event occurred along the boundary of two of the moving plates that make up the Earth's crust. They meet at the junction of the North American continent and the Pacific Ocean. One edge of the continental North American plate over-rides the oceanic Juan de Fuca micro-plate, producing the volcanic Cascade range that includes Mounts Baker, Rainier and Hood, and Lassen Peak as well as Mount St. Helens.
- C** Until Mount St. Helens began to stir, only Mount Baker and Lassen Peak had shown signs of life during the 20th century. According to geological evidence found by the United States Geological Survey, there had been two major eruptions of Mount St. Helens in the recent (geologically speaking) past: around 1900 B.C., and about 1500 A.D. Since the arrival of Europeans in the region, it had experienced a single period of spasmodic activity, between 1831 and 1857. Then, for more than a century, Mount St. Helens lay dormant.
- D** By 1979, the Geological Survey alerted by signs of renewed activity, had been monitoring the volcano for 18 months. It warned the local population against being deceived by the mountain's outward calm, and forecast that an eruption would take place before the end of the century. The inhabitants of the area did not have to wait that long. On March 27, 1980, a few clouds of smoke formed above the summit, and slight tremors were felt. On the 28th, larger and darker clouds consisting of gas and ashes, emerged and climbed as high as 20,000 feet. In April a slight lull ensued, but the volcanologists remained pessimistic. Then, in early May, the northern flank of the mountain bulged, and the summit rose by 500 feet.
- E** Steps were taken to evacuate the population. Most—campers, hikers, timber-cutters—left the slopes of the mountain. Eighty-four-year-old Harry Truman, a holiday lodge owner who had lived there for more than 50 years, refused to be evacuated, in spite of official and private urging. Many members of the public, including an entire class of school children, wrote to him, begging him to leave. He never did.

- F On May 18, at 8.32 in the morning, Mount St. Helens blew its top, literally. Suddenly, it was 1300 feet shorter than it had been before its growth had begun. Over half a cubic mile of rock had disintegrated. At the same moment, an earthquake with an intensity of 5 on the Richter scale was recorded. It triggered an avalanche of snow and ice, mixed with hot rock — the entire north face of the mountain had fallen away. A wave of scorching volcanic gas and rock fragments shot horizontally from the volcano's riven flank, at an inescapable 200 miles per hour. As the sliding ice and snow melted, it touched off devastating torrents of mud and debris, which destroyed all life in their path. Pulverised rock climbed as a dust cloud into the atmosphere. Finally, viscous lava, accompanied by burning clouds of ash and gas, welled out of the volcano's new crater, and from lesser vents and cracks in its flanks.
- G Afterwards, scientists were able to analyse the sequence of events. First, magma — molten rock — at temperatures above 2000 ° F, had surged into the volcano from the Earth's mantle. The build-up was accompanied by an accumulation of gas, which increased as the mass of magma grew. It was the pressure inside the mountain that made it swell. Next, the rise in gas pressure caused a violent decompression, which ejected the shattered summit like a cork from a shaken soda bottle. With the summit gone, the molten rock within was released in a jet of gas and fragmented magma, and lava welled from the crater.
- H The effects of the Mount St. Helens eruption were catastrophic. Almost all the trees of the surrounding forest, mainly Douglas firs, were flattened, and their branches and bark ripped off by the shock wave of the explosion. Ash and mud spread over nearly 200 square miles of country. All the towns and settlements in the area were smothered in an even coating of ash. Volcanic ash silted up the Columbia River 35 miles away, reducing the depth of its navigable channel from 40 feet to 14 feet, and trapping sea-going ships. The debris that accumulated at the foot of the volcano reached a depth, in places, of 200 feet.
- I The eruption of Mount St. Helens was one of the most closely observed and analysed in history. Because geologists had been expecting the event, they were able to amass vast amounts of technical data when it happened. Study of atmospheric particles formed as a result of the explosion showed that droplets of sulphuric acid, acting as a screen between the Sun and the Earth's surface, caused a distinct drop in temperature. There is no doubt that the activity of Mount St. Helens and other volcanoes since 1980 has influenced our climate. Even so, it has been calculated that the quantity of dust ejected by Mount St. Helens—a quarter of a cubic mile — was negligible in comparison with that thrown out by earlier eruptions, such that of Mount Katmai in Alaska in 1912 (three cubic miles). The volcano is still active. Lava domes have formed inside the new crater, and have

periodically burst. The threat of Mount St. Helens lives on.

People and Organisations: The Selection Issue

- A** In 1991, according to the Department of Trade and Industry, a record of 48,000 British companies went out of business. When businesses fail, the post-mortem analysis is traditionally undertaken by accountants and market strategists. Unarguably organisations do fail because of under capitalisation, poor financial management, adverse market conditions etc. Yet, conversely, organisations with sound financial backing, good product ideas and market acumen often underperform and fail to meet shareholders' expectations. The complexity, degree and sustainment of organisational performance requires an explanation which goes beyond the balance sheet and the "paper conversion" of financial inputs into profit making outputs. A more complete explanation of "what went wrong" necessarily must consider the essence of what an organisation actually is and that one of the financial inputs, the most important and often the most expensive, is people.
- B** An organisation is only as good as the people it employs. Selecting the right person for the job involves more than identifying the essential or desirable range of skills, educational and professional qualifications necessary to perform the job and then recruiting the candidate who is most likely to possess these skills or at least is perceived to have the ability and predisposition to acquire them. This is a purely person / skills match approach to selection.
- C** Work invariably takes place in the presence and / or under the direction of others, in a particular organisational setting. The individual has to "fit" in with the work environment, with other employees, with the organisational climate, style of work, organisation and culture of the organisation. Different organisations have different cultures (Cartwright & Cooper, 1991;1992). Working as an engineer at British Aerospace will not necessarily be a similar experience to working in the same capacity at GEC or Plessey.
- D** Poor selection decisions are expensive. For example, the costs of training a policeman are about £20,000 (approx. US\$30,000). The costs of employing an unsuitable technician on an oil rig or in a nuclear plant could, in an emergency, result in millions of pounds of damage or loss of life. The disharmony of a poor person-environment fit (PE-fit) is likely to result in low job satisfaction, lack of organisational commitment and employee stress, which affect organizational outcomes i.e. productivity, high labour

turnover and absenteeism, and individual outcomes, i.e. physical, psychological and mental well-being.

- E** However, despite the importance of the recruitment decision and the range of sophisticated and more objective selection techniques available, including the use of psychometric tests, assessment centres etc., many organisations are still prepared to make this decision on the basis of a single 30 to 45 minutes unstructured interview. Indeed, research has demonstrated that a selection decision is often made within the first four minutes of the interview. In the remaining time, the interviewer then attends exclusively to information that reinforces the initial “accept” or “reject” decision. Research into the validity of selection methods has consistently demonstrated that the unstructured interview, where the interviewer asks any questions he or she likes, is a poor predictor of future job performance and fares little better than more controversial methods like graphology and astrology. In times of high unemployment, recruitment becomes a “buyer’s market” and this was the case in Britain during the 1980s.
- F** The future, we are told, is likely to be different. Detailed surveys of social and economic trends in the European Community show that Europe’s population is falling and getting older. The birth rate in the Community is now only three-quarters of the level needed to ensure replacement of the existing population. By the year 2020, it is predicted that more than one in four Europeans will be aged 60 or more and barely one in five will be under 20. In a five-year period between 1983 and 1988 the Community’s female workforce grew by almost six million. As a result, 51% of all women aged 14 to 64 are now economically active in the labour market compared with 78% of men.
- G** The changing demographics will not only affect selection ratios. They will also make it increasingly important for organisations wishing to maintain their competitive edge to be more responsive and accommodating to the changing needs of their workforce if they are to retain and develop their human resources. More flexible working hours, the opportunity to work from home or job share, the provision of childcare facilities etc., will play a major role in attracting and retaining staff in the future.

Reading Passage 3

You should spend about 20 minutes on Questions 26-38 which are based on Reading Passage 3.

The Rollfilm Revolution

The introduction of the dry plate process brought with it many advantages. Not only was it much more convenient, so that the photographer no longer needed to prepare his material in advance, but its much greater sensitivity made possible a new generation of cameras. Instantaneous exposures had been possible before, but only with some difficulty and with special equipment and conditions. Now, exposures short enough to permit the camera to

be held in the hand were easily achieved. As well as fitting shutters and viewfinders to their conventional stand cameras, manufacturers began to construct smaller cameras intended specifically for hand use.

One of the first designs to be published was Thomas Bolas's "Detective" camera of 1881. Externally a plain box, quite unlike the folding bellows camera typical of the period, it could be used unobtrusively. The name caught on, and for the next decade or so almost all hand cameras were called "Detectives". Many of the new designs in the 1880s were for magazine cameras, in which a number of dry plates could be pre-loaded and changed one after another following exposure. Although much more convenient than stand cameras, still used by most serious workers, magazine plate cameras were heavy, and required access to a darkroom for loading and processing the plates. This was all changed by a young American bank clerk turned photographic manufacturer, George Eastman, from Rochester, New York.

Eastman had begun to manufacture gelatine dry plates in 1880, being one of the first to do so in America. He soon looked for ways of simplifying photography, believing that many people were put off by the complication and messiness. His first step was to develop, with the camera manufacturer William H. Walker, a holder for a long roll of paper negative "film". This could be fitted to a standard plate camera and up to forty-eight exposures made before reloading. The combined weight of the paper roll and the holder was far less than the same number of glass plates in their light-tight wooden holders. Although roll-holders had been made as early as the 1850s, none had been very successful because of the limitations of the photographic materials then available. Eastman's rollable paper film was sensitive and gave negatives of good quality; the Eastman-Walker roll-holder was a great success.

The next step was to combine the roll-holder with a small hand camera: Eastman's first design was patented with an employers. F. M. Cossitt, in 1886. It was not a success. Only fifty Eastman detective cameras were made, and they were sold as a lot to a dealer in 1887; the cost was too high and the design too complicated. Eastman set about developing a new model, which was launched in June 1888. It was a small box, containing a roll of Paper-based stripping film sufficient for 100 circular exposures 6 cm in diameter. Its operation was simple: set the shutter by pulling a wire string; aim the camera using the V line impression in the camera top; press the release button to activate the exposure; and turn a special key to wind on the film. A hundred exposures had to be made, so it was important to record each picture in the memorandum book provided, since there was no exposure counter. Eastman gave his camera the invented name "Kodak"— which was easily pronounceable in most languages, and had two Ks which Eastman felt was a firm, uncompromising kind of letter.

The importance of Eastman's new roll-film camera was not that it was the first. There had been several earlier cameras, notably the Stirn "America", first demonstrated in the spring of 1887 and on sale from early 1888. This also used a roll of negative paper, and had such refinements as a reflecting viewfinder and an ingenious exposure marker. The real significance of the first Kodak camera was that it was backed up by a developing and printing service. Hitherto, virtually all photographers developed and printed their own pictures. This required the facilities of a darkroom and the time and inclination to handle the necessary chemicals, make the prints and so on. Eastman recognized that not everyone had the resources or the desire to do this. When a customer had made a hundred exposures in the Kodak camera, he sent it to Eastman's factory in Rochester (or later in Harrow in England) where the film was unloaded, processed and printed, the camera reloaded and returned to the owner. "You Press the Button, We Do the Rest" ran Eastman's classic marketing slogan; photography had been brought to everyone. Everyone, that is, who could afford \$25 or five guineas for the camera and \$10 or two guineas for the developing and printing. A guinea (\$5) was a week's wages for many at the time, so this simple camera cost the equivalent of hundreds of dollars today.

In 1889 an improved model with a new shutter design was introduced, and it was called the No. 2 Kodak camera. The paper-based stripping film was complicated to manipulate, since the processed negative image had to be stripped from the paper base for printing. At the end of 1889 Eastman launched a new roll film on a celluloid base. Clear, tough, transparent and flexible, the new film not only made the roll-film camera fully practical, but provided the raw material for the introduction of cinematography a few years later. Other, larger models were introduced, including several folding versions, one of which took pictures 21.6 cm x 16.5 cm in size. Other manufacturers in America and Europe introduced cameras to take the Kodak roll-films, and other firms began to offer developing and printing services for the benefit of the new breed of photographers.

By September 1889, over 5,000 Kodak cameras had been sold in the USA, and the company was daily printing 6-7,000 negatives. Holidays and special events created enormous surges in demand for processing: 900 Kodak users returned their cameras for processing and reloading in the week after the New York centennial celebration.

答案及详解

Reading Passage 1

Questions 1-2

题型：搭配题（因果关系搭配）

1. E

关键词是：evacuation

2. F

关键词是：the moment

Questions 3-4

题型：问答题

3. 1900 B.C., A.D. 1500

4. geological evidence

此两题的答案对应原文 C 段：

According to geological evidence found by the United States Geological Survey, there had been two major eruptions of Mount St. Helens in the recent (geologically speaking) past: around 1900B.C., and about A. D. 1500.

Questions 5-8

题型：摘要填空

仔细阅读摘要的第一句话，与原文 D 段的第 1 句相对应。各题的答案应从这里开始找。

5. The local population

对应原文 D 段：

It warned the local population against being deceived by the mountain's outward calm, and forecast that an eruption would take place before the end of the century.

6. 500 feet

对应原文 D 段：

Then, in early May, the northern flank of the mountain bulged, and the summit rose by 500 feet.

7. evacuated

对应原文 E 段：

Steps were taken to evacuate the population.

8. 8:32 a.m.

对应原文 F 段：

On May 18, at 8:32 in the morning, Mount St. Helens blew its top, literally.

Questions 9-10

题型：填图填表

9. (nearly) 200 square miles

对应原文 H 段：

Ash and mud spread over nearly 200 square miles of country.

10. (a) quarter / 1 / 4 of (a) cubic mile

对应原文 I 段：

Even so, it has been calculated that the quantity of dust ejected by Mount St. Helens — a quarter of a cubic mile — was negligible in comparison with that thrown out by earlier eruptions, such that of Mount

注意：此答案在文章中是以英文的形式出现的，而不是阿拉伯式数字。注意顺序性，它应该在第 9 题的答案之后，根据这点，也不难找到答案。

Question 11

题型：选择题（四选一）

11. C

对应原文 I 段：

Study of atmospheric particles formed as a result of the explosion showed that droplets of sulphuric acid, acting as a screen between the Sun and the Earth's surface, caused a distinct drop in temperature.

注意：如果两个选项特别相近，如只相差一个词，正确答案应在其中之一。所以，如果此题做不出来，瞎猜的话，应该猜 B 或 C。

Reading Passage 2

Questions 12-16

题型：找段落的小标题

12. iv

没有明显的主题句，需要通读全段。实际上，主题句是全段的最后一句：

This is a purely person / skills match approach to selection.

13. viii

没有明显的主题句，需要通读全段。

14. v

段落中包含 For example 句型，主题句是它前面的句子（也就是全段的第 1 句）：

Poor selection decisions are expensive.

此题，容易误选为 vi，它的意思是：一些 poor selection decisions。而主题句的意思是：poor selection decisions 的代价是昂贵的。

15. iii

主题句为该段话的第 1 句：

However, despite the importance of the recruitment decision and the range of sophisticated and more objective selection techniques available, including the use of psychometric tests, assessment centres etc., many organisations are still prepared to make this decision on the basis of a single 30 to 45 minutes unstructured interview.

中文译文：虽然招收新人的决定很重要，而且有很多成熟并且更客观的选择技巧，很多单位仍然基于 30 ~ 45 分钟的无组织的面试来做出决定。

这句比较复杂，不好理解。应重点看主句部分 many organisations are still prepared to make this decision on the basis of a single 30 to 45 minute unstructured interview。正确答案为：iii: The unstructured interview and its validity.

16. i

该段话的前两句是 not only but also 句型，主题句为第 2 句：

They will also make it increasingly important for organisations wishing to maintain their competitive edge to be more responsive and accommodating to the changing needs of their workforce if they are to retain and develop their human resources.

Questions 17-22

题型：T/F/NG

17. YES

对应原文 A 段的最后一句：

A more complete explanation of “what went wrong” necessarily must consider the essence of what an organisation actually is and that one of the financial inputs, the most important and often the most expensive, is people.

18. NO

对应原文 E 段：

Research into the validity of selection methods has consistently demonstrated that the unstructured interview, where the interviewer asks any questions he or she likes, is a poor predictor of future job performance and fares little better than more controversial methods like graphology and astrology.

19. NOT GIVEN

20. NO

对应原文 E 段：

Research into the validity of selection methods has consistently demonstrated that the unstructured interview, where the interviewer asks any questions he or she likes, is a poor predictor of future job performance and fares little better than more controversial methods like graphology and astrology.

21. YES

对应原文 F 段

22. YES

对应原文 F 段

Questions 23-25

题型：填图填表

根据已知的关键词 poor person-environment fit 对应到原文的 D 段中的句子：The disharmony of a poor person-environment fit (PE-fit) is likely to result in low job satisfaction, lack of organisational commitment and employee stress, which affect organisational outcomes i.e. productivity, high labour turnover and absenteeism, and individual outcomes i.e. physical, psychological and mental well-being. 原文与题目的对应词为：

原 文	题 目
productivity	low production rates
high labour turnover	high rates of staff change
physical	poor health

23. organizational outcomes

24. individual outcomes

25. absenteeism

Reading Passage 3

Questions 26-29

题型：T/F/NG

26. NO

对应于第 1 段：

Instantaneous exposures had been possible before, but only with some difficulty and with special equipment and conditions. Now, exposures short enough to permit the camera to be held in the hand were easily achieved.

27. YES

对应于第 5 段：

The real significance of the first Kodak camera was that it was backed up by a developing and printing service.

28. NO

对应于第 5 段：

Everyone, that is, who could afford \$25 or five guineas for the camera and \$10 or two guineas for the developing and printing. A guinea (\$5) was a week's wages for many at the time, so this simple camera cost the equivalent of hundreds of dollars today.

29. NOT GIVEN

Questions 30-34

题型：填图填表

对应原文第 4 段。

30. wind on file

31. a wire string

32. set the shutter

33. the memorandum book

34. record each picture

30 ~ 34 题是时间、事件及人物的填图填表题。注意，时间肯定是关键词，答案要求在 3 个词之内。

35. Eastman

关键词是 1880。快读文章，从头到尾找 1880。注意第二段中有 1880s，意思是 19 世纪 80 年代，与 1880 是不同的。应对应到第 3 段的第 1 句。

36, 37. 1886 small hand camera

虽然让填的是年代，也要按照年代去找答案。从文章中向下阅读，寻找年代。第 3 段偏后位置有 1850s，但根据逻辑，36 题的答案应该大于 1881，所以不用看，肯定不对。第 4 段第 1 句中有一个，在 1881 之后。仔细读该句话，与题目中已知的信息相对照，确定是正确答案。37 题的答案为，原文为 a small hand camera，不满足字数要求，根据规律去掉冠词 a。

38. new shutter design

关键词是 1889，向下快读原文，在倒数第 2 段的第 1 句找到 1889，仔细读该句话，与题目中已知的信息相对照，确定是正确答案。38 题的答案为 new shutter design，原文为 a new shutter design，不满足字数要求，根据规律去掉冠词 a。

雅思阅读机经

- ▶▶ Day 1
- ▶▶ Day 2
- ▶▶ Day 3
- ▶▶ Day 4
- ▶▶ Day 5

因为雅思考试很频繁，有时一个月就要考 3 次，研发考题的速度跟不上考试的频度，所以雅思考试的很多题目会重复出现。因此考过雅思的同学的考试回忆就弥足珍贵，因为你在考试中遇到的题目可能就是这些同学考过的题目。考过雅思的同学的考试回忆，俗称为“机经”。看阅读机经，就像看中文小说一样。花的时间很少，但至少能起到锦上添花的作用。对一些基础弱的同学可能还会起到决定性的作用。

Day 1

1. 拥挤和密度

文章大意

density 是一个基本事实，**crowded** 是一种心里感觉。前面几个是 **heading**，后面的填空直接回原文定位。填写 **privacy, males, male prison** 等。讲 **crowded** 拥挤和密度的关系，其实密度是思绪上的想法。又说了以前哪个科学家做的试验，后来又有人拿 **rats** 做试验，现实社会中，人们对这种感觉的处理等。因为文章略长，答案并不好找。

题目及答案

Heading; 完成句子

2. 水底探测

文章大意

这是第二篇阅读文章，也很费时。一个图，右边的两个填空，是讲海洋船的。第二段开始讲船的构造，包括有它上面连的线当中有什么 **underwater microphone**，专业术语叫 **hydrophone** 之类，又讲了搜集海底信息，然后穿越海时还对气候有影响，还关联到这是当地的一个习俗。这题第一眼看上去很难，因为有 **TRUE / FALSE / NOT GIVEN**，有看图填空，有文字填空，但总体来说，大概浏览全文后能找出答案。

题目及答案

填图填表; **TRUE / FALSE / NOT GIVEN**; 完成句子

3. Sea Cow

文章大意

显示描述它像 **dolphin**，之后说关于它的进食，大嘴唇上有味蕾，爱吃一种海藻，连根吃掉，吃完走了会留下明显的痕迹和海藻的残骸。它们的种群不会排斥弱小的个体进食，一般会把一个地方吃光后等菜再长出来再来吃。1992 年大危机以前数量很多，现在很少了，大概需要 10 年时间恢复，人们用的 **fish net** 对它有害，现在已经在想办法保护了。问题点大概是这些，考得比较细找起来不是特容易，但是真的不难。然而，这样的文章如果最先做肯定会超时的，因为你会不知不觉地、不慌不忙地找！后面就没时间了！

题目及答案

TRUE / FALSE / NOT GIVEN; Sentence Completion; Short Answer Question

4. 美国的垃圾处理

文章大意

讲美国的垃圾处理再利用问题。先说美国是垃圾制造大国，日本买了大量的回去再利用，垃圾填埋场多饱和，只有 **western states** 还有剩余地方，**steel** 回收的比开采的便宜，燃烧垃圾破坏环境。之后说西雅图回收垃圾非常成功，因为居民要为不可回收的垃圾多付钱，接着是拉斯维加斯的反面例子，再是德国的情况，最后说美国的情况虽然不好，但是远期来看是可以解决的，西雅图的情况就远比预想的好。所有题目都是按顺序出的，基本上 20 分钟都能做出来。

题目及答案

Sentence Completion; TRUE / FALSE / NOT GIVEN; Short Answer Question

讲修建埃及金字塔的一种新理论。一位科学家在埃及看见了一幅画，画上有有一个很奇怪的动物，很像鸟。因此这位科学家提出了一种理论，认为修金字塔时，埃及人可能借助了风筝(kite)

这种工具。

文章结构比较清楚，首先说传统观点认为金字塔是靠很多奴隶一起干活来修的，然后介绍了这种新的观点。接着说一个科学家对这个新观点很感兴趣，还和他的学生一起设计了一个这样的实验。然后一个组织就这个观点进行了实验，最后发现风筝的力量确实很大，很可能帮助了埃及人。最后为了支持这个观点，文章又举了一些例子，说埃及的海员（sailor）很早就懂得利用风的力量，中国很早就发明了风筝。但是注意，这只是一个理论，文章并没有很确定地说这个理论就是正确的。

10. 蝴蝶研究

文章大意

研究蝴蝶以及同类昆虫的演化。一位科学家讲他认为蝴蝶身上色彩斑斓是警告标志，告诉别的动物“我有毒，离我远点”。按道理说同一地区的蝴蝶身上的图案应当是相同或相近的，但实际上蝴蝶谷的蝴蝶色彩斑斓，那些捕食动物只能分辨稍微有些接近的警告颜色。另一科学家认为蝴蝶的颜色根据天空 canopy 的高度变化，也就是按照光照的高度变化，但这个理论很快被推翻了，因为同一高度有不同图案的蝴蝶。最后又一科学家作了很多试验，表明蝴蝶爱在两个高度飞行。当然这不绝对，蝴蝶也偶尔在它喜欢的高度飞翔。

18. 动物思考和行为

文章大意

第一段是 concept of thinking。讲的是对于一个问题不是马上给出解答，要经过一段时间之后才能找出答案，有这么一个 problem-solving 的过程叫 thinking。有的人可能会对于以上给出的 definition 不满意，因为他们觉得 thinking 是只属于 human attitude 的，人类才会有那种科学和艺术的天才。但是如果考虑到智力的 peak 和 valley 的话，其实很难分清人与动物智力的界限。下面我们来看看动物的 symbolic ability。

拿 worms, insects, birds (hen), dog, monkey, rat 做实验来研究动物的行为。对 worms 来说，是把他们的大脑去掉，看有什么影响。bees，通过跳舞可以定向。但是他们的能力似乎是本能 instinct 的，而不是学来的。对 hen，是看它们对日夜的反应，结果有的鸡只有夜里下蛋，有的

23. 儿童多动症

文章大意

介绍什么是注意力集中困难症。这种病症除用一般药物可以医疗之外，文章还介绍一种叫生物反馈 **biofeedback** 的方法，也可以治疗这种症状。关于 **S** 发明的这种治疗方法 **biofeedback**，他说，目前这种方法虽然都发明出来有好几十年了，但是还有很多人仍然认为这只是 **fringe treatment**。然后介绍了这种方法原来是用于病人控制自己心跳速率的，即把一些线 **wire** 接到 **scalp** 上，然后通过监视器 **monitor** 看到自己的情况，并通过这种方法来控制自己的心跳。同样，这种方法也可以用于治疗注意力集中困难症，因为病人通过监视器可以了解自己脑电波的跳动情况。长时间训练后，病情会有很好的改善。**P** 说，这种方法好，不像药物，不但治标还治本。

接着说这种方法的缺点。第一：治疗费太高；第二：时间太长，很多小孩根本就坚持不下去；第三：很多基本的医疗险种根本就没包括这一项。

P 原来是 **NASA** 的研究员。他在研究 **pilot** 玩飞行器模拟机的时候发现并应用 **biofeedback** 的方法到模拟机上，**pilot** 感觉到新系统很 **comfortable**，很快就适应了。**P** 还用 **biofeedback** 方法把 **PS2** 的赛车游戏结合到 **S** 的设施里面，结果发现赛车速度一提高，心跳速度也跟着提高。

基于此，两个高手强强联合做了个实验，把几十个小孩分成两组，一组用传统方式来治疗，一种用 **P** 的改装赛车方法治疗。结果发现，这两组小孩的病都治得差不多，但是 **P** 组很少有缺课的。更大好处是，**P** 方法减低了医疗成本，**S** 方法需要单对单，**P** 方法一个医疗师就可以对付几个小孩子。

最后说 **biofeedback** 还需要大量的临床试验来验证。药物和物理治疗两种方法其实各有各的好处，药物见效快成本低，持续时间短，很多小孩也就上课时候吃；物理治疗周期长，比较贵，各位家长可以根据情况自行选择。

33. 眼镜蛇毒

文章大意

关于眼镜蛇 **cobra** 的研究及其毒液对人的影响。研究人员对其进行了进一步的研究, 希望找到治疗其他疾病的方法。

一旦人或动物被眼镜蛇咬中, 受害者都会感到疼痛和疲劳 **pain and fatigue**。疼痛是众所周知的, 这篇文章主要讲的是毒蛇 **venom** 中的某一种成分会使被咬者感到疲劳, 从而丧失反抗能力, 坐以待毙使毒蛇坐享其成。接着说蛇毒如何进入被咬者的体内。蛇的毒液通过蛇中空 **hollow** 得像针尖 **needle-like** 一样的牙齿射入人畜体内, 进入血液 **bloodstream**, 从而发生作用。

从 1960 年起, 人们就对眼镜蛇毒的化学成分有了大致了解。但是对其中一些同时起作用的化学成分的功能依旧不了解, 这种成分似乎 “**prepare**” the venom to work。这到前段时间还是一个谜。

接下来英国专家开始破解这种成分。他们分离出这种化学物质, 发现这是一种消化酶 **digestive enzyme**, 它能够消化肽 **peptide**。为了知道这种酶的攻击目标, 科学家们就在寻找是哪一种类型的肽受这种化学物质的破坏。他们首先用食物作为受攻击目标, 但惊奇地发现蛇毒中的消化酶比一般的酶消化食物的速度要慢得多。

科学家们缩小范围去找到那种肽, 他们开始试验神经系统的肽 **neuropeptide**, 并发现此酶对人体中的神经肽破坏速度甚快。然后, 讲述人体中神经肽的作用。第一种作用是能够在人体遭受创伤时减轻人体的疼痛, 其作用和毒品中的吗啡 **morphia**、海洛因 **heroin** 类似。第二, 它是在人遭受危险时由肾上腺 **adrenalin glands** 分泌的肾上腺素 **fight hormone** 的主要成分。那样自然而然, 当这种酶通过血液进入人体的防御系统 **defend system** 后便摧毁了人畜的这种使之产生反抗力的神经肽, 从而使蛇能够轻松获胜。

同时, 还发现这种酶可以溶解于水中, 但要使它发生作用必须让它变为晶体结构 **crystal**。于是毒液还有两种化学物质, 这两种物质和人体神经上的物质很相似。接着在这两种化学物质的催化下, 毒酶具有了晶体形式, 可以开始破坏了。专家们也将这两种化学物质分离了出来。

最后总结, 通过这项研究人们可以更好地治疗蛇毒伤, 并可以研制出对付人失落、沮丧的药物。

44. 俄罗斯考古

文章大意

最近俄罗斯考古有了新发现，其中出土的一些东西帮助人们更了解中世纪的生活。中世纪的时候俄罗斯记载的东西很有限，只能用木头和动物皮来记载。往往因为细菌的分解、水腐蚀等原因，现在很难找到有机物的记载了。然而在俄罗斯的某个地方因为地理的特殊原因，使一些有机物记载保存下来了（一种特殊的土壤 **loam** 使它可以隔绝空气和水，这样就让细菌分解不了了。即使洪水淹没了也不会使这些东西受到影响。这个地区后来遭受过洪水）。俄罗斯的考古学家与历史学家的不同点是，前者关注 **environment**，后者关注 **individual**。前后有三次探险，第一次是在 19 世纪 30 年代，他们研究些什么，他们以往有过什么重大发现（俄罗斯也生产工艺品，这地方原来是一个手工业制造者的作坊中心，以前认为俄罗斯只出产蜂蜜，蜂蜡 **bee wax** 等，这个地方的发现一下子让人们了解到原来俄罗斯也有能和其他文明相提并论的繁荣手工业）。人类科学家从这些文物中分析中世纪人们的生活习惯。提到出土了一些手工艺品，还发现了上百家商店、市场。从这些手工艺品的制作上来看，当时俄罗斯已经从欧洲一些国家进口手工艺品了，而且还模仿了他们的做法，所以说工艺水平达到了和欧洲国家差不多的水平。文章还提到了这些文物的出土对俄罗斯的历史价值等。

龙涎香 **ambergris** 很久以前有了, 它的用途有 **for medicine, spice**, 用来制作 **perfume** 等。但是人们不知道它是从哪里来的, 再就是说在古代, **it worth in weight in gold**, 很昂贵。

以前人们一直把 **ambergris** 和 **amber** 当作同一种东西。但是有个叫 **Dick** 的人写了一本关于二者区别的书。**Ambergris** 通常在海面或者 **shore** 被发现, 但是仍然不知道是从哪里来的。**Amber** 是一种 **minimal**, 与松树 **pine** 有关。然后讲到 **amber** 的一些特征: **hard, transparent** 等, 用来做装饰品同样 **very costly**。

Ambergris 是与 **sperm whale** 的 **intestine** 里消化 **digest** 某种东西有关。具体 **describe** **ambergris** 的产生过程。大意是, **sperm whale** 呕吐出来 **be vomited up**。然后这种东西遇到空气就会变硬 **hardens**, 于是就形成了 **ambergris**, 也解释了为什么 **ambergris** 总在海面和 **shore** 被发现。

人们为了获得 **ambergris** 而捕杀 **sperm whale**, 导致其濒临灭绝。给了一个数据说 **in 20th century, 90% ambergris was made in the processing of killing sperm whale**。于是人们就开始采取措施保护 **sperm whale**, 在工业生产中采用了很多 **ambergris** 的替代品, 例如香水制造业中就用了某种东西代替了 **ambergris**。

文章大意

文章讲口译与笔译的各自定义，口译的重点在哪里。以前有一种口译方式，讲话人一说完，口译者也翻译完，用语不太正式，适合小规模会议。现在这种方式正在被另外一种口译方式所代替。口译会受到诸多因素的影响。正常能口译的速度是每分钟 100 ~ 120 words，如果超过 200 words 就不行；口译的难点是：口译的时候最怕碰到句子结构不同的语言，如动词放最后等，所以口译要等说话人说完了才能翻译。另外一个说话人的速度，速度快了翻译就跟不上。

题目及答案

温学者写了一本书，他认为学生在学习时，往往容易记住一些不重要的东西，而重要的东西却记不住。因此他推出了一种教学方法，研究学生的 **educational psyche**。比如在上课的时候，让老师在一种柔和的背景音乐中给同学们读文章，然后再用慢语速读，最后放音乐让学生自己读，这样的话学生就很容易记住重要的东西。他的这一理论受到了同学们的欢迎，尽管有些教师刚开始反对，但最终仍然接受了他的方法。

104. 语言变迁**文章大意**

语言是人们使用的工具，它已经成了交流的必需。从一个人的语言能力可以看出他的为人方式、学习方法、聪明才智以及性格等，因此人们常因为语言使自己受到伤害或伤害别人 **hurt or be hurt**。1762 年的时候出现了语言规范法，叫 **predescriptive language**，后来某教授说只有描述的语言 (**descriptive language**) 才是唯一正确的语言。最后人们正式编制了语法。(语法学家 **grammarian**，语言学家 **linguist**)

语言是不断变化的，人们可以知道以前的语言是怎样的，到今天它又有了什么变化。还有一种研究依据叫 **sounds laws**。举例：对 **b** 和 **p** 的研究，有一个经常是长音节词的开头字母。

语言变化的原因之一是语言与语言之间的影响。比如：移民在使用第二语言时，会受到母语的很多影响。但移民的孙辈完全可以掌握第二语言，且不受母语的影响。因为他们整个 **kin group** 脱离了原来的母语环境。原因之二是某类人对语言的掌控。随着时间推移，如果这种语言不再是他们独有的，他们就会对其进行改变，以保持他们语言独特或专属的特点。人们认为这种语言的独特性会将他们从大众中区分开，达到突显其社会地位的目的。例子提到由于经济发展，**middle class** 地位得到提高，他们的语言就得以传播和改变。原因之三是因为在孩童语言学习过程中，没有准确地学到父母的语言，这些无意中造成的偏差保留了下来。这种情况也发生在成人身上。

人都有惰性，如果单词不好发音，就会进行更改。比如原先 **skamt**（不确定拼写是否正确）因为 **m** 不容易读出来而改成了 **n**。有些字母不再发音，比如：**Christmas** 中的字母 **t**。根据现代的发展，新词 **temporary** 因为有重复发音而简化成了 **tempery**。

106. 英文拼写

文章大意

英文 **spelling** 的重要性。主要说英语的 **spelling** 是社会地位的象征，不能简化英文书写，那样就失去了几百年的历史。

小朋友正在学校里痛苦地学习英文拼写。他们要把那些英文单词的拼写全部记下来。

某公爵给他的儿子写了封信，信的内容说拼写是很重要的。这不仅仅涉及语言交流的问题，更是一个人身份地位以及个人修养的体现。作者认为这个人把拼写的作用说得有点夸张了，但是拼写真的很重要。然后就举一个例子，说美国的某次公务员考试，有些人没通过就是因为拼写太差。

拼写在社会中的地位：举了几个例子，比如莎士比亚的拼写就很差，但是他仍然是戏剧大师。还举了个作家的例子。大意就是拼写虽然很重要，但是也不代表一切。

有一种思潮认为拼写并不重要。认为关键是要传达意思而不应过分注重拼写本身。一个人可以按照他的意思拼写单词。学校完全不应该花过多精力教孩子们如何拼写，他们应该教孩子们怎样进行创造性写作。

有些人试图进行英文拼写方面的改革，以便使英文的拼写更有规律，便于学习和掌握。

另一些人则认为应该完全按照读音来进行英文拼写。现在越来越多的人把英语作为第二语言，如果英语本身更加有规律，那么就更便于普及和学习。可是完全按照读音来拼写也有问题。一些单词具有相同的发音，但是含义完全不一样，例如 **son** 和 **sun**，**weigh** 和 **way**。如果采用相同的拼写，就会出现一些问题。此外，拼写不仅代表着读音，它还有一些历史的、表意的内涵在里面，如果单纯按照读音来拼写，那么英语文化中的一大部分就会损失殆尽。还提到说各个地区的发音也不一样，不知道以谁的为准。

英文拼写的改革在英国总是难以推行的。英国人相当重视捍卫历史和传统，因此这种拼写改革得不到大多数人的支持。

题目及答案

(List of Headings; TRUE / FALSE / NOT GIVEN; Summary)

List of Headings:

- A: 孩子们在学校里学习拼写的情况
 B: 一个例子, 说拼写上的失误可能导致失去工作
 C: 拼写在社会生活上的地位
 E: 英文拼写方面的一些改革
 F: 一些例子, 关于英语中具有相同发音不同含义的词汇

TRUE / FALSE / NOT GIVEN:

拼写改革在英国是否受欢迎。

Summary:

有些人主张按照读音来拼写单词, 以便使英语更容易普及。但是这种做法有两个弊端。其一, 单词背后的历史无法表达出来。其二, 单词的含义也无法表现。然后说英语拼写改革在英国不受欢迎的原因在于英国人对传统的重视。

107. 植物净水

文章大意

用植物来净化 **purify** 水的效果很好, 但是在大城市不适用, 因为太慢了。基本原理是植物可以增加水里的含氧量, 微生物有充足的氧就可以分解污染物。然后讲了几种效果比较好的植物, 植物名都用斜体写的。有两种方法, 一种是水平流动, 就是水直接从种着植物的池子里流过, 另一种是 **downward flow**, 这种净水池的构造也比较复杂, 要一层软泥 **sludge**, 一层 **sand**, 一层沙砾 **gravel**, 水是垂直运动的。每过一段时间, 池子要休息一下, 不然净水能力就变弱了。

两种方法有各自的优势: 第一种容易建造, 不需要人看管, 但效率较低。第二种建造起来麻烦, 还得有人看着。植物净水和传统净水的比较: 植物净水比较便宜, 好建造, 具有观赏意义。

117. 海底热源

文章大意

海底火山早已经被发现，1993 年一艘叫 *Alvin* 的潜艇潜入海底进行研究。后来全世界不断发现海底火山，*many of them* 在两千多米深的海底。

介绍这种现象形成的过程。岩浆怎样活动，怎样到地壳下，怎样混合化学物矿物质，怎样回到海底表面喷涌出来。举例提到 *black smoke*，它样子像蘑菇，就因为含了某种矿物质。由于所含 *minerals* 的不同，这种现象会呈现两种颜色，叫 *black / white smoke*。这种现象储存了大量热量，海底大部分的热能储存于此。而且 *chemical minerals* 也很多。很多人认为在这样的恶劣环境里，没有生物能存活。但这里有细菌存在，它们在热能不断上涌的海流中寻获营养物质。就好像覆盖陆地的植物，在阳光下存活，并供给其他生物食物。因为有细菌的存在，使这里形成了独特的深海生物群落。他们有一种特别的生存方式叫共栖 *symbiosis*，也就是说它们相互依存，是互利的关系。其中特别提到 *tube worm*，它没嘴、没胃、没有任何消化系统，靠体内的细菌 *bacteria* 产生的碳水化合物生存。又提到一种生物，它的特别之处就在于共栖的能力很强，极具研究价值。但是由于不易进行实地考察，在实验室中又养不活这种生物。科学家们仍然在努力研究这个生物群落的共栖现象，希望可以将其沿用到陆地上来。

118. 考拉

文章大意

Koala 以前数目很多，现在已经下降了，但是还未到濒临灭绝的地步，科学家对此还是很

重视的。过去在 Australia 到处是 Koala, 现在只是在南部的 Pocket 区域有。Koala 的数目下降, 有许多原因, 一些因为 settlers and their descendents, 其中居于首位的是 car。

一个森林火灾导致了許多 Koala 死亡。Koala 的食物桉树 eucalyptus 生命力很强, 火灾后的几年内又 flourish 了。Koala 不会因为食物短缺而数目减少。

桉树的叶子很难被 Koala 消化, 而且含有一种有毒的 toxic 物质, Koala 消化这种桉树叶子通过 3 个方法: 1) Koala 的小肠里面有一种细菌 bacteria, 能帮助消化叶子中的纤维素 fabric; 2) 在肝 liver 中消化有毒物质; 3) 要静静地待着, 20 小时以后才能完全消化食物。

考拉很温柔, 完全不会攻击人类, 虽然考拉的爪子有足够的力气拨开抓住它的人的手臂, 但是它不会这么做, 而是忍耐, 实在生气了 (upset), 只会打嗝 (hiccup)。

考拉生病了, 表面看不出来。需要通过每天称体重来检查, 如果体重减轻, 那么考拉就生病了。London 有只考拉得癌症 cancer 死了, 这只考拉生病期间, 人们没有发现, 因为他的体重没有什么变化, 只是曾经下降过, 后来又恢复到正常的水平, 直到快死了那几天, 体重急剧下降, 但这时已经晚了, 考拉很快就死了。

人们喜欢抱考拉, 澳大利亚动物园也允许大家抱考拉, 孩子们抱考拉, 并且 from an arm to another。有人喜欢抱考拉拍照, 其实这对考拉非常不好, 考拉容易死亡, 考拉不喜欢被抱着从一个人手里传到另一个人手里, 它喜欢 hold a person's arm 不动。

政府讨论制定措施, 限制这种抱考拉行为, 从而保护考拉, 一些动物园已经开始不让抱考拉了, 但是需要更多的动物园接受政府的规定。考拉作为国宝, 澳大利亚利用它来搞外交。

122. 乌鸦制造工具

文章大意

一种鸟类叫新苏格兰乌鸦 the New Caledonian crow, 它们很厉害, 会自己制造工具。文章介绍了小乌鸦们自己做的 3 种很有智慧的工具。第 1 段讲的是前两种工具, 一个是个吊钩 hook, 第 2 种是根本棍 stick, 是乌鸦把某种树枝上面对生的叶片 paired leaves 去掉, 剩下一根棍棍, 还有头上的一个用像玫瑰的刺 rose-like thorn 做成的一个工具。第 2 段说第 3 种工具。是用叶子做的, 一边是乌鸦撕扯成的锯齿状, 有 3 ~ 4 个阶梯。科学家重点研究了这种工具, 因为它们发现乌鸦制作的这种工具都是同一型号和造型的。难道它们在制作工具之前在头脑里面就已经设想好这种工具了? 或者是有设计好的蓝图还是什么? 科学家不能抓到正在制作工具的活的乌鸦, 依据是在树林里发现了大量的那种树叶的碎片。它们都是以同样的方式被撕扯的。

后面提到另一种鸟类, 它们生活在某岛屿上。它们也制作工具, 并且这种技能可以依靠基因进行遗传。科学家们已经证实了这一点, 但是并不能确定新苏格兰乌鸦就是这种情况。

下面一段开始说人类的祖先和新苏格兰乌鸦有些相似之处。主要说的是二者的大脑都很厉害, 因为他们的大脑都是分区域使用的, 某个特定的区域控制特定的行为。这就是为什么大多数人类都是右撇子的原因所在。通过分析新苏格兰乌鸦制作工具的痕迹, 科学家发现它们倾向于使用右侧的翅膀。

后面一段说人类和新苏格兰乌鸦的其他相似之处。比如都是社会型的动物, 都有广泛的食谱等。

雅思一月通 阅读胜典

本书体例新颖，编排独特。在编写过程中，编者打破了传统的编排方法，按照考生一个月的备考时间进行编写，学习内容具体到每一天，且周六、周日没有安排学习内容，考生们可以利用周末的时间，把本周的内容复习一下。本书按照实际阅读考试的内容进行划分，第一周指导考生必会的雅思阅读解题技巧，第二周帮助考生检测自己的雅思阅读水平，并在第三周通过历年真题的讲解，让考生熟悉雅思阅读的出题思路，在第四周时，告诉考生雅思的阅读机经，让考生备考。这种编排使得全书简明实用，非常适合雅思考生稳步备考。考生可以循序渐进地掌握雅思应考知识，提高自我的应考能力。为了帮助考生深入学习，本书还附赠了雅思阅读3000高频词汇，辅助考生取得雅思阅读考试高分。
