11-3-1 P.57

- The 'Family Welcome' event in the art gallery begins at
 - 10 am.
 - 10.30 am.
 - 2 pm.
- The film that is now shown in the 'Family Welcome' event is about
 - sculpture.
 - painting.
 - ceramics.
- When do most of the free concerts take place?
 - in the morning
 - at lunchtime
 - in the evening
- Where will the 4 pm concert of Latin American music take place?
 - in a museum
 - in a theatre
 - in a library
- The boat race begins at
 - Summer Pool.
 - Charlesworth Bridge.
 - Offord Marina.
- One of the boat race teams
 - won a regional competition earlier this year.
 - has represented the region in a national competition.
 - has won several regional competitions.

15

11-3-1

- MARTIN: Yes, of course. OK. Then let's start with a couple of events especially for children.
The art gallery is holding an event called 'Family Welcome' that day, when there are activities and trails to use throughout the gallery.
- SUE: That sounds interesting. What time does it start?
- MARTIN: The gallery opens at 10, and the 'Family Welcome' event runs from 10.30 until 2 o'clock. The gallery stays open until 5. And several times during the day, they're going to show a short film that the gallery has produced. It demonstrates how ceramics are made, and there'll be equipment and materials for children to have a go themselves. Last time they ran the event, there was a film about painting, which went down very well with the children, and they're now working on one about sculpture. Q1
Q2
- SUE: I like the sound of that. And what other events happen in Burnham?
- MARTIN: Well, do you all enjoy listening to music?
- SUE: Oh, yes.
- MARTIN: Well there are several free concerts taking place at different times – one or two in the morning, the majority at lunchtime, and a couple in the evening. And they range from Q3
pop music to Latin American.
- SUE: The Latin American could be fun. What time is that?
- MARTIN: It's being repeated several times, in different places. They're performing in the central library at 1 o'clock, then at 4 it's in the City Museum, and in the evening, at 7.30, Q4
there's a longer concert, in the theatre.
- SUE: Right. I'll suggest that to the rest of the family.
- MARTIN: Something else you might be interested in is the boat race along the river.
- SUE: Oh, yes, do tell me about that.
- MARTIN: The race starts at Offord Marina, to the north of Burnham, and goes as far as Q5
Summer Pool. The best place to watch it from is Charlesworth Bridge, though that does get rather crowded.

何琼雅思原创课件 课程主页heqiong.ke.qq.com 微信heqiongyasi 微博@何琼J

16

11-3-1

SUE: And who's taking part?

MARTIN: Well, local boat clubs, but the standard is very high. One of them came first in the West of England regional championship in May this year – it was the first time a team from Burnham has won. It means that next year they'll be representing the region in the national championship.

SECTION 2 Questions 11–20

Questions 11–14

Choose the correct letter, A, B or C.

New city developments

- 11 The idea for the two new developments in the city came from
 - A local people.
 - B the City Council.
 - C the SWRDC.
- 12 What is unusual about Brackenside pool?
 - A its architectural style
 - B its heating system
 - C its method of water treatment
- 13 Local newspapers have raised worries about
 - A the late opening date.
 - B the cost of the project.
 - C the size of the facilities.
- 14 What decision has not yet been made about the pool?
 - A whose statue will be at the door
 - B the exact opening times
 - C who will open it

10-2-2

SECTION 2

Good morning. I'm very pleased to have this opportunity to say a little about two exciting new developments in the city: the Brackenside Open-Air Swimming Pool and the children's Adventure Playground in Central Park. As many of you may know, the idea for these initiatives came from you, the public, in the extensive consultation exercise which the City Council conducted last year. And they have been realised using money from the SWRDC – the South West Regional Development Commission.

Q11

First of all, Brackenside Pool. As many of the older members of the audience will remember, there used to be a wonderful open-air pool on the sea front 30 years ago but it had to close when it was judged to be unsafe. For the design of this new heated pool, we were very happy to secure the talents of internationally renowned architect Ellen Wendon, who has managed to combine a charming 1930s design, which fits in so well with many of the other buildings in the area, with up-to-the-minute features such as a recycling system – the only one of its kind in the world – which enables seawater to be used in the pool.

Q12

Now, there has been quite a bit of discussion in the local press about whether there would be enough room for the number of visitors we're hoping to attract, but the design is deceptive and there have been rigorous checks about capacity. Also, just in case you were wondering, we're on schedule for a June 15th opening date and well within budget: a testimony to the excellent work of local contractors Hickman's.

Q13

We hope that as many people as possible will be there on June 15th. We have engaged award-winning actress Coral White to declare the pool open and there'll be drinks and snacks available at the pool side. There'll also be a competition for the public to decide on the sculpture we plan to have at the entrance: you will decide which famous historical figure from the city we should have.

Q14

14-1-3

Cities built by the sea

- 21 Carla and Rob were surprised to learn that coastal cities
 - A contain nearly half the world's population.
 - B include most of the world's largest cities.
 - C are growing twice as fast as other cities.
- 22 According to Rob, building coastal cities near to rivers
 - A may bring pollution to the cities.
 - B may reduce the land available for agriculture.
 - C may mean the countryside is spoiled by industry.
- 23 What mistake was made when building water drainage channels in Miami in the 1950s?
 - A There were not enough of them.
 - B They were made of unsuitable materials.
 - C They did not allow for the effects of climate change.
- 24 What do Rob and Carla think that the authorities in Miami should do immediately?
 - A take measures to restore ecosystems
 - B pay for a new flood prevention system
 - C stop disposing of waste materials into the ocean
- 25 What do they agree should be the priority for international action?
 - A greater coordination of activities
 - B more sharing of information
 - C agreement on shared policies

何琼雅思原创课件 课程主页heqiong.ke.qq.com 微信heqiongyasi 微博@何琼J

32

14-1-3

Section 3, Questions 21–30

- 21 B
22 A
23 C
24 B
25 A

CARLA: OK Rob. I'm glad we chose quite a specific topic – cities built next to the sea. It made it much easier to find relevant information.

ROB: Yeah. And cities are growing so quickly – I mean, we know that more than half the world's population lives in cities now.

CARLA: Yeah, though that's all cities, not just ones on the coast. But most of the biggest cities are actually built by the sea, I'd not realised that before. Q21

ROB: Nor me. And what's more, a lot of them are built at places where rivers come out into the sea. But apparently this can be a problem.

CARLA: Why?

ROB: Well, as the city expands, agriculture and industry tend to spread further inland along the rivers, and so agriculture moves even further inland up the river. That's not necessarily a problem, except it means more and more pollutants are discharged into the rivers. Q22

CARLA: So these are brought downstream to the cities?

ROB: Right. Hmm. Did you read that article about Miami, on the east coast of the USA?

CARLA: No.

ROB: Well, apparently back in the 1950s they built channels to drain away the water in case of flooding.

CARLA: Sounds sensible.

ROB: Yeah, they spent quite a lot of money on them. But what they didn't take into account was global warming. So they built the drainage channels too close to sea level, and

何琼雅思原创课件 课程主页heqiong.ke.qq.com 微信heqiongyasi 微博@何琼J

33

14-1-3

now sea levels are rising, they're more or less useless. If there's a lot of rain, the water can't run away, there's nowhere for it to go. The whole design was faulty.

CARLA: So what are the authorities doing about it now?

ROB: I don't know. I did read that they're aiming to stop disposing of waste water into the ocean over the next ten years.

CARLA: But that won't help with flood prevention now, will it?

ROB: No. Really they just need to find the money for something to replace the drainage channels, in order to protect against flooding now. But in the long term they need to consider the whole ecosystem. Q24

CARLA: Right. Really, though, coastal cities can't deal with their problems on their own, can they? I mean, they've got to start acting together at an international level instead of just doing their own thing.

ROB: Absolutely. The thing is, everyone knows what the problems are and environmentalists have a pretty good idea of what we should be doing about them, so they should be able to work together to some extent. But it's going to be a long time before countries come to a decision on what principles they're prepared to abide by. Q25

CARLA: Yes, if they ever do.

何琼雅思原创课件 课程主页heqiong.ke.qq.com 微信heqiongyasi 微博@何琼J
