2018年中国大陆考生雅思成绩分析

(1)2016-2018中国大陆雅思A类平均分

年份	听力	阅读	写作	口语	总分
2018	5.89	6.17	5.39	5.39	5.78
2017	5.9	6.11	5.37	5.39	5.76
2016	5.79	6.01	5.24	5.28	5.64

2018年，中国大陆地区A类总成绩平均5.78分，其中听力、阅读、写作、口语、分别为5.89、6.17、5.39、5.39分。阅读成绩最高，听力次之，口语写作成绩依然较低;但对比前两年A类成绩，除听力单项比2017年下降0.01分外，均有提升。

Now I just want to run through a few company policies for our apprenticeship scheme with you... Most importantly, the internet. As part of your job you'll be doing some research online so obviously you'll have unlimited access for that but please don't use it for personal use – you'll have your own phones for that. Q15

98

腾讯课堂独家直播 微博@何琼J 微信heqiongyasi

Test 1

Some of you have already asked me about flexible working. After your probationary three-month period – some of you will be eligible for this – but it will depend on which department you're in and what your personal circumstances are. So please don't assume you'll automatically be permitted to do this. Q16

I want to make sure there's no confusion about our holiday policy. Apart from any statutory public holidays we ask that you don't book any holidays until after your six-month apprenticeship has finished. Time off should only be taken if you are unwell. Please speak to your supervisor if this is going to be a problem. Q17

You'll be expected to work a 40-hour week but there may be opportunities to do overtime during busy periods. Although you're not required to do this, it can be a valuable experience – so we advise you to take it up if possible. Obviously, we understand that people do have commitments outside work, so don't worry if there are times when you are unavailable. Q18

As you know, we don't have a formal dress code here – you may wear casual clothes as long as they're practical – and the only restriction for shoes we have is on high heels for health and safety reasons. Comfortable shoes like trainers are preferable. Q19

There's a heavily subsidised canteen on site where you can get hot meals or salads cheaply. Snacks and drinks are also provided – so we've decided to introduce a no packed lunch policy. This is partly to encourage healthy eating at work and partly to stop people from eating at their workstation, which is unhygienic. Q20

OK moving on to ...

1/12/2020

JAMES: No, I haven't. There's so much that seems interesting – Viking settlement in other countries, trade, mythology...

BETH: Well, what I suggest is that you read an assignment a student wrote last year, which is kept in the library. It's short and well focused, and I'm sure you'll find it helpful. I'll give you the details in a moment. Textbooks usually cover so many topics, it can be very difficult to choose just one. Q26

JAMES: OK. I've got a DVD of the film about the Vikings that came out earlier this year. Should I watch that again?

BETH: If it's the one I am thinking of, hmm, I'd ignore it – it's more fantasy than reality. But I've got a recording of a documentary that you should watch. It makes some interesting and provocative points, which I think will help you to focus your topic. Q27

JAMES: Right.

JAMES: So then should I work out an outline? Q28

BETH: Yes. Just headings for different sections, at this stage. And then you should start looking for suitable articles and books to draw on, and take notes which you organise according to those headings. Q29

JAMES: I see.

BETH: Then put short phrases and sentences as bullet points under each heading. Make sure that this skeleton makes sense and flows properly, before writing up the paper in full. Q30

JAMES: OK. Thanks, that's very helpful.

- EMMA: Anyway, shall we have a look at the procedure for our experiment? We'll need to get going with it quite soon.
- JACK: Right. So the first thing we have to do is find our seeds. I think vegetable seeds would be best. And obviously they mustn't all be the same size. So, how many sorts do we need? About four different ones? Q26
- EMMA: I think that would be enough. There'll be quite a large number of seeds for each one.
- JACK: Then, for each seed we need to find out how much it weighs, and also measure its dimensions, and we need to keep a careful record of all that. Q27
- EMMA: That'll be quite time-consuming. And we also need to decide how deep we're going to plant the seeds – right on the surface, a few millimetres down, or several centimetres. Q28
- JACK: OK. So then we get planting. Do you think we can plant several seeds together in the same plant pot? Q29
- EMMA: No, I think we need a different one for each seed.
- JACK: Right. And we'll need to label them – we can use different coloured labels. Then we wait for the seeds to germinate – I reckon that'll be about three weeks, depending on what the weather's like. Then we see if our plants have come up, and write down how tall they've grown. Q30
- EMMA: Then all we have to do is look at our numbers, and see if there's any relation between them.
- JACK: That's right. So ...

TUTOR: So why don't you quickly go through the main sections of your presentation and discuss what action's needed for each part?

MARTIN: OK. So for the introduction, we're using a visual, so once we've prepared that we're done.

ROSIE: I'm not sure. I think we need to write down all the ideas we want to include here. Q25

MARTIN: You're right.

ROSIE: The discovery of the mammoth tooth is probably the most dramatic part, but we don't have that much information, only what we got from the online article. I thought maybe we could get in touch with the researcher who led the team and ask him to tell us a bit more. Q26

MARTIN: Great idea. What about the section with the initial questions asked by the researchers? We've got a lot on that but we need to make it interesting.

ROSIE: We could ask the audience to suggest some questions about it and then see how many of them we can answer. I don't think it would take too long. Q27

TUTOR: Yes that would add a bit of variety.

MARTIN: Then the section on further research carried out on the island – analysing the mud in the lake. I wonder if we've actually got too much information here, should we cut some?

ROSIE: I don't think so, but it's all a bit muddled at present.

MARTIN: Yes, maybe it would be better if it followed a chronological pattern. Q28

ROSIE: I think so. The findings and possible explanations section is just about ready, but we need to practise it so we're sure it won't overrun. Q29

MARTIN: I think it should be OK, but yes, let's make sure.

TUTOR: In the last section, relevance to the present day, you've got some good ideas but this is where you need to move away from the ideas of others and give your own viewpoint. Q30

MARTIN: OK, we'll think about that. Now shall we ...
