SUPERVISOR: Hi, Joanna, good to meet you. Now, before we discuss your new research project, I'd like to hear something about the psychology study you did last year for your Master's degree. So how did you choose your subjects for that?

JOANNA: Well, I had six subjects, all professional musicians, and all female. Three were violinists and there was also a cello player and a pianist and a flute player. They were all very highly regarded in the music world and they'd done quite extensive tours in different continents, and quite a few had won prizes and competitions as well.

120

SUPERVISOR: And they were quite young, weren't they?

JOANNA: Yes, between 25 and 29 – the mean was 27.8. I wasn't specifically looking for artists who'd produced recordings, but this is something that's just taken for granted these days, and they all had. Q21 & 22

- B It allowed the involvement of top performers.
- C It led to a stressful atmosphere at times.
- D It meant interview times had to be limited.
- E It caused some technical problems.

SUPERVISOR: Right. Now you collected your data through telephone interviews, didn't you?

JOANNA: Yes. I realised if I was going to interview leading musicians it'd only be possible over the phone because they're so busy. I recorded them using a telephone recording adaptor. I'd been worried about the quality, but it worked out all right. I managed at least a 30-minute interview with each subject, sometimes longer. Q23 & 24

SUPERVISOR: Did doing it on the phone make it more stressful?

JOANNA: I'd thought it might ... it was all quite informal though and in fact they seemed very keen to talk. And I don't think using the phone meant I got less rich data, rather the opposite in fact. Q23 & 24

- C changes in performer attitudes to concert dress
- D how choice of dress relates to performer roles
- E links between musical instrument and dress choice

SUPERVISOR: Interesting. And you were looking at how performers dress for concert performances?

JOANNA: That's right. My research investigated the way players see their role as a musician and how this is linked to the type of clothing they decide to wear. But that focus didn't emerge immediately. When I started I was more interested in trying to investigate the impact of what was worn on those listening, and also whether someone like a violinist might adopt a different style of clothing from, say, someone playing the flute or the trumpet. Q25 & 26

SUPERVISOR: It's interesting that the choice of dress is up to the individual, isn't it?

JOANNA: Yes, you'd expect there to be rules about it in orchestras, but that's quite rare.

Which **TWO** of the following are offered free of charge at Shore Lane Health Centre?

9-4-1 :

WOMAN:	Erm ... there are usually some small charges that doctors make. Let me see what it says about the Shore Lane Centre. <u>If you need to be vaccinated before any trips abroad, you won't have to pay for this.</u> Erm, what else? The sports injury treatment service operates on a paying basis, as does the nutritional therapy service. Some health centres do offer alternative therapies like homeopathy as part of their pay-to-use service. Shore Lane are hoping to do this soon – I think they may start with acupuncture. And finally, <u>if you need to prove you're healthy or haven't had any serious injuries before a new employer will accept you, you can get a free fitness check-up there,</u> but you'd most likely have to pay for insurance medicals though.
MAN:	Okay, thanks.
