制作 Smoked fish:

Catch-transport-port-factory(freeze)-defrost-cut in half-soak(salty water with yellow coloring)-smoke/hang-pack-freeze--cold store--distribute-sell 难点在于连接+凑字数

The diagram illustrates how the smoked fish are produced divided into three main steps mainly including picking, processing and selling respectively.

As is shown in the flow chart, the first step is to catch the fish from the sea, and then they will be transported to the port by the ship. After reaching the harbour, the fish are usually delivered to

the factory where they will be processed. Subsequently, the workers would freeze those fresh fish in the freezer for a certain period of time, after which they will be placed into a large container with normal temperature used for thawing. Once defrosted completely, the fish will be cut in half by the machine, which are then soaked in the salty water with coloring until turning yellow.

When the soaking is finished, the yellow salty fish are hung in lines and smoked in a large heating equipment, which is almost the most important stage. After smoking for a certain amount of time, they are ready for sale, so the next step is to pack them in boxes and freeze them again. After that, the frozen fish are stored in the cold store for several days, after which they will be distributed to the supermarkets where they are picked by customers. (连接词+凑字数)

制作 peach cans

Pick-transport-wash-peel-cut in half-soak-steam-pack-deliver-sell

The diagram illustrates how the peach cans are produced divided into three main steps including picking, processing and selling respectively.

As is shown in the diagram, the first step is to pick the peaches from the tree, and then they will be transported to the factory by the truck. After arriving at the plant, the peaches are placed into a large container where they will be washed. As washing is done, the clean peaches are peeled by the machine, after which they will be cut in half by knives prepared for the next step.

After that, the peach pieces are soaked in the water full of sugar until turning sweet. When soaking is finished, the peaches are steamed in the heating equipment by the water. Finally, the processed pieces are put in cans and packed in boxes, which are then delivered to the supermarket where they will be picked by customers.

不喜欢重复

省略 that

定语从句无主语---就不再是定语从句

状语从句使用范例：

Transportation and housing pressure--some people suggest to move major companies to the rural areas.

Do advantages outweigh disadvantages?

This development does more good than harm.

Admittedly, there are some drawbacks of this measure. Firstly, the movement of major companies will certainly cost a great amount of money such as renting new offices, transporting belongings and decoration fees. The plan may be not expected in the budget so that it may cause imbalance between incomes and costs. Secondly, many employees may decide to quit their jobs due to their concern about children's education, medical care and the poor living environment, which may lead to some turnover of talents.

However, in my opinion, there are still some benefits in the long run. If the companies are moved to the countryside, they may recruit some local talents to work there, thus increasing the employment rate of the local area. Meanwhile, it can boost the service industry of the locals with an increasing amount of people rolling in.

Some people who have been in prison become good citizens later, and it is often argued that these are the best people to talk to teenagers about the dangers of committing a crime.

To what extent do you agree or disagree?

第二段

On the one hand, 改造好的前科犯的演讲确实更有说服力。

This is because 这些人真实经历过他们如何卷入一场犯罪活动中、监狱的悲惨生活和出狱之后找工作的困难。

Therefore/So, 相比于老师家长或者警官的说教，罪犯基于事实的演讲更加生动并可以消除青少年心中关于罪犯都在过光鲜生活的错误观点。

As a result, 学生更倾向于听从改造好的前科犯的观点。

On the one hand, it is true that lectures delivered by reformed criminals are more convincing. This is because they have truly gone through how to be involved in a crime, miserable life when serving the sentence and the difficulties of securing a job after being released. So compared with monotonous talk of parents and teachers, their stories based on the fact can be more vivid

and dispel teenagers' wrong idea that criminals are leading a glamorous life. As a result, teenagers are more likely to take advice from those reformed ex-prisoners who speak from their experience.
