

Describe a time when you got lost

You should say

When and where it happened

Who was/were with you

How you felt when you got lost

And explain how you eventually found your way

Um, well, it was actually two months ago. One of my best friends, Alex, was throwing a birthday party in a different part of town, to be precise, it was in the northwest. A couple of my other friends and I live in the southeast. It was really far away, so we decided to drive there.

I was with three other friends. All of us are really close to Alex, the birthday person. One of us is a well-experienced driver, so that day, he was responsible for taking us there. Oh, by the way, his English name is Arthur.

When we were halfway there, there was a really heavy traffic jam and you know, the cars were kind of packed like sardines, so Arthur suggested that we make a detour and it would be even faster. However, after about 15 minutes or so, we somehow made a wrong turn and ended up in the middle of nowhere. Everyone was extremely confused and we felt pretty bad cause we were running late for the party.

Then, Arthur, the experienced driver, and also the one who was responsible for us getting lost, said, 'Let's just drive in the direction of our destination and eventually we will find our way back.' luckily, it worked, but we ended up being 20 minutes late.

Halfway there 在半路

Make a detour 绕道

Somehow 不知怎么

Ended up in the middle of nowhere 最后不知跑哪去了

Confused 困惑的

Running late 要迟到了
